

RECYCLING at our facility is a **PRIORITY**.

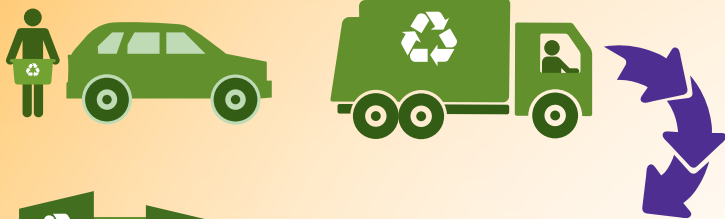

RECYCLING

AT THE MILLERSVILLE LANDFILL & RESOURCE RECOVERY FACILITY

RECYCLING - A LIFE CYCLE

Recyclable items are dropped off at the recycling center.

Anne Arundel County transports recyclables to the recycling facility where they are sorted and processed.

Recycling processors sell the items to various manufacturers. Those manufacturers use the recycled material to make new products.

The recycled items come back to consumers as new items such as bottles, paper, and even carpet.

When you recycle, you:

- help keep fees low and affordable
- extend the life of the County's only municipal landfill
- save valuable manufacturing resources from being wasted
- could improve your bottom line, if you operate a business

Waste Management Services **RECYCLING CENTERS**

NORTHERN

100 Dover Rd.,
Glen Burnie, MD 21060

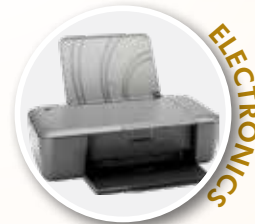

CENTRAL

389 Burns Crossing Rd.,
Severn, MD 21144

PROPER LOADING of MATERIAL

For a quick and safe visit, organize your load so that you can unload each material separately at different sections of the facility. Prepare to unload your recyclables in the Recycling Area first. If you have large quantities of several types of materials, consider bringing only one material per trip.

SORT YOUR ITEMS

- Cardboard
- Electronics
- Lead-acid Batteries
- Paper, Plastic, Metal & Glass
- Rubble
- Scrap Metal
- Shingles (ASPHALT)
- Tires
- Vinyl Siding
- Wood Pallets
- Yard Waste
- Trash

All loads are subject to inspection.

RECYCLABLES ACCEPTED at the LANDFILL
