

LEGISLATIVE SUMMARY

To: All Councilmembers of the Anne Arundel County Council

From: Linda M. Schuett, Legislative Counsel

Date: July 15, 2019

Subject: Bill No. 65-19 — Zoning – Mixed Use Districts – Commercial Telecommunication Facilities – Antennas Attached to Structures

Bill No. 65-19 allows commercial telecommunication facilities that consist of antennas to be placed on “structures” in all mixed use districts. The bill deletes the word “residential” before “structures,” thereby removing the ban against the placement of antennas on residential structures in mixed use zones.

Existing law permits antennas to be placed on residential structures in commercial, industrial, and Town Center zoning districts. The bill thus also conforms mixed use districts to existing law in these districts.
