Good News # 170

Thank You! - Anne Arundel County Medic Preceptors

Hello,

Please extend to Adrienne Rodgers our thanks for great precepting. Here is a comment one of the students made about their shift together.

Adrienne was a huge help and a great person to learn from. If you asked her a question I think she did a great job in explaining it and if she didn't know she would figure it out to get you an answer. I thought the ride along went really well.

We could not make competent entry level providers without your preceptors and their dedication to their new partners and coworkers.

Thank you,
Tina

Anne Arundel Community College

Hello,

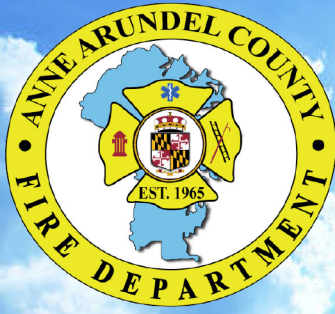

Please extend to Annie Nickoles our thanks for great precepting. Here is a comment one of the students made about their shift together.

I really enjoyed working with Annie, she has a great mindset and very willing to teach you and help you out any way she can. You would never know she is a newer medic, her being newer also helped a lot because she knew exactly what we are being taught and was able to provide just little tricks to help understand the different topics. I highly recommend sending more people to work with her.

We could not make competent entry level providers without your preceptors and their dedication to their new partners and coworkers.

Thank you,
Tina

Good News # 170

Thank You! - Anne Arundel County Medic Preceptors

Good morning,

Please extend our thanks to Casey Ross and the crew at station 30. Here are the comments one of the students left in their evaluation from their shift together.

Casey Ross was my preceptor. She was great; let me run the calls completely and stepped in when necessary. She also quizzed me and pushed me to go deeper into the pathophysiology and knowing certain medications on calls. She was very knowledgeable and a great teacher. The crew at 30 was also very nice and helpful on calls.

We appreciate precepting like this because it is the best way to help may new providers and coworkers hone their skills. Thank you.

Tina

Hello,

Please extend to Todd Baylis our thanks for great precepting. Here is a comment one of the students made about him.

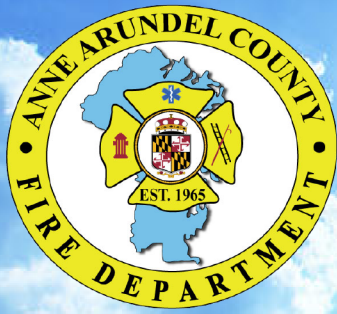

I had a split shift between two preceptors and Brad was great to work with. He took time to show me around, make me feel welcome, and educate me when I had any questions about Paramedicine. Brad seems to enjoy his job and it shows through his willingness to help teach me as a new provider. I hope to work with him again in the future.

Thank You! - Anne Arundel County Medic Preceptors

Hello,

Please extend to James Sheehan our thanks for great precepting. Here is a comment one of the students made about him.

James was great to learn from and seems to really care about his job. He took patient care seriously and made sure that he was very thorough. I enjoyed learning from him and hope that I have him as a preceptor down the road.

We could not make competent entry level providers without your preceptors and their dedication to their new partners and coworkers.

Thank you,

Tina

Hello,

Please extend to Jeffra Gellert our thanks for great precepting. Here is a comment one of the students made about him.

Jeff was willing to answer any questions I had and walk me through stuff I didn't understand. He helped me out a lot.

We could not make competent entry level providers without your preceptors and their dedication to their new partners and coworkers.

Thank you,

Tina

Hello,

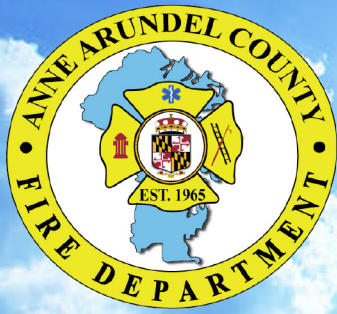

Please extend to Rachel Eppig our thanks for great precepting. Here is a comment one of the students made about her.

RACHEL WAS AN AWESOME PRECEPTOR. SHE IS VERY KNOWLEDGABLE AND PASSIONATE ABOUT BEING A PARAMEDIC. SHE ALSO DID A NICE JOB OF MAKING ME THINK AND "PROBE" MY BRAIN AS A FUTURE PARAMEDIC PROVIDER.

We could not make competent entry level providers without your preceptors and their dedication to their new partners and coworkers.

Thank you,

Tina

Thank You! - Anne Arundel County Medic Preceptors

Hello,

Please extend to JoElyn Gill our thanks for great precepting. Here is a comment one of the students made about their shift together.

Joelyn was amazing! She was very knowledgeable and allowed me to become comfortable running calls, forming field impressions, and overall operating at the level that I'm expected to function in the field with where I'm at in the program. We talked through calls and she was open to my questions. Overall she was great, I hope I am able to work with her and Rick again. Both are great providers to learn from!

Hello,

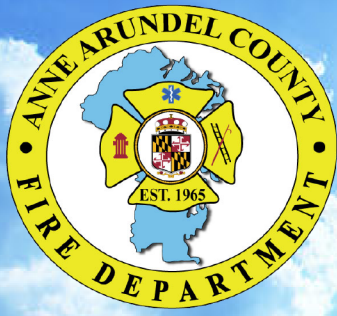

Please extend to Kerri Maguire our thanks for great precepting. Here is a comment one of the students made about their shift together.

Kerri was great she really allowed me to step into that leadership role and gave me the opportunity to perform many skills without interventions.

Thank You! - Anne Arundel County Medic Preceptors

Hello,

Please extend to Rob Bonner our thanks for great precepting. Here is a comment one of the students made about their shift together.

Preceptor was friendly and willing to allow me to take the lead on calls. He also took time to explain what he was doing and where things fit into what he was thinking to give a better idea of how the call was progressing.

We could not make competent entry level providers without your preceptors and their dedication to their new partners and coworkers.

Thank you,
Tina

Anne Arundel Community College

Hello,

Please extend to Ron Alexander our thanks for great precepting. Here is a comment one of the students made about him.

He was very willing to teach and assist in any way he could with my education. He was honestly one of the first preceptors to fully allow me to make decisions and act as a paramedic student on calls. He fully took a step back and just listened allowing me to do what I thought was right and he would talk about what went well and what could be improved after each call. Other preceptors try to do this but can't seem to resist stepping in and interrupting the flow of the call and how I would manage the patient. Ron was a phenomenal preceptor and teacher.

We could not make competent entry level providers without your preceptors and their dedication to their new partners and coworkers.

Thank you,
Tina
