Anne Arundel County Department of Inspections and Permits Increases Site Inspection and Enforcement Actions for Offsite Erosion and Sediment Deposition Resulting from Rainfall Events

The Department of Inspections and Permits, Site Inspections will diligently inspect active construction sites and fully enforce Article 16-5-101(11) of the County Code to reduce the occurrence of offsite erosion and sediment deposition from rainfall events and adverse impacts to adjacent properties.

Developers and/or contractors are required to monitor site outfall(s) before and after every rain event. The Department will continue to review and inspect site outfall(s) and downstream conditions for erosion and/or sediment deposition and issue a notice of violation and a notice to cure for any site not in compliance.

Please see the attached guidance memo and Monitoring Device Detail, effective March 15, 2021.

For more information please contact Raghu Badami, Engineer Manager at 410-222-6137 or ipbada78@aacounty.org.
