1/26/23 - HONOR GUARD

26 January 2023

SUBJECT: Honor Guard Support

1. I am writing to express our department's deepest gratitude for the support provided to us by Phillip Hunt and the rest of his honor guard detail during the recent viewing and funeral services of Captain Magers. He identified gaps in our procedures and made changes where necessary. In addition, he offered numerous suggestions on how to add impactful measures that increased the solemnity of the occasion. He listened to our ideas and provided excellent, meaningful, and empathetic counsel throughout.
2. After the funeral, several family members told us that they were extremely happy with the service and that the tribute we provided Captain Magers touched them deeply. They said that we completely exceeded their expectations and that they felt that there could not have been a better way to honor his passing. This would not have been possible without Phillip's guidance. He understood how important it was for us to be able to properly support Captain Magers' family and provide them with a respectful and meaningful service, and he ensured that everything we did advanced that goal.
3. Please pass on our gratitude to Phillip and his honor guard. Without them, we would not have been able to provide as distinguished a service as Captain Magers deserved.

Respectfully,

John Trottman Division Chief

SUBJECT: Honor Guard Support

1. I am writing to express our department's deepest gratitude for the support provided to us by Phillip Hunt and the rest of his honor guard detail during the recent viewing and funeral services of Captain William "Jeremy" Magers.
2. Phillip worked closely with our firefighters and pallbearers to ensure that proper funeral etiquette and procedures were followed in order to provide the most dignified and honorable service to our fallen brother. Although we had a basic idea of how to pay respect to Captain Magers, Phillip was able to fill gaps in our procedures and make changes where necessary. In addition, he offered numerous suggestions on how to add impactful measures that increased the solemnity of the occasion. He listened to our ideas and provided excellent, meaningful, and empathetic counsel throughout.

Chief Wolford,

On behalf of the Magers Family I would like to express our sincere appreciation for your kindness and support during the passing of our son Captain Jeremy Magers, Fort Meade Fire Department. It was, and continues to be, a painful and challenging time but with your Departments presence and support Jeremy was honored with a splendid and honorable service of which he would have been proud. Please relay our sincere appreciation for the support of those involved, particularly Assistant Chief Schultz and Phillip Hunt along with the additional members of the Honor Guard, they represented your Department proudly. Jeremy always spoke very highly of your department, the officers and firefighters. I will miss the nightly rundown of the calls from his shift and the Firefighters he worked with both at Meade and Arundel.

Lastly, thank you for all of your support through this difficult time allowing your staff time to support our family.

Sincerely,

Jeremy's Dad
Bill Magers

1/30/23 - EMS 1 - LT. CLOPEIN

I just wanted to share and pass on my experience with my ride-along in Anne Arundel on 1/30/23.

I believe I rode with Lt. Clopein [I could be wrong]. Riding with AACO, and especially the EMS1 Lieutenant was extremely helpful and beneficial. He immediately welcomed me and showed me the supervisor's car.

During the shift, he asked me if there was anything I'd like to work on and started to challenge me on knowledge and protocols. He also spent a great deal of time with me going over procedures and medications. He went into depth and great detail about pharmacology and then physiology; explaining the why vs the how for various topics. I found this vital and appreciative of how above and beyond he went in his teaching.

During the end of the ride-along, we were dispatched for a cardiac arrest. He immediately announced to everyone who I was and that I was with MSP. The LT and the crew got me involved. The LT would also pull me aside and show me the Ultrasound during rhythm checks to teach me about how they incorporate the procedure into the code since I did not have any experience with US.

This ride-along was extremely valuable and a great refresher for me, especially after being away from the field since the start of the academy. It was interesting to learn and see in first person how advanced this county was with their procedures and protocols.
