FOOD SERVICE CONCESSIONS ON PARK PROPERTY

The Department of Recreation and Parks requires all food concession operations to be licensed by the Anne Arundel County Health Department. Before a license can be issued, facilities and food preparation methods must be compliant with applicable regulations. All organizations shall comply with all Health Department regulations and standards for the preparation and storage of food for public consumption to include approval of the menu. Questions concerning licensing should be directed to the Health Department (410-222-7018).

The Health Department has identified a basic list of requirements for all facilities that serve a limited menu of prepared food, as opposed to pre-packaged food. These requirements include:

- Stainless steel food preparation services
- Triple sinks
- Hand sinks
- Availability of restrooms and waste systems with grease traps

Additionally, State Health Department regulations require NSF approved commercial refrigeration for all food facilities, including concession stands. Existing domestic refrigerators may be allowed if they are in good condition and hold proper temperatures. The Health Department must be provided with the manufacturer's name, model number and serial number for all allowed domestic units. Any replacements shall be with an approved commercial unit.

Licensing regulations limit kitchen access to workers only. The minimum age for workers is fourteen years of age.

Cooking, deep frying, broiling, etc. utilizing a heat source inside the concession stand can be allowed if the equipment, ventilation and fire suppression systems are approved by the Health Department and Fire Marshal.

If allowed, the licensed concession organization must store waste grease in approved covered grease containers on a non-porous cleanable surface. The organization shall maintain a contract with an approved grease removal service.

When cooking is to be performed inside a County building with a heat source, the licensed concession organization must provide 'gap' insurance to cover losses up to the County's deductible. The current County deductible is \$250,000.

The Anne Arundel County Health Department has approved outdoor grilling with the following guidelines:

- Outdoor grilling does not include the use of deep fat fryer
- Clamshell style grills are recommended
- Four foot clear safety zone surrounding the heat source is maintained
- Grounds and vicinity to grills are kept clean
- Appropriate measures shall be taken to minimize grease spillage onto the ground

Note: A permit must be obtained from the Fire Marshal to perform outdoor grilling under cover.
