

MAKE YOUR RECYCLING CONTAINER EASIER TO MOVE

It is easy for you to attach wheels to the County supplied Yellow Recycling container with items from your local hardware store. You may need to have a helper to make the job easier.

PARTS YOU WILL NEED TO PURCHASE:

- (4) 2" 50mm Casters with a 5/16" threaded stem
- (8) 5/16" Locking Washers
- (8) 5/16" Flat Washers with an overall diameter of at least 3/4"
- (4) 5/16" Hex Nuts

ESTIMATED COST: \$15.00

INSTALLATION INSTRUCTIONS:

1. Install a locking washer over threaded stem of a caster
2. Install a flat washer over stem
3. Stand container upright and insert stem through a hole in the bottom
4. Install a flat washer over stem from the inside
5. Install a locking washer over stem
6. Install a hex nut and tighten with pliers or socket wrench.
7. Repeat steps 1-6 for remaining casters

Note: Casters can be inserted into existing holes but doing so will reduce water drainage. If desired, you can drill new holes to allow proper drainage.
