Re: IO-02-46

The ethics commission directed me to express its appreciation for your attendance and input into the discussion initiated by the firefighter's union, represented by -- and --. At this time, the commission stands by its decision. However, if you would like the commission to reconsider the matter once a resolution has been introduced, please provide the commission with a copy of the proposed resolution, so that it may consider the specific issues involved and provide you with a prompt response.

Sincerely,

Betsy K. Dawson
Executive Director
