What is Maryland Access Point or MAP?

Anne Arundel County Department of Aging and Disabilities is proud to be the Maryland Access Point (MAP) for Anne Arundel County. Our MAP program for older adults, individuals with disabilities, caregivers, and anyone interested in planning for their future provides a single point of entry for:

- Information about resources and services
- Assistance with benefits counseling, referral, and long term planning
- Services for caregivers
- Access to services provided by the Department of Aging and Disabilities and community resources
- Customer Service Center
- Services for Caregivers
- Assistance with planning, counseling, referral, and long term planning
- Information about resources and services
- A trusted source of information and assistance for Anne Arundel County residents interested in planning for their current and future needs.

The Maryland Access Point (MAP) is a trusted source of information and assistance for Anne Arundel County residents interested in planning for their current and future needs. MAP sites provide individual, person-centered options counseling to consumers seeking information, referral and assistance in gaining access to social programs and supports. MAP sites can also assist with determining those programs and services which are available in the State, County, and City. MAP sites can also assist with determining those programs and services which are available in the State, County, and City.

Access to MAP information will be available in a variety of places throughout Anne Arundel County in locations such as: area hospitals, libraries, senior centers, local colleges and universities, and a host of other public/private agencies.

The goal of MAP is to provide access to all programs and services for which you are eligible without having to go from agency to agency. MAP staff will assist with benefit program applications.

Maryland Access Point of Anne Arundel County (MAP) is a trusted source of information and assistance for Anne Arundel County residents interested in planning for their current and future needs. MAP sites provide individual, person-centered options counseling to consumers seeking information, referral and assistance in gaining access to social programs and supports.

How does the MAP program work?

Help you assess costs, services, and choose providers.
Help you make informed decisions about housing and long-term care.
Help you identify your strengths, needs, and preferences.
Help you develop options to stay in the community.
Help you balance your needs, wants, and resources.
Help you determine your eligibility for benefit programs such as energy assistance or property tax assistance.

Access to MAP information will be available in a variety of places throughout Anne Arundel County in locations such as: area hospitals, libraries, senior centers, local colleges and universities, and a host of other public/private agencies.

There is a telephone number: 410-222-4257.
