

# JONES STATION FIRE STATION ADDITION

## Background

Construction of two drive thru bays totaling 2,700 square feet will be built to the north of the existing fire station. Currently there is not enough room at the existing station to park all the vehicles in their own space and out of the weather.

## Benefits

- Will provide parking out of the weather for the Hazmat vehicle and the Special Operations vehicle which will extend the life of the vehicles
- The added space will help to eliminate damage to the vehicles and the need to move other emergency vehicles out of the way.

## Project Information

Project Manager	Rajan Nigam (410) 222-7938
Design Consultant	Grant Hart Brunnett
Contractor	Chris Labasky 410-234-8444
Inspection Manager	Dewberry & Davis 410-265-9500
Projected Project Cost	\$924,000
Design Notice to Proceed	September 2004
Construction Notice to Proceed	July 2005
Projected Completion Date	August 2006

## PROJECT STATUS

The project is complete.
