

## Medical Services

Medical care (to include dental, vision, and mental health services) is provided for all inmates committed to JRDC who require treatment. While every effort is made to ensure the diagnosis and treatment of medical conditions that exist upon arrival at JRDC, it is important that inmates inform the medical staff of any condition for which treatment and/or medication was necessary prior to their arrival

## Medication

Prescribed medication will be ordered by Medical Staff and Physicians and dispensed by Medical Staff.
