

# PASADENA AT LAKE WATERFORD

## Background

The MD 648 (Baltimore-Annapolis Boulevard) and Pasadena Road/Catherine Avenue Intersection was identified, as a location warranting upgrades, in the East-West Boulevard traffic study analysis. Traffic modeling forecasted that volume demand along MD 648 (northbound) and Pasadena Road (eastbound) would increase due to the new East-West Boulevard connection between Veterans Highway and MD 2 (Ritchie Highway). This project specifically provides for left turn lanes at each leg of the four-way intersection.

## Benefits

- Traffic operations will improve by providing exclusive left turn lanes in all directions.
- Intersection reconfiguration will provide handicap access, sidewalks, and pedestrian signals enhancing ingress/egress to the Lake Waterford Park.
- Improved riding surface.
- Improved drainage

## Project Status

- Design complete
- SHA Access Permit review/approval
- Soil Conservation District review/approval

## Project Information

Project Manager	Dennis Fretz (410) 222-7345
Design Consultant	Development Facilitators, Inc.
Contractor	TBD
Inspection Manager	Greenman-Pedersen, Inc.
Estimated Total Project Cost	\$1.7M
Design Notice to Proceed	March 1998
Construction Notice to Proceed	November 2010
Projected Completion Date	April 2011
