

# Anne Arundel County Travel Guide

---

## **0-6 inches Slippery Roads!**

### **Main and Collector Roads**

Continuous plowing. Thru lanes plowed to bare pavement up to 24 hours after the end of the storm.

### **Residential Streets**

Plowing equipment will enter the residential streets after the main and collector roads are completed. Streets will be passable\* (but not cleared to bare pavement) up to 36 hours after the end of the storm

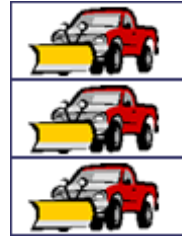

## **6-14 inches Hazardous Roads!**

### **Main and Collector Roads**

Continuous plowing. Thru lanes are plowed to bare pavement up to 24-36 hours after the end of the storm.

### **Residential Streets**

Plowing equipment will enter the residential streets after the main and collector roads are completed. Streets will be passable\* (but not cleared to bare pavement) 2-3 days after the end of the storm.

## **14 inches and above Treacherous Roads!**

### **Main and Collector Roads**

Continuous plowing. Thru lanes plowed to bare pavement up to 24-48 hours after the end of the storm. Expect narrowed and/or blocked lanes due to accumulations.

### **Residential Streets**

Plowing equipment will enter the residential streets after the main and collector roads are completed. Streets will be make passable\* (but not cleared to bare pavement) 3-4 days after the end of the storm.

## **Freezing Rain or Ice Very Treacherous Roads!**

### **Main and Collector Roads**

Continuous salting and/or sanding until road conditions improve. Bridges, ramps, underpasses freeze first. Possible traffic signal outages and tree limbs in roadway.

### **Residential Streets**

Sanding and/or salting begins, as needed, up to 24 hours after the storm ends. Possible traffic signal outages and tree limbs in roadway.

**\*Passable means that the road may be snow packed, only one travel lane will be plowed, and all-weather tires are a must.**
