

## **APPENDIX 7**

The Patuxent River Policy Plan recommendations are:

- ◆ Establish a primary management area to protect environmentally sensitive areas;
- ◆ Implement best management practices and vegetative buffers to control storm water impacts;
- ◆ Identify and address major non-point source pollution sites;
- ◆ Retrofit existing development;
- ◆ Accommodate future development;
- ◆ Increase recreation and open space;
- ◆ Protect forest cover;
- ◆ Preserve agricultural land;
- ◆ Management sand and gravel extraction; and
- ◆ Adopt an annual action program.
