Dear: Director of Anne Arundel County Fire Department

I would like to extend my gratitude to you for your participation in the High School Healthcare Exploration Program at Anne Arundel Medical Center this past June. The primary goal of the program was to inspire area high school students to consider a career in healthcare by providing them an opportunity to get an inside look at our daily routines. I feel with the help of you and your staff, this goal was achieved. Twelve students participated in the program; some of them were considering careers other than healthcare prior to their experience. Currently all of them are now dedicated to pursuing a healthcare career.

Please extend my thanks to Missy Silvers, Russel Daires, and Tom Hughes from Station 40 who gave a wonderful presentation. They succinctly outlined the roles of EMTs and paramedics as team members in patient care delivery and how they fit in the healthcare team. The students loved their stories, as well as the opportunity to get inside the ambulance.

On behalf of the High School Healthcare Exploration Committee and Anne Arundel Medical Center, I thank you again for donating your valuable time and expertise to our program. If you have any questions, please call me [REDACTED]

Best regards,

Sandy Fox, RN, MSN, CCRN
Program Manager, HSCRC Nursing Grant
Department of Education and Professional Development
