Test Your Soil

• If < .5 in/hour then the soil is poor draining; if > .5”/hr it is well draining

• If < .1 “/hour, consider another spot or add underdrain

Example:
- Fill the hole with 8 inches of water.
- If the water drains from the hole in 12 hours, the drainage or infiltration rate is:
  8 inches divided by 12 hours = 0.67 inches per hour.
