Public Works Responsibility After Petition is Received

After the petition has been received and validated, not later than six (6) months after the date of the petition, the Director of Public Works, or his designee, will advise the petitioners concerning whether or not the petition, as submitted, is valid for further consideration by the county. If the petition is not valid, petition spokesperson will be advised what steps are necessary in order to make the petition administratively acceptable.

The County will arrange to have the roadway inspected to determine compliance with Anne Arundel County Standard Specifications and Details for construction. This field inspection will determine if the roadway visually appears to meet minimum construction standards, allowing the petition process to go forward. If the roadway fails the visual inspection, the spokesperson for the petitioners will be notified of the reasons. At this point the petitioners have the option of withdrawing the petition. For the petition to move forward, it becomes the responsibility of the petitioners to have an assessment performed detailing the extent of work needed for the roadway to meet County standards. Based on the assessment and cost estimate, the petitioners must decide whether to proceed with the petition. If the decision is made to proceed, the County will review the construction plans to confirm compliance with County standards. Once all necessary construction has been completed, the County will begin the procedure to transfer fee simple ownership to Anne Arundel County.

***The County will not maintain any road until the entire right of way has been turned over to the County, accepted and so recorded.***

Please provide the information requested in accordance with these instructions. If you have any questions after you have read these instructions and studied the petition form, please call Todd Fiedorowicz, Program Manager, at 410-222-7321.
