

## Research Study Do You Know Someone?

### Older Adults and Depression

We are recruiting family or significant others of older adults (aged 65 or older) with depression for a research study. Participation in the study includes answering a brief questionnaire and participation in a 1 and ½ to 2- hour Focus Group session.

To qualify for this research study your significant other or family member must meet the following criteria:

- 1) Have a doctor's diagnosis of depression *and*
- 2) Currently being treated or monitored for depression

And You Must:

- 3) Live with the person with depression *or*
- 4) Help them with their medical care

You will be paid \$20 for your participation and lunch will be provided.
