

Research Study

Older Adults and Depression

We are recruiting older adults (aged 65 or older) for a research study on depression. Participation in the study includes answering a brief questionnaire and participation in a 1 and ½ to 2-hour Focus Group session.

To qualify for this research study you must meet the following criteria:

- 1) Have a doctor's diagnosis of depression *and*
- 2) Currently being treated or monitored for depression

You will be paid \$20 for your participation and lunch will be provided.
