

# COMMUNITY MEETING FORKED CREEK OUTFALL REPAIR

## PRESENTED BY:

### Meeting Details:

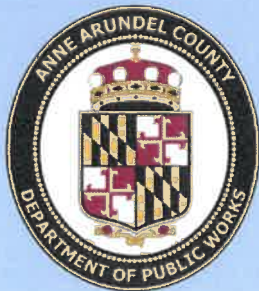

**March 23, 2020**

**6:30 PM**

**Belvedere Elementary  
School—Cafeteria**

**360 Broadwater Road  
Arnold, MD 21012**

Individuals needing special accommodations must contact DPW Customer Relations at least seven days prior to the meeting at 410-222-7582 or by email at [pwcust00@aacounty.org](mailto:pwcust00@aacounty.org). TTY users please call via Maryland Relay Service 7-1-1. All materials are available in alternative formats upon request.

## Please join us for a discussion on the plans for the Forked Creek Outfall Repair

To meet the requirements of the NPDES MS4 permit, the County has identified a stormwater outfall to Forked Creek as an ideal candidate for repair. The outfall is located on Broadneck Elementary School property off Shore Acres Road in Arnold, Maryland and ends at a culvert under Greenhill Court. WPRP staff will present the goals and plans for the project.

In its existing condition, this tributary of Forked Creek is highly eroded making it a source of nutrient and sediment loads to the Magothy River. The project will install a Step Pool Storm Conveyance System (SPSC) with the goals of stabilizing the existing channel, reducing the amount of nutrient and sediment pollution, and protecting public and private property from erosion. Ultimately, this project will provide improved water quality to the Magothy River and the Chesapeake Bay. The repair will also protect an exposed force main which runs the length of the project.

**Project Number:** B571104

**Grading Permit Number:** G02018376

**Proposed Modifications:** wetlands, wetland buffers, streams, stream buffers, steep slopes, steep slope buffers, forest conservation - specimen tree(s), and floodplain.

**Project Manager:** Joe Ports 410-222-0544; [pwport44@aacounty.org](mailto:pwport44@aacounty.org)
