OFFICE OF FINANCE

Steuart Pittman
County Executive

ARUNDEL CENTER P.O. BOX 2700 ANNAPOLIS, MARYLAND 21404-2700 (410) 222-1781

Billie Penley Controller

December 21, 2023

The Honorable County Executive, The Members of the County Council, Chief Administrative Officer, and Citizens of Anne Arundel County, Maryland

I am pleased to submit to you the accompanying Annual Comprehensive Financial Report (ACFR) of Anne Arundel County, Maryland (the County) for the fiscal year ended June 30, 2023. This report is submitted to fulfill the legal requirement that the Controller annually submit a complete financial statement showing the assets, liabilities, and financial condition of the County for the prior year as mandated by Section 16-304 of Maryland's Local Government Article and Section 513 of the County Charter.

The County assumes full responsibility for the accuracy and fairness of the presentation, including all disclosures. We believe the data is accurate in all material respects and reflects the financial position and results of operations for the various funds. Management has established an internal control structure designed to ensure that government assets are protected from loss, theft, or misuse. Management also is responsible for ensuring that the accounting data compiled in preparing our financial statements conforms to the accounting principles generally accepted in the U.S. (GAAP).

This internal control structure is designed to provide reasonable, but not absolute, assurance that the financial statements are free from material misstatement. The concept of reasonable assurance recognizes that: 1) the cost of a control should not exceed the benefits likely to be derived; and 2) the valuation of costs and benefits requires estimates and judgments by management.

SB & Company, LLC, the County's independent public accountants, audited the report's basic financial statements and provided an unmodified ("clean") opinion. SB & Company's opinion is included within this report.

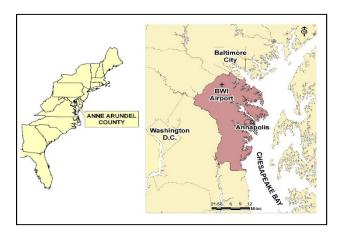

GAAP requires that management provide a narrative introduction, overview, and analysis of the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The County's MD&A can be found immediately following the auditor's reports.

PROFILE OF THE GOVERNMENT

Anne Arundel County, created in 1650, spans 415 square miles of urban, suburban, and rural terrain. It is situated 13 miles east of Washington, D.C. with Baltimore City and Baltimore County as its northern boundary and the Chesapeake Bay as its entire eastern boundary. The County's 596,000 residents live and work in an area known for its growing cybersecurity, defense, and hospitality industries; its well-educated workforce; its place as the State capital of Maryland and home to the U.S. Naval Academy; and, reflective of its extensive shoreline, its pioneering efforts on climate resiliency.

The County has operated under a home rule charter since 1964. Its executive functions are vested in a County Executive. The County Executive is elected at-large to serve a four-year term. Lawmaking power is vested in the County Council, which consists of seven members elected by district for a four-year term. The County Executive and County Council members are limited to two consecutive terms.

The County provides a comprehensive range of services, including police and fire protection; recreation and parks; planning and zoning; water, wastewater, solid waste, and stormwater services; street construction and maintenance; and general administrative services.

Budget Process

The annual budget serves as the foundation for the County's financial planning and controls. It ensures compliance with legal provisions embodied in the annual appropriation ordinance approved by the County Council. The County budget is comprised of the budget message, current expense budget, and the capital budget and capital program. Activities of the general fund and impact fee fund (annually appropriated major governmental funds) and certain special revenue funds, including the grants fund, and debt service funds (annually appropriated non-major governmental funds) are included in the current expense budget.

The County Executive must submit a budget proposal to the County Council by May 1 of each year. The County Council conducts public hearings and work sessions to review the proposed budget. The County Council cannot alter revenue estimates or increase expenditures, unless expressly provided in State law or to correct mathematical errors. After its review, the County Council finalizes the budget and sets the tax rates, fees, and charges needed to generate enough revenue to balance the budget. The budget must be adopted by the County Council on or before June 15.

The Office of Finance is responsible for budgetary control. Expenditure authority for the operating budget is at the department level within each fund in major categories including personnel costs, operating expenses, and capital costs. Appropriations in the capital budget are at the project level on an annual basis. All unencumbered appropriations of the operating budget lapse at fiscal year-end. Unencumbered capital appropriations continue until the specific capital project is closed.

FACTORS AFFECTING ECONOMIC CONDITION

Local Economy

Anne Arundel County has one of the strongest economies in Maryland, benefitting from its corridor location between Washington, D.C. and Baltimore. The County is part of the third largest combined statistical area in the U.S., as defined by the U.S. Census Bureau. This market contains a population of more than 9.9 million and its jurisdictions have household incomes at the highest levels in the country.

Major Industries

The County's major industries are in the sectors of Trade/Transportation and Utilities, Government, Professional and Business Services, Leisure and Hospitality, Education and Health Services, Construction, and Financial Activities. Driving these industries are the City of Annapolis, with its location as a federal, state, and county government center, a national historic tourist destination, and a maritime recreational center; Baltimore-Washington International Thurgood Marshall Airport, supporting 12,753 direct jobs and providing 634 passenger flights per day; Fort George G. Meade, a 5,067-acre federal facility employing over 60,000 military and civilians with tenants such as the National Security Agency, Defense Information Systems Agency, and U.S. Cyber Command; and Arundel Mills & Live! Casino & Hotel, a major regional retail, entertainment, office, and hospitality center with a 4,000-seat, 75,000 square foot multi-use concert and event venue. Additionally, the County supports two regional hospitals and related medical offices and service providers, resulting in a robust medical services industry.

Workforce

Anne Arundel County's civilian workforce measuring approximately 315,000 workers serves businesses, government agencies, and institutions throughout the Washington-Baltimore Region. Within the County are 258,896 "in-place" jobs (the County's largest employer, the National Security Agency, does not report its employee numbers to any of the State or County statistical reporting agencies and local government jobs in the education and health services sector were not included). The County's workforce is highly skilled with an educational attainment that reports 47.8% workers 25 years and older with a bachelor's or advanced graduate degree. The fiscal year 2023 average unemployment rate for Anne Arundel County is 2.4% as compared to the average of 3.4% for fiscal year 2022. This rate is favorable in contrast to the average State unemployment rate of 2.9% and the average national rate of 3.6%.

Housing Market

The number of housing units sold in Anne Arundel County is down 30.8% from 10,888 units in fiscal year 2022 to 7,538 units in fiscal year 2023. This drop is in large part due to rising interest rates and a drop in the inventory of homes on the market. In contrast, the median price for existing homes is up 5.3% from \$428,144 in fiscal year 2022 to \$450,935 in fiscal year 2023. Additionally, the total number of housing units in Anne Arundel County continues to rise and has grown by 20,495 over the past 10 years to keep pace with an increasing county population.

Commercial Real Estate

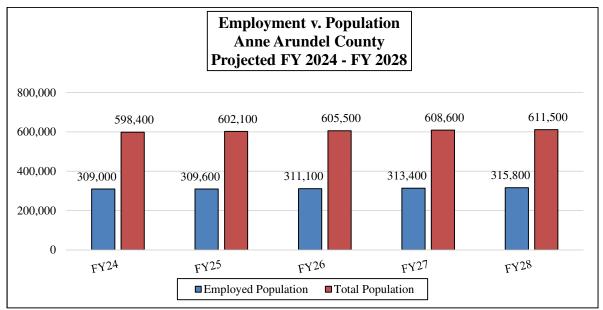

Currently there are 63.9 million square feet of office, flex, and industrial commercial real estate in Anne Arundel County representing 2,025 properties. The average vacancy rate for all commercial property (office, flex, industrial) in the County is 6.4%, down from the five-year average of 7.5%. Average rental rates are \$18.70 per square foot, up when compared to the five-year average cost of \$17.34 per square foot. Current average rental rates per square foot are \$27.50 for office, \$14.56 for flex and \$12.27 for industrial space.

Economic Outlook

The economic outlook for the County is very favorable and will continue to grow. In addition, years of conservative budgeting and prudent financial management have created a solid foundation for economic stability for the future. Anne Arundel County's low property and income tax rates make the County attractive for both businesses and families. At \$0.980 per \$100 assessed value, the property tax is the lowest among the State's seven largest metropolitan jurisdictions and its progressive local income tax rate is the 5th lowest in the State of Maryland. Revenues from property and income taxes for fiscal year 2024 supported 83% of the County's budgeted recurring expenditures, and growth in both sources should continue in the future.

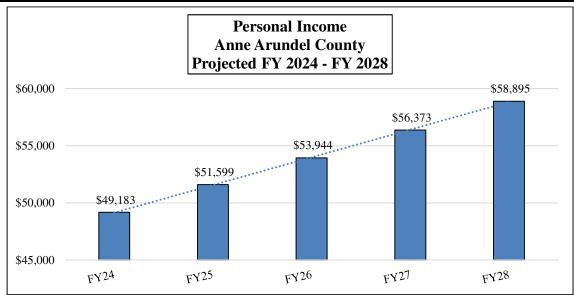

With a strong defense and technology industry base, a business community with global reach, a highly educated and skilled workforce, key transportation assets, a strategic location in the Baltimore/Washington D.C. corridor, and favorable property and income tax rates, Anne Arundel County will continue to be a formidable competitor in the State with many businesses making the County their first choice as a location to do business.

The future economic stability of the County is evident in projected employment levels. As the chart below shows, the total and the employed population of the County are both projected to grow 2.2% between fiscal years 2024 and 2028. These projections likely indicate that employment will continue to be a steady contributor to the County's economic future.

Source: Moody's Analytics.

Another contributor to the County's attractiveness to businesses and families is the projected growth in personal income. Personal income is projected to increase by 19.7% between fiscal years 2024 and 2028, as shown in the following chart. As with the stable employment levels noted above, strong projected personal income growth further highlights the County's favorable economic outlook.

Source: Moody's Analytics.

Long-Term Financial Planning

The following three structures exemplify the County's approach to long-term financial planning:

Permanent Public Infrastructure Fund: The County has restricted \$21 million in funds for permanent public infrastructure to be used as a funding source for permanent public improvements in the capital budget as a result of bill number 42-19 which passed at the end of fiscal year 2019.

Rainy Day Fund: The County maintains a Revenue Reserve Fund (Rainy Day Fund) and the Fund has increased from a low of about \$16.0 million at the end of fiscal year 2010 to approximately \$132.4 million at the end of fiscal year 2023. This increase is the result of revenues exceeding expenditures for fiscal years subsequent to 2010 and transfers to this Fund as part of the budget process. Another \$24.6 million will be transferred to the Fund during fiscal year 2024. Starting fiscal year 2024, the maximum budgetary fund balance may not exceed an amount equal to 8.0% of the estimated General Fund revenues for the upcoming fiscal year or \$159.2 million for fiscal year 2024.

Spending Affordability Committee: The Spending Affordability Committee was established by Resolution No. 31-90 to provide recommendations and projections for the upcoming budget year. Specifically, the Committee is charged with reviewing in detail the status and projections of revenues and expenditures for the County for the next budget year and subsequent five years; evaluating future County revenue levels and considering the impact of economic indicators such as changes in personal income and assessable base growth; and evaluating expenditure levels with consideration of the long-term obligations facing the County and the best way to pay for them.

The Committee recommends revenue projections and the amount of new County debt authorization for the upcoming fiscal year, along with the impact of its recommendations on future budgets. It also assesses the County's ability to repay bond debt and issues an annual report defining the debt capacity of the County.

Financial Policies

Debt Management Policy: The County has established a local debt policy to manage its debt as required by State law. The policy sets the parameters for issuing debt and managing the outstanding debt. It provides guidance to decision makers regarding the timing and purposes for which debt may be issued, types and amounts of permissible debt, method of sale that may be used and structural features that may be incorporated. The policy ensures that the County maintains a sound debt position and that credit quality is protected. As a result of the above, the County's

ANNE ARUNDEL COUNTY

financial strength has been attested to by Fitch Ratings, S&P Global Ratings, and Moody's Investors Service as these rating agencies have assigned AAA, AAA, and Aaa ratings, respectively, with a stable outlook for the County's general obligation (GO) bonds.

Use of One-Time Revenues: The County distinguishes between ongoing revenues and one-time revenues in preparing its annual budget. The County's policy is that one-time revenues should be used for one-time expenditures.

Investment Policy: The County's investment policy provides for the safety and liquidity of public funds by minimizing credit and market risk. All deposits of the Primary Government at June 30, 2023 were either insured by federal depository insurance or collateralized with the collateral held by an independent third party in the County's name. Investment activities are governed by State laws and, accordingly, the County invests in accordance with these laws.

Major Initiatives

The following County initiatives are anticipated to affect the County's future financial position:

Education

The County's fiscal year 2024 operating budget provided \$76.4 million in compensation for K-12 teachers and staff, including an 8% pay increase, a \$5 per day increase for substitute teachers, a 10% cost-of-living adjustment for bus drivers, and a \$2,000 bonus for special education teachers. The budget also included \$1 million in compensation for Anne Arundel Community College staff and \$485,000 in compensation for library staff.

Environment

The fiscal year 2024 capital budget included \$7.1 million to combat shoreline erosion, \$6 million to preserve and expand greenways and open space; and \$660,000 to grow the County's electric vehicle charging network.

Housing

The County's fiscal year 2024 operating budget includes revenues from a 0.5% increase in the transfer tax rate on property valued at \$1 million or more. The additional revenue generated will be used to support the Housing Trust Fund. The Fund will be used to provide affordable housing for moderate- and low-income individuals.

Revenue Reserve Fund

As mentioned above, in its fiscal year 2024 operating budget, the County increased the allowable balance in the Revenue Reserve Fund (also known as the Rainy Day Fund) from 7% to 8% of estimated General Fund revenue.

Transportation

The County's fiscal year 2024 capital budget includes \$11.5 million for expansion of the Odenton MARC station to encourage public transit.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement in Financial Reporting to Anne Arundel County, Maryland for its Annual Comprehensive Financial Report for the fiscal year ended June 30, 2022. This was the forty-second consecutive year that the County has received this prestigious award.

In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized Annual Comprehensive Financial Report, the contents of which conform to program standards. This report satisfies both accounting principles generally accepted in the United States of America and applicable legal requirements.

ANNE ARUNDEL COUNTY

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

I want to give a very special thank you to the entire accounting staff in the Office of Finance for their dedication and hard work in preparing and publishing the Anne Arundel County ACFR. The preparation of this report could not be accomplished without their dedicated and efficient service and I extend my sincere appreciation to each member of the department. Of special note is Edi Kalikawe, Assistant Controller, and Kevin McMahon, Financial Reporting and Accounting Senior Manager. I would also like to thank the County Executive, the Chief Administrative Officer, the Chief of Staff, and the County Council for their leadership and unwavering support in attaining the highest standards of professionalism in the management of Anne Arundel County's finances.

Sincerely,

Billie Penley Controller

Government Finance Officers Association

Certificate of Achievement for Excellence in Financial Reporting

Presented to

Anne Arundel County Maryland

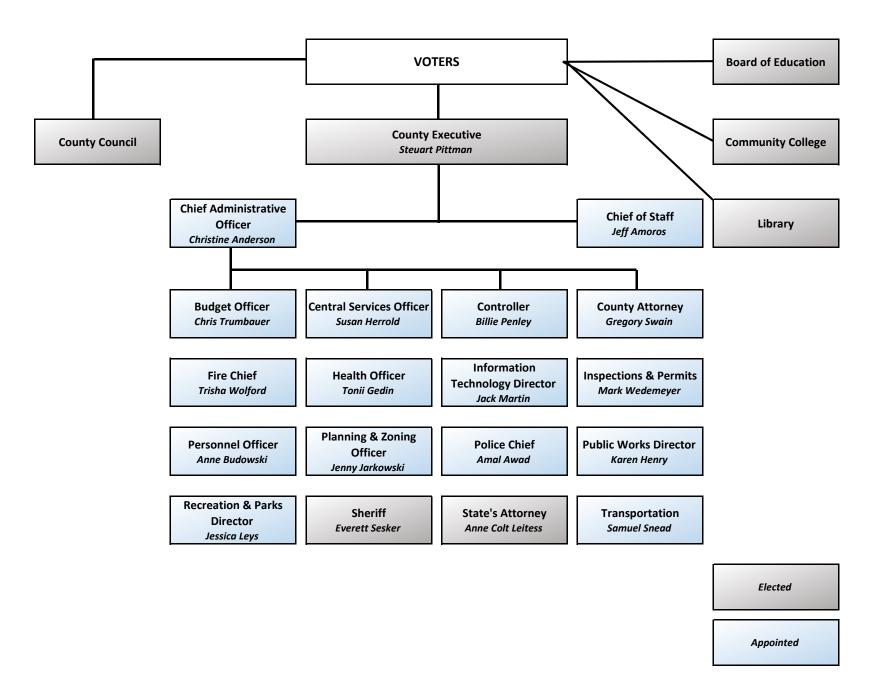

For its Annual Comprehensive Financial Report For the Fiscal Year Ended

REPORT OF INDEPENDENT PUBLIC ACCOUNTANTS ON THE AUDIT OF THE FINANCIAL STATEMENTS

The Honorable County Executive and The Honorable Members of the County Council Anne Arundel County, Maryland

Opinion

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Anne Arundel County, Maryland (the County), as of and for the year ended June 30, 2023, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the reports of the other auditors, the accompanying financial statements present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2023, and the respective changes in financial position and, where applicable, cash flows and budget and actual for the general and grants special revenue funds thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Anne Arundel County Board of Education, Anne Arundel County Community College, Anne Arundel Economic Development Corporation, Tipton Airport Authority, Anne Arundel Workforce Development Corporation, and Anne Arundel County Retirement and Pension System. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it related to the amounts included for the County, is based solely on the report of the other auditors.

The financial statements that we did not audit, which are listed above, represent the percentages of the total assets, total net position, and total revenues of the accompanying financial statements as listed below.

	Perce	1								
	Total Assets		Total Operating Revenues							
Component units										
Major										
Board of Education	88.0%	128.3%	89.7%							
Community College	10.0%	-30.4%	7.8%							
Non-Major										
Economic Development	0.3%	-0.4%	0.2%							
Tipton Airport	0.6%	-2.5%	0.2%							
Workforce Development	0.2%	-0.2%	0.5%							
Total Percentage of Component Units	99.1%	94.8%	98.4%							
Fiduciary Funds:										
Pension Trust Fund	81.8%	81.2%	56.7%							

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

The County's management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for one year beyond the date the financial statements are available to be issued, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal controls. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal controls-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedules of changes in net pension liabilities and related ratios, schedules of investment returns, schedules of employer's contributions, schedules of proportionate share of pension plans, schedules of County's contributions, schedules of changes in net OPEB liabilities and related ratios, retiree health benefits trust schedules of contributions, and schedule of changes in length of service award program net pension liability and related ratios, as identified in the accompanying table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other

auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the County's basic financial statements. The combining fund statements, budgetary statements and other supporting schedules, as referenced in the accompanying table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining fund statements, budgetary statements and other supporting schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining fund statements, budgetary statements, and other supporting schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Introduction

The following Management Discussion and Analysis (MD&A) offers an overview and analysis of the basic financial statements for the fiscal year ended June 2023. The statements address the following three key areas:

- Near-term financing, or the County's ability to meet its short-term financial obligations in a timely manner;
- Financial position, or the County's current and determined future financial health; and
- Economic condition, or the likelihood of the County's financial position improving or deteriorating.

The MDA should be viewed in conjunction with other sections of the ACFR, including the transmittal letter and notes to the basic financial statements.

Financial Highlights

The following chart highlights the changes in the County's net position, total revenues, and total expenses between FY 2023 and FY 2022.

		Governmen	ntal Activ	ities			Business-Type	Activities			Total						
	2023	2022	\$		%	2023	2022	\$			2023		2022	\$	%		
Net Position	\$ (103.9)	\$ (188.0)	\$	84.1	-44.7%	\$ 1,330.	\$ 1,350.0	\$ (19.6)	-1.5%	\$	1,226.5	\$	1,162.1	\$ 64.4	5.5%		
Total Revenues	2,266.3	2,197.3		69.0	3.1%	265.	9 279.8	(13.9)	-5.0%		2,532.2		2,477.0	55.1	2.2%		
Total Expenses	2,183.6	1,968.3	,	215.3	10.9%	284.	1 257.7	26.4	10.2%		2,467.7		2,226.0	241.7	10.9%		

Note: Amounts shown in millions.

- Governmental Activities-Net position net increase of \$84.1 million or 44.7%: Due to a \$41.4 million increase in net investment in capital assets and a \$38.9 million increase in restricted assets.
- Business-Type Activities-Net position net decrease of \$19.6 million or 1.5%: Mainly due to a \$16.0 million decrease in restricted assets and a \$5.1 million decrease in unrestricted assets.
- Governmental Activities-Total revenues net increase of \$69.0 million or 3.1%: Due to increases in general revenue. Tax revenue comprised the largest portion of the general revenue increase at \$118.4 million or 7.4%. Investment income also increased by \$43.6 million or 404.5%. Offsetting the increase in general revenue was an overall decrease in program revenues. Although charges for services increased by \$50.9 million or 34.4%, operating and capital grants revenues decreased by \$23.3 million or 17.3% and \$42.9 million or 48.1%, respectively.
- Business-Type Activities-Total revenues net decrease of \$13.9 million or 5.0%: Mainly due to a decrease in capital grants of \$22.5 million or 24.4%.
- Governmental Activities-Total expenses net increase: \$215.3 million or 10.9%: Mainly due to a \$172.6 million or 45.0% increase in public safety expenses, a \$66.6 million or 7.1% increase in education expenses, a \$14.9 million or 44.6% increase in judicial expenses, and a \$14.8 million or 13.7% increase in health and human services expenses.
- Business-Type Activities-Total expenses net increase: \$26.4 million or 10.2%: Mainly due to an increase in waste collection expenditures of \$22.4 million or 52.5%.

Section A: Overview of Basic Financial Statements

The basic financial statements consist of the following:

Government-wide financial statements: Provide a long-term view of the County's finances. They record revenues and expenses when the earnings process is complete (full accrual basis), as opposed to when they are actually received or paid (cash basis). Government-wide financial statements include the following statements:

<u>Statement of Net Position</u>: reports the difference between assets, deferred outflows of resources, liabilities, and deferred inflows of resources at the end of the fiscal year. It excludes fund balances. Over time, changes in net position may indicate improvement or deterioration in financial condition.

<u>Statement of Activities</u>: shows the changes in net position (revenue net of expenses) of functions individually and in the aggregate.

The Statement of Net Position and the Statement of Activities categorize primary government operations into governmental activities, business-type activities, and component units.

Governmental activities: are primary government functions that are principally supported by taxes and other general revenue sources. Governmental activities include education, public safety, general government, health and human services, public works, recreation and community services, judicial functions, code enforcement, and land use and development.

<u>Business-type activities</u>: are government functions that are primarily supported by user fees and charges. Business-type activities include utility services, waste collection, and child care services.

<u>Component units</u>: are entities that the County provides substantial funding for and/or the County Executive appoints a majority of the entities' Board members, implying a substantial degree of control over their management. Component units include the Board of Education, Community College, Library, Economic Development Corporation, Tipton Airport, and Workforce Development Corporation.

Fund financial statements: Report detailed information on different fund types within the primary government. Unlike government-wide statements, fund financial statements are on a modified accrual basis. Information about major funds such as the General Fund, the Impact Fees Capital Projects Fund, and the General County Capital Projects Fund, are shown in separate columns due to their size or significance. Non-major funds are aggregated into one column known as "Other Non-Major Funds." Fund financial statements include the

following statements:

<u>Balance Sheet</u>: presents the net assets, deferred outflows of resources, liabilities, and deferred inflows of resources resulting in fund balances.

<u>Statement of Revenues, Expenditures, and Changes in Fund Balances</u>: shows changes in revenues, expenditures, and fund balances from the beginning of the fiscal year to the end of the fiscal year.

<u>Statement of Revenues, Expenses, and Changes in Net Position</u> The Statement of Operations and Changes in Net Position shows the results of the County's operations—the extent to which the County's tax revenue covers its net cost

<u>Statement of Cash Flows</u>: reflects the effects of cash receipts and cash payment activity during the fiscal year.

<u>Statement of Fiduciary Net Position</u>: provides the assets, deferred outflows of resources, liabilities, deferred outflows, and net position for each fiduciary fund.

<u>Statement of Changes in Fiduciary Net Position</u>: reports changes in net position from the beginning to the end of the fiscal year resulting from Fiduciary operations.

Fund financial statements provide detailed information about the following fund types:

Governmental funds: comprise funds that are typically supported by tax revenues. These funds include the General Fund, grant funds, special revenue funds, debt service funds, capital project funds, and special revenue funds are used to segregate revenue sources to ensure they are spent for their intended purpose. Debt service funds are used to accumulate resources to pay certain long-term debt issued by the County or separate districts. Since governmental fund statements focus primarily on the sources, uses, and balances of current financial resources and often have a budgetary focus, the statements help determine whether there are more or less financial resources available in the near future to finance County programs.

<u>Proprietary funds</u>: focus on major funds and include enterprise and internal service funds.

<u>Enterprise funds</u>: support services primarily for external customers. Enterprise funds include the Water and Wastewater Fund, the Solid Waste Fund, and the Child Care Fund.

Internal service funds: primarily provide benefits to other

funds, departments, or agencies of the County. Internal service funds are used to accumulate and allocate costs internally among the County's various functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. Transactions for these funds are recorded using the full accrual basis of accounting. Long-term assets and liabilities are recorded on the statements. Internal service funds include the Self Insurance Fund, the Health Insurance Fund, the Central Garage and Transportation Fund, and the Garage Replacement Fund.

Fiduciary funds: reflect monies held for the benefit of parties

outside the County and retired government employees. The County's four defined benefit pension plans that form the Retirement System Pension Trust Funds and the Retirees Health Benefits Trust Fund are included in this category. Also included in this category are custodial funds. Custodial funds are used to accumulate temporary deposits and other funds collected from outside parties. The funds will then be either returned to the payer or passed on to a third party. These funds follow the full accrual method of accounting.

The chart on the following page summarizes the scope, fund types, required financial statements, measurement focus, and basis of accounting for both government-wide statements and fund financial statements.

		Government-wide Stateme	ents	Fund Statements							
	Governmental Activities	Business-Type Activities	Discretely Presented Component Units	Governmental Funds	Proprietary Funds	Fiduciary Funds					
Scope of the Report and Fund Types	Activities generally financed through taxes, intercounty revenues, and other nonexchange revenues	Activities financed in whole or in part by fees charged to external parties for goods and services	Legally separate organizations for which the elected officials of the primary government are financially accountable	General Fund Grants Fund Special Revenue Funds Debt Service Funds Capital Projects Funds Generally used to account for tax- supported activities	Enterprise Funds Internal Services Funds Activities focus on the determination of operating income, changes in net position, financial position, and cash flow	Custodial Funds Pension Trust Funds Investment Trust Funds Private Purpose Trust Funds Activities held in a trustee or custodial capacity for others and therefore cannot be used to support the government's own programs					
Required Financial Statements	Statement of NetStatement of Act			Balance Sheet Statement of Revenues, Expenditures, and Changes in Fund Balances	 Statement of Net Position Statement of Revenues, Expenses, and Changes in Net Position Statement of Cash Flows 	 Statement of Fiduciary Net Position Statement of Changes in Fiduciary Net Position 					
Measurement Focus and Basis of Accounting	Economic resources as	nd accrual basis		Current financial resources and modified accrual basis	Economic resources and accrual basis	Accrual basis					

Budgetary Statements: Compare General Fund and Grants Special Revenue Fund expenditures against their appropriations. The statements use the budgetary method when accounting for transactions. Revenues are generally recognized when available, and expenditures are recognized when a commitment, in the form of a purchase order or contract, has been issued to a vendor.

Notes to the Basic Financial Statements: Provide additional information essential to a full understanding of government-wide and fund financial statements.

Required Supplementary Information: Provide trend data for the Pension Trust Funds and Other Post-Employment Benefits (OPEB).

Section B: Financial Data and Management's Analysis

Government-wide Statements

Statement of Net Position

The following condensed Statement of Net Position lists current and non-current assets, deferred outflow of resources, current and non-current liabilities, and deferred inflow of resources for fiscal years 2023 and 2022.

Total net position	\$ (103,910,813)	\$_	(187,961,421)	\$	1,330,427,443	\$	1,350,035,583	\$	1,226,516,630	<u> </u>	1,162,074,162

<u>Unrestricted current assets</u> in governmental activities are \$12.9 million or 1.5% less in fiscal year 2023 primarily due to a decrease in cash and temporary investments of \$96.8 million arising from market conditions, a decrease in due from component units of \$4.2 million. The decrease was offset by an increase in taxes and other state revenue receivables of \$85.4 million driven by timing and \$2.3 million in prepaid and other receivables.

The unrestricted current assets of business-type activities decreased by \$7.1 million or 3.4%, primarily due to a decrease

in cash and temporary investments and other state revenue receivables of \$7.7 million and \$1.2 million, respectively. The decrease was offset by an increase of \$2.8 million in service billing receivables.

<u>Restricted current assets</u> in governmental activities increased by \$99.3 million or 21.7%, due to an increase of \$99.3 million in restricted cash and temporary investments. The Grant fund balance carried a negative fund balance of \$18.8 million. This deficit in the Grant fund balance increased by 56.1% in fiscal year 2023 as a result of unpaid grant reimbursements at the

end of the fiscal year. County agencies, especially the health department, have carried unpaid balances dating back to year 2020 when COVID-19 caused significant delays in processing grant reimbursements to the County.

The restricted cash in the Impact Fee Capital Projects Fund increased by \$8.5 million as a result of an increase in its fund balance of \$8.1 million. This was primarily due to a decrease in transfers out of \$4.9 million. The General County Capital Project Fund had an increase in cash and investments of \$110.7 million. This increase is in part the result of an overall increase in realized capital project funding, coupled with a decrease in accounts receivable of \$12.9 million and an increase in accounts payable and accrued liabilities of \$11 million.

The Non-major Governmental Funds increased by \$11 million or 10.0% in cash and investments, mainly due to increases in special revenue funds as follows:

- The Opioid Abatement Fund and the Housing Trust Fund were included in these funds in fiscal year 2023 and carried cash and investment balances of \$4.7 and \$8.0 million, respectively.
- Arundel Community Development Service grants increased by \$8.1 million.
- Odenton Town Center Tax Increment increased by \$4.5 million.

Restricted current assets in business-type activities decreased by \$13.0 million or 4.4%, primarily due to a decrease in investments of \$11.2 million due to market conditions.

<u>Restricted noncurrent assets</u> in governmental activities increased by \$164.2 million or 6.3% from the prior fiscal year. This increase is mainly due to an increase in capital assets as a result of capitalization of water and waste water capital projects being completed during the current fiscal year.

It is important to note that, although counties in the State of

Maryland issue debt for the construction of schools, the local boards of education own the schools. Ownership reverts to the County if the Anne Arundel County Board of Education no longer needs the building. The County also funds projects for Anne Arundel Community College (AACC) and others that do not result in County assets. While the County's statements include this outstanding debt, there are no capital assets recorded on the primary government's statements.

<u>Unrestricted current liabilities</u> for governmental activities decreased by \$2 million or 0.7%. This occurred primarily due to a decrease in accounts payable, accrued liabilities, internal balances and escrow deposits of \$16.4 million, \$0.3 million, and \$0.1 million, respectively, offset by an increase in unearned revenue of \$4.6 million.

The current unrestricted liabilities in business-type activities increased by \$8.7 million or 10.0% from the prior fiscal year mainly due to increased accrued liabilities as a result of timing.

<u>Restricted current liabilities</u> for governmental activities decreased by \$35.3 million or 25.5% mainly as a result of an increase in unearned revenue as a result of \$39.5 million of ARPA funding that was not utilized in the current year. This was a decrease of \$29.1 million from the \$68.6 million of unearned ARPA revenue at the end of fiscal year 2023 in that same fund.

<u>Noncurrent liabilities</u> in governmental activities, Pension benefits, and OPEB obligations increased by \$433.8 million, primarily due to an increase in pension benefits. As of July 1, 2022, a subscription liability of \$14.0 million is being reported due to the adoption of GASB 96.

The following table shows the fluctuations in the unrestricted net position in the governmental activities over the past four years. The reduction in net position is the result of assets used for capital improvements classified in the net investment in capital assets and the recording of the pension benefits and OPEB obligation.

Fiscal	Balance	Fiscal	Balance				
year	(in millions)	year	(1	in millions)			
2020	\$ (1,371.9)	2022	\$	(1,034.1)			
2021	(1,298.5)	2023		(1,030.3)			

Statement of Activities

The following condensed Statement of Activities lists revenues first, with functional expenses presented last. The schedule includes comparative amounts from the previous fiscal year.

Net Position, beg of year	(187,961,421)	(418,730,960)		1,350,035,583		1,329,771,721		1,162,074,162	911,040,761		
Net Position, end of year	\$ (103,910,813)	\$ (187,961,421)	\$	1,330,427,443	\$	1,350,035,583	\$	1,226,516,630 \$ \$	1,162,074,162		

Revenues in Governmental Activities increased from the prior fiscal year by \$68.9 million or 3.1%. This is mainly due to an increase in local income tax of \$90.9 million or 12.2%, charges for services of \$50.9 million or 34.4% and general property taxes of \$19.7 million or 2.3%. Investment income increased by \$43.6 million or 404.5% due to movements in market rates. The increases were offset by a decrease in recordation and transfer tax revenue of \$79.7 million or 40.3%, and decreases in grant operating and capital revenues of \$23.3 million or 17.3% and \$42.9 million or 48.1%, respectively, mainly due to the use of ARPA funds compared to last fiscal year.

<u>Expenses in Governmental Activities</u> decreased by \$215.3 million or 10.9% from the prior fiscal year. Certain functional categories of expenditures had significant fluctuations during fiscal year 2023. The most notable fluctuations were in public safety for \$140.1 million or 36.5%, primarily due to increase in pay packages, and contractual services for police and fire departments.

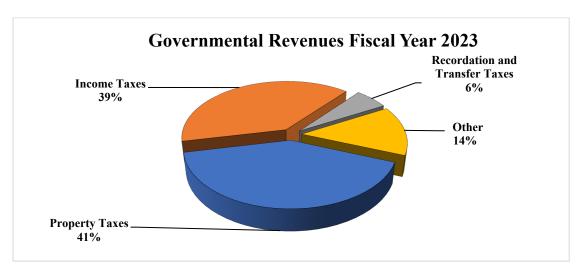

Revenues in Business-type Activities decreased by \$14 million or 5% from the prior fiscal year mainly due to decreased capital grant and contributions of \$22.5 million or 24.4%, offset by an increase of \$4.6 million or 1,102.5% in investment income compared to the prior year.

<u>Expenses in Business-type Activities</u> increased \$26.4 million or 10.2% primarily due to an increase in waste collection contractual services.

Section C: Distribution of Revenues and Expenses

Government-wide Revenues

The following chart shows the percentage distribution of revenues from governmental activities and the percentage expended on each function.

General revenue sources continue to provide the vast majority of the County's revenue. Tax revenues provided 86.0% of the revenue base, an increase of 3.0% from fiscal year 2022 driven by higher income and property taxes. Charges for services paid to the County by users were 6.0% for fiscal year 2023 which decreased slightly from 7.0% in fiscal year 2022.

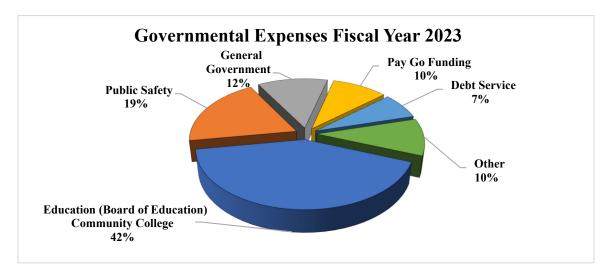

An analysis of the percentage distribution of revenues shows an increase in income tax revenue from 34.0% to 39.0% and a decrease in recordation and transfer tax revenue from 9.0% to 6.0%. Property tax revenue increased from 38.0% to 41.0% and investment income increased from -1.0% to 1.0%. Expenditure distribution percentages remained constant from fiscal year 2022.

The following analysis shows the movement in tax revenues for the year ended June 2023.

- <u>Sales and use tax revenue</u> primarily driven by an increase in general sales due to continued relaxed business and travel restrictions as COVID-19 concerns subsided, allowing the economy to return to normal activity.
- <u>Property tax revenue</u> reflected increased recordation and transfer tax revenues due to increased purchase and refinancing activities. Despite unchanged property tax rates from fiscal year 2022, property tax revenue increased. This increase in property tax revenue stemmed from an increase in assessments.

Other government-wide revenues increased in fiscal year 2023 due to continued federal efforts to address the immediate impacts of the pandemic, including grants and contributions from the American Rescue Plan Act (ARPA) and the Elementary and Secondary School Emergency Relief Fund.

Government-wide Expenses

An analysis of the percentage distribution of expenses by function revealed that education expenses decreased from 48% in fiscal year 2022 to 42% in fiscal year 2023 while public safety expenses remained constant at 19%. General government expenses decreased slightly from 14% to 12% as did health and human services and recreation and community services, both decreasing from 5% to 3%. Public works expenses remained constant.

The major components of the changes in governmental activities expenses include the following:

 Education expenses increased due to an increase in pension expenses, slightly offset by decreased OPEB expenditures. Additionally, expenditures increased due to stimulus-related spending to run schools, pay salaries, address learning loss, purchase supplies and communication equipment for emergency connectivity, and maintain and operate infrastructure.

- Public safety and judicial expenses increased due to pension expenses and fringe benefits, slightly offset by decreased expenditures in the OPEB Plan.
- Transportation expenses increased due to an increase in pensions, judgments and claims, and fringe benefits, slightly offset by decreased OPEB expenditures.

Section D: Fund Statements

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Although tables have not been included herein, certain elements of the major fund statements presented in the basic financial statements are discussed below.

Governmental Funds

The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, committed, assigned, and unassigned fund balances can serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

General Fund

Total assets in the General Fund decreased by \$45.4 million or 6.1%, from \$742.3 million to \$696.9 million from the prior fiscal year. The decrease primarily occurred in cash and investments of \$102.8 million, offset by an increase in local income taxes receivable of \$50.8 million. Total fund balance decreased by \$83.9 million, from \$551.5 million to \$467.7 million.

General Fund revenues increased by \$26.7 million, or 1.4%, from \$1,902.8 million to \$1,929.5 million over fiscal year 2022. The increases were primarily due to revenues from general property tax, local income tax, and investment income of \$15.7 million, \$54.8 million, and \$36.3 million, respectively, offset by a decrease in recordation and transfer tax revenue of \$79.7 million. The increase in general property tax revenue was attributable to an increase in the taxable assessments for the County, while the increase in local income taxes was due to additional revenues collected by the State.

Expenditures increased by \$127.7 million or 7.2%, from \$1,774.5 million to \$1,902.2 million over the same time period.

The County has a Revenue Reserve Fund which is included in the unassigned category of General Fund balance. This reserve may only be used when revenues fall below budget expectations and would require legislative action. The fund has been in existence since fiscal year 1994 and has been drawn upon by management in fiscal years 2009 and 2010 in the amounts of \$16.8 million and \$16.0 million, respectively, as a result of underperforming revenues during the 2008-2009 recession. At the end of the current fiscal year, the balance of the reserve fund was \$121.5 million. The increase from the prior fiscal year is due to a current year contribution of \$23.2

million.

The County also has set aside \$21.1 million for permanent public infrastructure which is included in the restricted fund balance of the General Fund.

Grants Fund

The Grants Fund continues to be presented as a major fund in the current fiscal year as a result of the inflow and outflow of ARPA grants received from federal and state government sources. Budgetary revenues in the grants fund were higher by \$42.4 million, mainly due to multiyear ARPA grant funds not previously expended and therefore collected in the current year. The Grants fund balance shows a decrease of \$6.8 million or 56.4%, from a negative \$12.0 million in fiscal year 2022 to a negative \$18.8 million in fiscal year 2023. The overall fund balance is negative as a result of unpaid grant reimbursements at year-end.

Impact Fees Capital Project Fund

The Impact Fees Capital Project Fund retains developer impact fees until needed for the construction of capital assets. The total fund balance increased by \$8.5 million or 7.6%, from \$112.2 million in fiscal year 2022 to \$120.7 million in fiscal year 2023. This was mainly a result of impact fee revenues of \$22.8 million exceeding impact fee expenses of \$3.6 million and transfers out to capital projects of \$10.7 million. The amounts transferred are used for the construction of capital assets and to pay off debt, both of which are related to impact fee eligible projects.

General County Capital Projects Fund

The General County Capital Projects Fund's total assets increased by \$97.9 million or 50% in fiscal year 2023 to \$292 million. This is primarily due to a \$110.7 million increase in cash and investments at the end of the current fiscal year which was primarily driven by incoming PAYGO funds to support capital improvements, offset by a \$12.8 million decrease in receivables. Amounts due from the Board of Education decreased by \$4.2 million.

Liabilities increased by \$9.2 million compared to the prior fiscal year, primarily due to an increase in the amount due to the Board of Education of \$7.5 million and a \$2.5 million increase in Accounts Payable due to timing of the close of the year. Deferred inflow of resources decreased by \$4.0 million due to a decrease in unavailable grant and program revenue. The change in fund balance from the prior fiscal year increased from \$120.8 million to \$213.6 million in fiscal year 2023, primarily due to an increase of \$92.7 million in

unassigned fund balance.

Revenues in the General County Capital Projects Fund decreased by \$5.3 million in fiscal year 2023 to \$28.2 million. Expenditures in this fund increased by \$23.2 million which was mainly attributable to major capital outlay projects including \$9.9 million of Advance Land Acquisitions, information technology enhancements of \$14.1 million, and road infrastructure projects of \$17.3 million. The Board of Education was down by \$5.4 million for the year ending June, 2023. Major capital projects in education this fiscal year included:

- Building system renovations for \$16.3 million
- Old Mill Middle and High Schools for \$46.9 million
- West County Elementary School for \$10.6 million

Proprietary Funds

The County's proprietary fund statements provide the same information found in the government-wide financial statements, but in more detail.

The Water and Wastewater Fund's assets totaled \$2.3 billion at the end of fiscal year 2023. Capital assets increase each year as capital projects are completed and developer-donated water and sewer facilities are added. The main increase in liabilities was an increase in debt of \$25.3 million. As a result of the changes in assets and liabilities, the Water and Wastewater Fund's net position decreased by \$22.8 million or 1.7%.

The Statement of Revenues, Expenses, and Changes in Fund Net Position for Water and Wastewater Fund had an increase in operating revenues of \$5.3 million. Operating expenses increased by \$2.1 million or 1.2%, mainly from an increase in personal services of \$10.1 million and an increase in supplies of \$2.7 million coupled by an increase of \$3.8 million in depreciation expense, offset by a decrease in contractual services of \$14.1 million. Non-operating revenue and expenses increased from the previous year by \$4.4 million, while capital contributions and grants decreased by \$22.5 million.

The Solid Waste Fund's assets increased by \$3.5 million mainly due to solid waste renovations of \$1.9 million. Liabilities increased by \$4.5 million from the prior fiscal year in part due to the current portion of long-term debt of \$5.4 million compared fiscal year 2022.

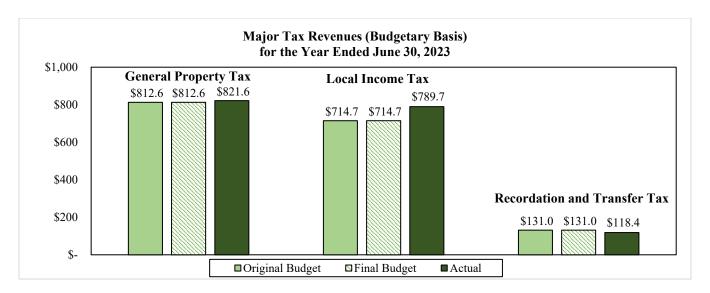

The Statement of Revenues, Expenses, and Changes in Fund Net Position for Solid Waste Operating expenses increased by \$22.4 million due to the prior year closeout of the Cell 8 landfill of \$15.3 million and removal from Landfill closing cost. In fiscal year 2023, operating expenses increased in personal and contractual services by approximately \$10.2 million primarily as a result of a \$2.4 million GASB 68 pension allocation adjustment in personal services and an approximately \$7.8 million increase in contractual services due to increases in contract pricing for curbside collections, special recycling services, and special disposal services.

Fiduciary Funds

Fiduciary funds include the Pension Trust Funds, the OPEB Trust Fund, and Custodial Funds. The Pension Trust Funds are presented for the calendar year ended December 31, 2022. Total investments in the Pension Trust decreased by \$267.7 million or 11.3% in calendar year 2022. The Pension Fund net position decreased from \$2.4 billion to \$2.1 billion or 11.6% mainly due to a decrease in net depreciation in market value of investments. Pension contributions increased from \$141.1 million or 25.9% in calendar year 2022 to \$115.2 million during calendar year 2023. Pension contributions are determined by the actuarial valuations based on the net pension liability. The pension net investment income decreased by \$556.9 million or 186.8% from the prior year. The net position of the OPEB Trust at the end of the current fiscal year was \$487.8 million, an increase of \$86.5 million or 21.6% from the prior fiscal year mainly due to a \$30.8 million net appreciation in fair value of investments. The Custodial net position is \$27.1 million in fiscal year 2023.

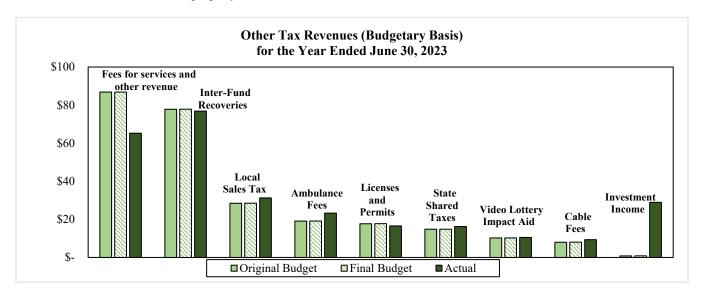

Budgetary Variations

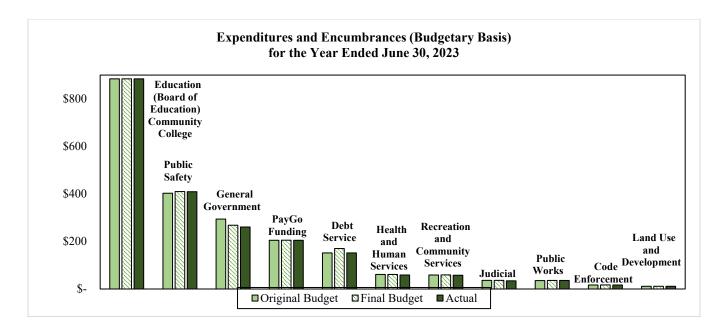

The budgetary statements of the General Fund show actual revenues of \$2 billion compared to budgeted amounts of \$1.9 billion, resulting in \$112.7 million more revenue than anticipated from local income and property taxes.

The most significant budgetary variations within components of revenue were the increases in investment income that exceeded budgetary expectations by \$28.1 million or 3,387%. Ambulance fees and cable fees exceeded budgetary expectations by \$4.2 million or 22% and \$1.3 million or 16%, respectively. Local sales tax revenue also was higher by \$2.8 million or 9.7%. Revenues from property and sales taxes and

State shared taxes exceeded budgetary expectations by \$13.1 million or 1.5%, in the aggregate. Revenues from recordation and transfer taxes, inter-fund recoveries, and licenses and permits had a combined decrease of 6.5% mainly due to lower-than-expected inter-fund recoveries from the Enterprise Funds as well as the Capital Project Funds.

Total expenditures on a budgetary basis were \$2.2 billion which approximated appropriation authority of \$2.2 billion, resulting in \$32.7 million or 1.5% less than planned. The most notable variance was in debt service of \$18.5 million. The General Fund and the Board of Education underspent \$9.5 million and \$9.0 million less, respectively. In general government, part of the variance was in the Chief Administrative Office which was \$2.3 million under budget. Health and human services also were under budget by \$2.4 million, mostly due to substituting ARPA funds for general funds, resulting in an unspent \$1.7 million in general funds.

Judicial and recreation and community services had variances of \$1.9 million and \$1.1 million, respectively. The Sheriff's Office had a variance of \$1.4 million, the Fire Department \$3.7 million, and the Office of Central Services \$1.5 million. The Fire Department's variance was mainly due personal services partly as a result of position vacancies.

Management is not aware of any reasons why these and other budgetary variations would have a significant effect on future liquidity or services.

Section E: Capital Assets

The table below presents the asset values of the capital asset categories in governmental and business-type activities, net of accumulated depreciation. Below is a discussion of the fluctuations.

Anne Arundel County, Maryland Capital Assets (net of depreciation)

	 Governmental Activities				Business-t	Activities	Total				
	 2023	_	2022	_	2023	_	2022	_	2023	_	2022

Total	\$ 1,661,790,176	\$	1,570,555,373	\$	1,927,751,908	\$	1,887,518,642	\$	3,589,542,084	\$	3,458,074,015

Governmental capital assets – Governmental activities capital assets increased by \$91.23 million or 5.8% from fiscal year 2022.

Major capital asset events during the current fiscal year included the following:

- \$17.3 million for road resurfacing and reconstruction
- \$14.1 million for information technology enhancement
- \$9.9 million for Advance Land Acquisition
- \$8.5 million for park renovations

The County adopted GASB statement No.96, Subscription-based information technology arrangements, for fiscal year 2023. The standard requires that the County recognize SBITAs as intangible capital assets (right to use underlying assets) and amortize the assets over the life of the lease. As a result of this the County recognized \$22,034,697 as intangible SBITA assets, \$18,131,782 as liability, and \$4,406,939 as amortization expense.

The business-type activities capital assets increased by \$40.2 million or 2.1% from fiscal year 2022, mainly due to an increase in water and sewer plants and lines capital projects completed and placed in service. The remaining categories of

assets show modest variations because new additions are negated by the continued depreciation of existing assets.

Major capital asset events during the current fiscal year included the following:

- \$34.7 million for general water and sewer main replacement and reconstruction
- \$11.3 million for upgrade and retrofit of sewer pumping station facilities
- \$5.5 million for Broad Creek WTP expansion
- \$3.1 million for Cox Creek grit system improvement

The Statement of Net Position presents the gross asset balances and total accumulated depreciation. The following table summarizes this information for depreciable assets and presents accumulated depreciation as a percentage of the gross depreciable assets. Accumulated depreciation as a percentage of depreciable assets continues to be at 53%. The business-type capital assets continue to be at 44% for the accumulated depreciation as a percentage of the asset values at fiscal year-end.

Anne Arundel County, Maryland Analysis of Depreciable Assets

Analysis of Depreciable Assets								
	_		al Depreciable apital Assets	Less Accumulated Depreciation		Net Depreciable Capital Assets		Accumulated Depreciation as a Percent of Total

2018			2,109,864,062		(915,143,615)		1,194,720,447	43%

^{*} This schedule does not include the SBITA

The comparison of these fiscal years does not provide any definitive conclusion about the County's replacement of aging assets. Management will continue to monitor these trends. Additional information about the County's capital assets and changes therein is provided in Note 5 to the basic financial statements.

Section F: Debt Administration

The County's outstanding debt at the end of fiscal years 2023 and 2022 is presented in the table below. The County issued general obligation bonds of \$198.4 million in April 2023, including \$132.5 million for governmental activities and \$65.9 million for water and wastewater activities to fund improvements for general county capital projects of \$129.6 million, waste management projects of \$3.0 million, and water and sewer projects of \$65.9 million. The County had a decrease in Maryland Water Quality loans for water and wastewater improvements of \$4.8 million in the Water and

Wastewater Fund. There was a new Maryland water quality loan for Heritage Harbor in the amount of \$912.0 thousand. The changes to the state loans were not significant

Principal payments of \$241,911 were made on existing loans. The County did not initiate new agricultural easements through installment purchase agreements during fiscal year 2023. Other changes to debt balances resulted from principal payments during fiscal year 2023. Additional information about the County's debt and changes therein is provided in Note 8 to the basic financial statements.

^{*} Does not include unamortized premiums.

Section G: Fiscal Year 2024 and Beyond

The County real property tax rate for fiscal year 2024 is \$0.980 per \$100 of assessed valuation. This is 5% higher than the previous year's property tax rate. Fiscal year 2024 property tax receipts are estimated to increase 8.3% over the fiscal year 2023 actual receipts. Any future decrease in real property assessments would not significantly impact the property tax revenue yield because of the wide gap between assessable values and "taxable" assessable values, the growth of which was limited by the Homestead Property Credit Program to 2% per year during the housing boom years.

The fiscal year 2024 budget includes two changes in the local income tax rates using the Progressive Local Income Tax structure. First, the County implements new tax brackets for joint filers, which will lower the income tax rate on the first \$75,000 of taxable income from 2.81% to

2.70%. Second, for taxable income above \$400,000 for individual filers and \$480,000 for joint filers, the tax rate will increase to 3.2%. Based on the most recent estimate, fiscal year 2024 income tax revenue is projected to increase 1.01% over the fiscal year 2023 actual revenue. The projected income tax revenue is about \$52.3 million more than the estimated amount of \$737.4 million for fiscal year 2023.

State law allows the County to collect a stormwater fee from taxpayers to fund the implementation of a local watershed protection and restoration program. These fees are maintained in a dedicated fund, the Watershed Protection and Restoration Fund. For fiscal year 2024, the stormwater fee increased to \$93.7 per equivalent run off unit (ERU) and the Watershed Protection and Restoration Fund had an approved budgeted revenue of \$27.4 million.

For fiscal year 2024, the Anne Arundel County Public Schools are funded by the County at \$881.5 million, a \$46.7 million or 5.6% increase over the prior fiscal year. This funding level exceeds the required Maintenance of Effort level for fiscal 2024. Anne Arundel County Public Schools fiscal year 2024 capital budget contains 41 planned projects totaling \$192.7 million or 35.8% of the General County capital projects. Of the total fiscal year 2024 General Fund debt service budget, 53.8% is allocated for school debt.

The County's support of Anne Arundel Community College will decrease \$1 million in fiscal year 2024 over fiscal year 2023 to a total of \$50.1 million, \$48.4 million from the General Fund and \$1.7 million from the Video Lottery Local Impact Aid Special Revenue Fund. The County has appropriated \$7 million for the college's fiscal year 2024 capital projects, which will be financed by issuing general obligation bonds. The college's annual debt service of \$7.9 million is paid by the County.

Fiscal year 2024 General Fund budget estimates total revenues at \$1.99 billion, an increase of \$95.4 million or 50% over fiscal year 2023 original budgeted amounts. As fiscal year 2023 revenues came in much higher than the budgeted amounts, the County most likely will revise its fiscal year 2024 revenue estimates upward during the fiscal year 2025 budget process. Expenditures for fiscal year 2024 will continue to be tightened and trimmed where possible with some strategic investments, particularly in public safety and technology. The County also anticipates issuing bonds during fiscal year 2024.

As mentioned above, the fiscal year 2024 budget includes a progressive income tax rate for all County income taxpayers. The fiscal year 2024 property tax rate is \$0.980 per \$100 of assessed valuation – this rate still positions the County as the 10th lowest of Maryland's 24 county

jurisdictions, and lowest among the "Big 7" central Maryland counties. The Homestead Tax Credit rate for County real property tax is at 2% which remains unchanged from the past fiscal year.

The fiscal year 2024 budget includes increasing the hotel/motel tax rate from 7% to 8%, and establishing a 25-cent surcharge on rideshare trips that originate in the County. Together these two revenue enhancements are projected to bring in approximately \$2.3 million in new revenues in fiscal year 2024.

The fiscal year 2024 budget makes several investments to secure long-term fiscal stability. The budget includes increasing the Revenue Reserve Fund to 8% of general fund operating revenues, with a contribution of \$24.6 million. This will result in an estimated balance of \$159.2 million of reserves at the end of fiscal year 2024.

Bill 42-19 has been passed to establish the Reserve Fund for Permanent Public Improvements (PPI Fund). This is a special fund provided for in the County Charter. The revenue for the Fund is based off of 1/10th of a percentage point by which the income tax rate exceeds 2.5% and capped at \$21 million a year to pay for the debt service of a one-time capital infusion of \$250 million. Fiscal year 2024 General Fund Budget met the required contribution toward the PPI Fund of \$21 million.

The Water and Wastewater Fund usage rates for water and wastewater fees for fiscal year 2024 are \$3.23/1,000 gal and \$5.67/1,000 gal, respectively; this is an 8.8% increase from prior fiscal year. The Solid waste service charge per household are set at \$380/year; this is an 11.4% increase from prior fiscal year. Landfill tipping fees are unchanged at \$85/ton. There are no rate changes on Capital Facility Connection Charges and the Environment Protection Fee (EPF) in fiscal year 2024.

Requests for Additional Information

This financial report is designed to provide a general overview of the County's finances. Questions concerning information in this report or requests for additional finance information should be addressed to the Office of Finance, 44 Calvert Street, Annapolis, Maryland 21401. Complete financial reports are also available on our website www.aacounty.org. The County's component units, except for the library, issue their own separately audited financial statements. These statements may be obtained by directly contacting the component unit. Contact information can be found on Note 1A of this report.

Governmental Funds

June 30, 2023

Total fund balance for governmental funds as shown on the Balance Sheet	\$	899,558,753
Capital assets used in governmental activities are not financial		
resources and, therefore, are not reported on governmental		
funds balance sheet:		
Capital assets not being depreciated		688,707,848
Capital assets		1,993,872,081
Accumulated depreciation /Amortization		(1,049,000,981)
Deferred outflows and inflows are recognized in the statement of net position,		
but are not reported in governmental funds:		
Deferred Outflows of Resources - County Pension		393,606,407
Deferred Outflows of Resources - MSRPS Pension		204,702
Deferred Outflows of Resources - OPEB		133,677,502
Deferred Outflows of Resources - LOSAP		4,202,886
Deferred Inflows of Resources		
Deferred Inflows of Resources-County Pension		(2,937,670)
Deferred Inflows of Resources-MSRPS Pension		(83,503)
Deferred Inflows of Resources - OPEB		(964,713)
Deferred Inflows of Resources - LOSAP		(8,828,199)
Deferred Inflows of Resources - Unamortized gain on refunding		(2,231,113)
Certain liabilities not due and payable in the current period and, therefore, not included on governmental funds balance sheet		
Long-term bonded debt		(1,784,159,126)
Federal and state loans		(1,681,761)
Wynne liability due to State of Maryland		(15,482,686)
Net pension liability - County		(985,117,864)
Net pension liability - MSRPS Pension		(836,757)
Net OPEB Liability		(512,303,578)
LOSAP total pension liability		(15,129,475)
Compensated absences		(32,712,075)
Lease Liability Subscription Liability		(44,455,181) (18,131,782)
Accrued interest payable on debt recorded in governmental activities		(14,551,193)
Unavailable revenues		
Revenues that will be collected after year-end but are not available soon enough		
to pay for the current period's expenditures		210,134,500
to pay for the current period's expenditures		210,134,300
The assets and liabilities recorded in the internal service funds have		
been added to governmental net position because these funds are used		
to provide services to other funds Net position of the Internal Service Funds		55,660,923
•		
Certain expenditures paid with current resources deferred to future periods on the Statement of Net Position		5,071,242
•	_	
Total net position (deficit) for governmental activities as shown on Statement of Net Position	\$ _	(103,910,813)

Reconciliation of Changes in Fund Balances to Changes in Net Position

Governmental Funds

Year Ended June 30, 2023

Changes in fund balances as shown on Statement of Revenues, Expenditures, and Changes in Fund Balances, Governmental Funds	\$	30,834,229
Experiences, and Changes in Faire Balances, Governmental Faires	Ψ	30,031,227
Governmental funds report capital outlays as expenditures. However, in the Statement		
of Activities, the cost of capital assets is allocated over the estimated useful lives		
of those assets through an annual depreciation charge. The differences are as follows:		
Current year additions of capital assets		163,165,202
Current year disposals of capital assets		(1,472,903)
Depreciation/Amortization expense recorded in the Statement of Activities		(70,232,494)
Governmental funds report the additions and payments of long term liabilities in the		
period that current resources are provided or used. In the Statement of		
Activities, new debt is recorded as a liability and payments of principal are charged		
against that liability. Interest payable must be accrued from the date of		
the last interest payment to the end of the fiscal year. Debt related differences are		
as follows:		
New debt issued in current year		(170,285,000)
Principal payments on debt		151,200,416
Additions of new leases		(11,442,707)
Lease payments		4,670,586
SBITA payments		3,902,915
SBITA issued		(7,571,797)
Change in accrued interest payable		722,546
Amortization of prior year refunding gain/loss		30,803,957
Some expenses reported in the statement of activities do not require the use of current		
financial resources and, therefore, are not reported as expenditures in the governmental funds		
Change in Wynne accrued liability due to the State of MD		884,724
Changes in pension liabilities and related deferred outflows and inflows of resources		(95,666,824)
Accrual of LOSAP liability		(499,913)
Accrual of other post-employment benefit liability (OPEB)		2,385,179
Accrual of compensated absences		2,514,442
Expense was deferred to future periods		1,011,295
Premiums received on bond issues have been deferred in the government-wide		
statements. The revenue will be recognized over the life of the related bonds.		
Amortization of premiums		(24,732,965)
Certain revenue was deferred on the governmental fund statements because it was		
not available to pay expenditures of the current period. These deferred amounts		
are recognized as revenue in the Statement of Activities.		72,499,185
The current year activity in the internal service funds has been combined and		
eliminated against the governmental activities in the Statement of Activities.		
The net activity in the internal service funds that resulted from provision		
of services to business-type activities, component units, and outside agencies		
must be recognized in the Statement of Activities.		
Net position of the Internal Service Funds		2,331,476
Business-type activities allocation of Internal Service Funds net position	_	(970,941)
Changes in net position as shown in governmental activities on the Statement of Activities	\$_	84,050,608

1 Summary of Significant Accounting Policies

The basic financial statements are prepared in accordance with accounting principles generally accepted in the United States of America applicable to governmental units as prescribed by the Governmental Accounting Standards Board (GASB). This note summarizes the significant accounting policies.

- A Reporting Entity The County's basic financial statements include various departments, agencies, and other organizational units governed directly by the County Executive and the County Council, herein referred to as the primary government. These statements also include other entities, which by the entities' relationships with the primary government are considered component units of the County. Accounting principles dictate that those entities that are financially accountable to the primary government or where exclusion would cause the financial statements to be misleading or incomplete should be included in the County's basic financial statements. The County's component units and the reasons for the entities' inclusion are as follows:
- Anne Arundel County Board of Education (Board of Education) The Board of Education and the Anne Arundel County Public School System provide public education for the County's students in grades kindergarten through twelve.
- **Anne Arundel Community College** (Community College) The Community College and its Foundation operate an institution of higher education within the County.
- **Public Library Association of Annapolis and Anne Arundel County, Inc.** (A.A. County Public Library or Library) The Library operates the public library system within the County.
- **Anne Arundel Economic Development Corporation** (Economic Development) Economic Development provides services and programs that promote economic development within the County.
- **Tipton Airport Authority** (Tipton Airport) Tipton Airport operates a general aviation airport in the western area of the County.
- Anne Arundel Workforce Development Corporation (Workforce Development) Workforce Development provides job training and placement services to County citizens.

All of these entities are component units because the primary government approves the entities' respective budgets and/or provides a substantial amount of funding. In addition, the County Executive appoints a majority of the members of the governing bodies for Economic Development, Tipton Airport, and Workforce Development.

All of these entities are discretely presented in the government-wide statements. The Board of Education and the Community College are considered major component units and have been presented in separate columns on the face of the government-wide statements.

Separately issued financial statements for the Board of Education, the Community College, Economic Development, Tipton Airport, and Workforce Development may be obtained from the respective administrative offices. The addresses are provided below. The library does not issue separate financial statements, and all of its required financial statements have been included in the County's Annual Comprehensive Financial Report (ACFR).

Anne Arundel County Board of Education 2644 Riva Road Annapolis, MD 21401 Anne Arundel Community College 101 College Parkway Arnold, MD 21012

Anne Arundel Economic Development Corp. 2660 Riva Road, Suite 200 Annapolis, MD 21401

Tipton Airport Authority P. O. Box 155 Odenton, MD 21113-0155

Anne Arundel Workforce Development Corp. 1131 Benfield Boulevard, Suite N Millersville, MD 21108 **B** Financial Statement Presentation, Measurement Focus, and Basis of Accounting – The basic financial statements are divided into three categories: government—wide financial statements, fund financial statements, and budgetary statements.

Government-Wide Financial Statements

The government-wide financial statements, consisting of the Statement of Net Position and the Statement of Activities, are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year levied, and grants and similar revenues are recognized when all eligibility requirements imposed by the provider have been met.

The government-wide statements present governmental activities, which are supported primarily by taxes and intergovernmental revenues, separately from business-type activities, which are funded primarily by user fees. In addition, the primary government's activity is presented separately from its discretely presented component units. The government-wide statements do not include the net position or activities of the fiduciary funds, which include the pension trust funds, other post-employment trust funds and the custodial funds, because these funds account for assets that are not owned by the County.

Interfund activity within the primary government's governmental activities and business-type activities has been eliminated from the government-wide statements. Residual balances between the governmental and business-type categories are presented on the Statement of Net Position as "Internal balances." In addition, transactions between these activities and the internal service funds, which primarily serve the primary government, have been eliminated. Certain residual assets, liabilities, and net positions of the internal service funds have been added to governmental activities. In addition, transactions between the internal service funds and component units or other non-County agencies have been included in governmental activities.

Fund Financial Statements

The fund financial statements include statements for the governmental funds, the proprietary funds, and the fiduciary funds. Major funds within each category have been presented in separate columns, while all non-major funds are combined in one column.

Governmental fund financial statements - The governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when measurable and available. Revenues are considered available if those revenues are collectible within the current period or shortly thereafter to pay liabilities of the current period. Expenditures are generally recorded when incurred; however, expenditures for debt service, compensated absences, claims, and judgments are recorded when payments are due.

The County considers revenue collected within ninety days of the end of the year as available, except for property taxes, which must be collected within sixty days. Property taxes, income taxes, certain shared taxes, and grants that have not been received within the availability period have been deferred to future periods and recorded as deferred inflow of resources.

The governmental fund financial statements separately present the following major funds:

- General Fund This fund is the primary operating fund. It accounts for all financial resources of the primary
 government except those accounted for in another fund.
- Grants Special Revenue Fund The grants fund accounts for grant monies collected by the County through the following departments: Chief Administrative Office, Circuit Court, Fire, Health, Police, Planning and Zoning, Recreation and Parks, Sheriff's Office, Social Services, State's Attorney's Office, Aging and Disability, and Detention Facilities.
- Impact Fee Capital Projects Fund This capital projects fund accounts for impact fees collected from developers to pay a share of the cost of additional school capacity, road improvements, and public safety facilities necessitated by the development.

• General County Capital Projects Fund – This fund accounts for all financial resources that are received and used for the acquisition or development of major capital improvements. Resources received are applied such that the most restrictive resources are used first. This generally results in the following order: restricted revenues such as developer contributions, bonds, pay-as-you-go, and grants.

Proprietary fund financial statements - The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when a liability is incurred, regardless of the timing of cash flows. These funds account for County services that operate as self-supporting activities. Those who benefit from these services bear the cost through the payment of user fees. The proprietary fund financial statements separately present the following major enterprise funds:

- Water and Wastewater This fund accounts for the operating, debt service, and capital improvement activities of the water and wastewater utility services provided to County residents and businesses.
- **Solid Waste** This fund accounts for the costs associated with the collection and disposal of refuse for County residents and businesses. This includes the cost of operations, debt service, capital improvements, and landfill restoration.

The proprietary fund statements also include a column that presents totals for internal service funds. These funds operate as self-supporting activities that primarily serve the primary government and its component units. The internal service funds of the County are:

- **Self-Insurance** The County is self-insured for workers' compensation, auto liability, and general liability insurance. This fund accounts for the self-insured activity and the purchase of policies from commercial insurers for certain specific exposures. These services, provided to the primary government and certain component units, are funded through charges to the users.
- Health Insurance The County is self-insured for employee and retiree medical benefits. This fund accounts
 for this health insurance activity and the payment to outside administrators and medical service providers.
 These services are provided to the primary government and certain component units and other agencies and
 are funded through premiums charged to the users.
- Central Garage and Transportation This fund accounts for activity in the County's central garage, which provides the primary government and certain component units with vehicle maintenance, fuel usage, and motor pool vehicles. Costs are recovered through fees to users for maintenance, fuel use, and vehicle lease charges.
- Garage Vehicle Replacement This fund accounts for the collection of replacement fees from participating
 funds within the primary government and certain component units. The fees are used to replace motor pool
 vehicles as needed.

Fiduciary fund financial statements - The fiduciary fund statements include the following:

• Pension Trust Fund – This fund accounts for activities of the Anne Arundel County Retirement and Pension System (Retirement System). The Retirement System consists of activity in the primary government's four defined-benefit pension plans and reports on a calendar-year basis. The Pension Trust Fund is reported using the economic resources measurement focus and accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when a liability is incurred, regardless of the timing of related cash flows. These plans accumulate employer and employee contributions and invest these funds to provide guaranteed pension benefits after retirement. Employer contributions are based on actuarial recommendations.

Pension expenses are liquidated within the following governmental funds: the General Fund, Reforestation Fund and grant funds. They are also liquidated in the following internal service and enterprise funds: Self Insurance, Central Garage and Transportation, Water and Wastewater, Solid Waste and Child Care.

• Anne Arundel Retiree Health Benefits Trust Fund – This fund consists of the activities of the Anne Arundel Retiree Health Benefits Trust (OPEB Trust Fund). The OPEB Trust Fund has fiduciary responsibility to administer the agent multi-employer defined benefit plans for the purpose of providing retiree health benefits as "other post-employment benefit" for following three entities; the Anne Arundel County Plan (County

Plan), the Anne Arundel Community College Plan (College Plan), and the Public Library Association of Annapolis and Anne Arundel County, Inc. (Library Plan).

Anne Arundel County Retiree Health Benefits are liquidated within the following governmental funds: the General Fund, Reforestation Fund and grant funds. They are also liquidated in the following internal service and enterprise funds: Self Insurance, Central Garage and Transportation, Water and Wastewater, Solid Waste and Child Care.

Custodial Funds – Custodial funds account for deposits that are collected and held on behalf of individuals, organizations, or other governments. These monies include the following: escrow deposits for developer subdivisions, sediment control, tax sale, special taxing districts, and other miscellaneous purposes; monies held in trust on behalf of the Special Tax and Assessment Districts; and taxes collected for other governments.

Budgetary Statements

The basic financial statements include a Statement of Revenues, Expenditures, and Changes in Fund Balances -Budget and Actual for the General Fund. This statement is prepared using the budgetary basis of accounting in which revenues are recognized when both earned and available. This non-GAAP basis of accounting recognizes that the County's budget is adopted in accordance with legal requirements regarding appropriation authority and the certification of the availability of funds to support those appropriations. Pursuant to the County Charter, the capital and operating budgets are presented by the County Executive to the County Council by May 1st. The County Council holds public hearings regarding the budget. The Annual Budget and Appropriation Ordinance must be approved by June 15th (prior to the start of the next fiscal year on July 1st) and provides the spending authority at the department level for the operations of the County. Unexpended or unencumbered appropriations in the operating budget expire at year end. The County also recognizes revenues collected within ninety days of the end of the fiscal year as available for the prior year's appropriation, except for property taxes, which must be collected within sixty days and grant revenue when the County Controller has determined that sufficient documentation exists to support that revenues not yet collected within ninety days of the end of the year are available to support appropriations in that fiscal year. Budgetary expenditures are recognized when encumbered or when goods or services are received. All major capital project funds have legally adopted budgets and unspent appropriations at year end carry forward to the subsequent year, except for the Impact Fee Fund. All non-major governmental funds have legally adopted budgets, except the Storm Drain Fees Fund, Recreation Land Fees Fund, Street Light Fund, and Energy Revolving Loan Fund, which are expended through the Capital Projects Fund. Additional Budgetary information can be found at Previous Budgets | Anne Arundel County Government (aacounty.org)

Combining and Other Supplementary Schedules

For all columns in the basic financial statements that accumulate the data for non-major funds or component units, the County has provided combining statements that present the individual funds included in these non-major categories. In addition, budgetary statements of revenue and expenditures for all primary government funds for which budgets are adopted have been provided. Separate financial statements for the Library, a non-major component unit, are also presented because the Library does not issue separate financial statements.

Cash, Investments, and Related Income – Cash includes bank deposits in checking and savings accounts. Investments include external pools and fixed income issues which generally mature within one year. Investments may extend longer than one year to facilitate the specific purpose of a fund. Details on investment types and terms are displayed in Note 3, "Cash and Investments."

Investments are recorded at fair value. Available cash from the primary government and Library is pooled in the General Fund and invested in money market or other investments. To facilitate the pooling, cash belonging to other funds is transferred to and from the General Fund. On the Statement of Cash Flows for the proprietary funds, cash and cash equivalents include bank deposits and liquid investments readily convertible to cash such as money market funds and certificates of deposits.

Investment income is generally allocated to each fund based on its proportionate share of the average daily cash balance each month. Investment income earned on the balances in certain special revenue funds, certain internal

service funds, custodial funds, and the Library Fund is retained in the General Fund. In addition, investment earnings recognized in the General County Capital Projects Fund are transferred to the General Fund.

Investments of the Retirement System are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments and are discounted at prevailing interest rates for similar instruments. The fair value of real estate investments is based on periodic independent appraisals. Investments that do not have an established market, such as Private Markets, are reported at estimated fair value. The fair value of private equities is based on management's valuation of estimates and assumptions from information and representations provided by the respective general partners, in the absence of readily ascertainable market values. There are no investments with parties or in entities related to the County.

- **D** Inventories and Prepaid Expenses Inventories of parts and supplies recorded in the General Fund and certain proprietary funds are valued at cost on a first-in, first-out method. The government-wide and the fund statements record the cost of inventory as it is consumed, while the budgetary statements record the cost when the inventory is purchased. For the government-wide and proprietary statements, prepaid expenses are recognized as the services are consumed. For the budgetary statements, prepaid items are recognized when either encumbered or paid.
- **E Program Revenues** The government-wide Statement of Activities is presented using a net-cost format. Total costs are presented on a functional basis. Some of these functional activities are financed in whole or in part by program revenues received from parties outside the County government. These program revenues are subtracted from the functional costs to arrive at net costs. General County revenues are then applied against the net costs to arrive at changes in net position for the fiscal year.

Program revenues include amounts received from those who purchase, use, or directly benefit from a program; amounts received from outside parties that are restricted to one or more specific programs; and earnings on investments that are legally restricted for a specific purpose. Program revenues include user fees and charges, impact fees, fines, license and permit fees, special community benefit assessments, grants and contributions, and restricted investment income.

F Capital Assets – Capital assets of the primary government are recorded in the applicable governmental or business-type activities columns on the government-wide Statements of Net Position. These asset balances include all constructed, purchased, or developer-donated public domain infrastructure (roads, bridges, and similar items). Infrastructure with an individual value of \$50,000 or more, intangible assets, including subscription assets and software with an individual value of \$50,000 or more, library books are recorded at cost, and other assets with an individual value of \$5,000 or more are capitalized. Capital assets are valued at historical cost or estimated historical cost. Donated assets are recorded at acquisition value on the date donated. Land and easements, historical property, and works of art are assets that are not depreciated. Depreciable assets are depreciated on a straight-line basis over the respective useful lives. The estimated useful lives of the capital assets are determined by the category. They are listed as follows:

Category	Years	Category	Years
Buildings, structures, sidewalks, curbs,		Heavy machinery and other equipment	5 – 10
gutters and water / sewer lines	50	Library collection	10
Water / sewer structures	35	Furniture and fixtures	5 – 10
Land improvements	30	Office equipment, intangible assets,	
Culverts and storm drains	25 - 50	software, and telecommunications	
Roads and bridges	17 - 30	systems	5 - 7
Landfills	15 - 20	Automobiles and small rolling stock	5

Deferred Outflows/Inflows of Resources – A deferred outflow of resources represents the consumption of net assets that applies to a future period that will not be recognized as an outflow of the resources (expenditure) until that future period. At the end of the current fiscal year, the County Primary Government had deferred outflows of resources for pension benefits, Other Post-Employment Benefits (OPEB), Length of Service Awards Program (LOSAP), and unamortized deferred refunding losses. The Board of the Maryland State Retirement, Anne Arundel County Pension and Retirement System, and Anne Arundel Retiree Health Benefits Trust (OPEB) recognizes deferred outflows of resources (DOR) which are amortized according to the actuarial valuation report. The DOR can occur

from contributions after measurement date, changes in investment, changes in assumptions and changes in experience, as determined from the actuarial valuation report. Deferred inflow of resources (DIR) represents an acquisition of net assets that applies to a future reporting period that will not be recognized as an inflow of resources (revenue) until that time. For government-mandated and voluntary non-exchange transactions on the governmental funds, a deferred inflow (DIR) is reported when resources are received before time requirements are met and revenue unavailable. The governmental funds had deferred inflows of resources (DIR) representing unavailable tax revenues, E-Rate Federal reimbursements, 911 fees, and unavailable grant and program revenues. On the government wide statements, the primary government had deferred inflows of resources (DIR) representing pension, OPEB, LOSAP and advances in property tax revenue. Additionally, deferred inflows are recorded at both the fund and entity-wide levels related to lessor activity under GASB 87. The Board of the Maryland State Retirement, Anne Arundel County Pension and Retirement System, and Anne Arundel Retiree Health Benefits Trust (OPEB) recognizes deferred inflows of resources (DIR) related to pensions and OPEB actuarial estimates which are amortized according to the actuarial valuation report. The DIR can occur from changes in investment, actuarial assumptions and actuarial experience, as determined from the actuarial valuation report.

Deferred outflows of resources are presented below the total assets on the government-wide, proprietary, and governmental statements. Deferred inflows of resources are presented below the total liabilities on the government-wide, proprietary, and governmental statements.

H Operating and Non-operating Revenues and Expenses and Capital Contributions – The Statement of Revenues, Expenses, and Changes in Fund Net Position for proprietary funds categorize revenue sources into operating, non-operating, and capital contributions. Operating revenues include charges for water, wastewater, landfill usage, child care and other revenues used to fund the ongoing provision of water and wastewater, waste collection, and child care services to citizens. The statement also presents combined totals for the internal service funds. These funds collect charges from other funds and component units for insurance and the primary government's motor pool maintenance and replacement. Non-operating revenues include all other sources, such as interest earned and other revenues. Capital contributions include developer-contributed assets and grants, capital connection fees, capital facility assessments, and front foot benefit fees restricted for the construction of capital assets or the payment of debt issued for capital construction.

Operating expenses in the proprietary funds and in the internal service funds include the costs of operating the County's water and wastewater system, waste collection activities, and school-based child care services. Expenses consist of personnel and non-personnel services, cost of goods issued, depreciation, landfill closure and post-closure costs, indirect costs, and other miscellaneous allocated expenses. Non-operating expenses include interest on debt and other miscellaneous expenses.

- *Bond premiums and refunding gain or loss* The primary government typically receives premiums as a result of the sale of general obligation bonds. The treatment of the premiums differs depending on the basis of accounting used on the related statements. Premiums earned on debt in governmental activities are recognized as revenue in the year of the bond sale on the fund statement, amortized over the life of the bonds on the government-wide presentation, and applied against the purchase of capital assets in the subsequent fiscal years on the budgetary statement. Premiums earned on the bonds in business-type activities are amortized over the life of the bonds on the fund level and government-wide presentations, recorded as premium revenue on budgetary statements and then applied against the purchase of capital assets in the subsequent fiscal years. The refunding gain or loss is applied against the shorter life of the old debt or the new debt.
- *Indirect costs* Administrative costs of the primary government are generally included in the general government functional expenses on the government-wide Statement of Activities and the fund financial statements. However, some allocations of administrative costs are made through an indirect cost allocation plan, resulting in charges to the proprietary funds, Pension Trust Fund, and General County Capital Projects Fund. These allocated costs are included in the functional expenses of these other funds.
- K Encumbrances The governmental funds utilize encumbrance accounting under which purchase orders, contracts, and other commitments are recorded in order to reserve budget appropriations for that purpose. Open encumbrances at fiscal year-end are shown as part of the restricted, committed or assigned fund balance, depending on the nature of the fund, in the governmental fund statements and are recorded as expenditures on the budgetary statements. Encumbrances as of June 30, 2023 totaled \$174,754,174 in the governmental fund types, of which \$124,821,156 is for construction activity. The proprietary funds utilize encumbrance accounting for budgetary

purposes. As of June 30, 2023, the proprietary funds had encumbrances totaling \$122,404,729, of which \$104,601,124 is for construction activity.

- **L** Fund Balance Classification The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy based primarily on the extent to which the County is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. See Footnote 10 for additional information on Governmental Fund Balance. The classifications used in the governmental fund financial statements are as follows:
 - *Non-spendable*: This classification includes amounts that cannot be spent because they either (a) are not in spendable form or (b) are legally or contractually required to be maintained intact. The County has classified inventories, and prepaid items as non-spendable.
 - *Restricted:* This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors (such as through a debt covenant), grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. The following fund balances are classified as restricted:
 - o **Permanent Public Infrastructure (PPI):** \$21,547,484 of the general fund is restricted through enabling legislation from County bill 42-19 which established the reserve fund for permanent public improvement (PPI).
 - Base realignment and closure (BRAC): restricted by the Annotated Code of Maryland, Economic Development Article, Section 5-1306 for the revitalization and incentive programs in the BRAC area.
 - o *Impact fees:* restricted by the Annotated Code of Maryland, Local Government Article, Section 20-701 for expanded infrastructure required to accommodate new development.
 - o Forfeiture and asset seizure team: restricted by federal regulations for law enforcement activities.
 - o **Roads and special benefits**: restricted by the Annotated Code of Maryland, Local Government Article, Section 10-314 for the improvements and benefits within designated districts.
 - o *Reforestation*: restricted by the Annotated Code of Maryland, Natural Resources Article, Section 5-1610 for the reforestation of properties in the County.
 - Laurel racetrack community benefit: restricted by the Annotated Code of Maryland, Business Regulation Article, Section 11-404 for certain services and facilities in the vicinity of the Laurel racetrack.
 - o *Grants:* restricted by various state and federal laws, regulations and grant agreements that specify how funds may be spent.
 - Circuit court: restricted by the Annotated Code of Maryland, Court and Judicial Proceeding Article, Section 7-204 for Circuit Court operations.
 - Odenton Town Center Tax Increment: restricted by State Enabling Legislation and the creation of the special taxing district as defined in Anne Arundel County Resolution 42-14, for the creation of Odenton Town Center Development District.
 - o *Erosion districts:* restricted by the Annotated Code of Maryland, Local Government Article, Section 21-306 for erosion control projects and related loans in designated districts.
 - o Video lottery local impact aid: restricted by the Annotated Code of Maryland, State Government

Article, Section 9-1A-31(b) for improvements and facilities in the vicinity of the video lottery facility.

- Watershed protection and restoration: restricted by the Annotated Code of Maryland, Environment Article, Section 4-202.1(h) (4) for stormwater management and projects.
- o **Bond premium:** restricted by the County Charter, Section 720(b) for capital improvements financed with the proceeds of the bonds that generated the premiums.
- o **Debt Service:** is restricted through debt covenants.
- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the County's highest level of decision-making authority through the passing of ordinances. These amounts cannot be used for any other purpose unless the County Council removes or changes the ordinance that was employed when the funds were initially committed. The following funds are committed based on legislation in the County code: Bike, Pedestrian, Transportation and Infrastructure Fund; Street Lights Capital Project Fund; Recreation Land Fees Fund; and Energy Revolving Loan Fund. The Installment Purchase Agreement Fund is committed for the purchase of agricultural and woodland preservation programs.
- Assigned: This classification includes amounts that are constrained by the County's intent to be used for a specific purpose, but are neither restricted nor committed. The policy to assign funds is established through the Annual Budget and Appropriation Ordinance each year which is approved by both the County Council and the County Executive. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund. General County Capital Projects are assigned for the repair and replacement of equipment.
- *Unassigned*: The General Fund is the only fund that reports a positive unassigned fund balance. In other governmental funds, it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the General Fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund. This classification includes the residual fund balance for the General Fund. The Arundel Community Development Service Fund and the Grants Fund have negative unassigned fund balance which represents the timing difference between the grant expenditures and payments received for the reimbursable grants.

The County typically uses restricted resources first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

M Compensated absences - The primary government's Statements of Net Position include an accrual for compensated absences. This accrual is an estimate of unused annual leave as of June 30, 2023 the annual leave accrual is calculated using unused annual leave hours as of June 30, 2023 and pay rates in place for each employee at the end of the fiscal year.

The compensated absences accrual also includes an estimate of sick leave payouts earned as of fiscal yearend plus the estimated FICA that would be paid on the amount. Certain employees are paid \$25 per day for unused sick leave upon retirement. The estimate uses unused sick days at year end multiplied by \$25 per day. The accrual is then adjusted to reflect an estimate of the current employees that will ultimately retire with the primary government.

Compensated absences are liquidated within the General Fund and Reforestation Fund. They are also liquidated in the Self Insurance, Central Garage and Transportation, Water and Wastewater, Solid Waste and Child Care.

New GASB Pronouncements - In fiscal year ended June 30, 2023 the County adopted No. 96, Subscription-Based Information Technology Arrangements (SBITA). This GASB Statement improves guidance regarding the accounting and financial reporting of SBITAs by governments. The statement requires all SBITAs to be accounted for in a similar manner.

The right-to-use subscription asset (an intangible asset) and a corresponding subscription liability of \$14,462,900 was reported in the governmental activity's statements as of July 1, 2022.

The following pronouncements will be evaluated for future implementation:

GASB has issued the following pronouncements that may affect future financial position, results of operations, cash flows, or financial presentation of the County upon implementation. Management has not yet evaluated the effect of implementation of these standards.

GASB Effective	GASB Accounting Standard Fiscal	Effective
Statement No.		Fiscal Year
100	Accounting Changes and Error Corrections—an amendment of GASB Statement No. 62	2024
101	Compensated Absences	2025

O Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and the related notes. Actual results could differ from those estimates.

<u>2</u> Budgetary Information

Expenditures and encumbrances of funds may not exceed legally adopted appropriations. The appropriations are established by the County Council in the Annual Budget and Appropriation Ordinance. During the fiscal year, the County Council may adopt supplemental budgetary appropriation ordinances that increase appropriations from revenue not anticipated in the budget or in excess of that anticipated in the budget. The County Executive has the authority to approve intra-department transfers within a fund. Transfers of appropriations from one department to another or from one capital project to another require the County Council's approval by ordinance. The legal level of budgetary control is at the department level for the operating funds, at the project level for capital projects, and at the district level for Roads and Special Community Benefit Districts, Shore Erosion Control Districts, and Waterway Improvement Special Taxing Districts. All unexpended, unencumbered appropriations lapse at year end, except appropriations for capital projects. The County adopts budgets for all funds except the Custodial and Fiduciary Funds, Library Dedicated Revenue Fund and the capital project funds for the Bike, Pedestrian, Transportation and Infrastructure Fund, Recreation Land Fees Fund, Street Light Fund, and Energy Revolving Loan Fund, which are expended through the General County Capital Projects Fund. Appropriations in the grant funds may be increased without a separate ordinance if the conditions in the code are met.

- A Excess Expenditures over Appropriation Limits Expenditures for Conference & Visitor's Center and Arts Council exceeded budgeted appropriations by \$38,702 and \$6,830, respectively, in FY23.
- **Fund Deficits** The Grants Special Revenue Fund had a deficit fund balance in the amount of (\$18,829,339) as a result of funds expended in the current fiscal year that were not reimbursed by the grantor, in particular the State Health Department, within 90 days of the fiscal year end. Child Care Fund had a deficit net position in the amount of (\$1,166,078) as a result of increased personal services costs. The Board of Education and Anne Arundel County Public Library, both discretely presented component units, have deficit net positions of (\$641,505,820) and (\$25,892,099), respectively, as a result of unfunded liabilities for other postemployment and pension benefits. In addition, Governmental Activities has a deficit net position of (\$103,910,813) on the full accrual statements as a result of unfunded liabilities for other postemployment and pension benefits.

C Reconciliation Between Fund Financial Statements and Budgetary Statements - The General Fund's Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Revenues, Expenditures, and Changes in Fund Balances - Budget and Actual use different revenue and expenditure recognition policies, a reconciliation of these two statements is provided as follows:

	_	General Fund
Revenue (under) over expenditures - budgetary basis	\$	(116,925,111)
Net effect of encumbrances		5,232,658
FMV Interest Adj - GAAP		1,206,960
Revenue Reserve Fund Balance		23,186,903
Bond Refunding Premium		43,895

Lease Revenue		(45,412)
Garage Fund Deficit		(589,313)
Effects of Inmate Benefit Fund & Parking Garage Fund		608,016
Net inventory change		498,390
Change in fund balance - modified accrual basis	\$ _	(83,900,843)

<u>3</u> Cash and Investments

The primary government pools available cash and centrally invests these funds to maximize earnings. The component units also pool available cash in this manner. Assets of the Anne Arundel County Pension and Retirement System (Retirement System) and the Anne Arundel County Retiree Health Benefits Trust, which covers Other Post-Employment Benefits (OPEB), are held separately. Significant accounting policies related to cash and investments are included in Note 1C.

Policies – The primary government is authorized to invest available public money in obligations of the U.S. Government, its agencies and instrumentalities; repurchase agreements that are fully collateralized by direct U.S. Government obligations and U.S. Government agency and instrumentality obligations, including fixed rate Mortgage-Backed Securities; Bankers' Acceptances; mutual funds that are registered with the Securities and Exchange Commission (SEC) under the Investment Company Act of 1940 (the Act), are operating in accordance with Rule 2A-7 of the Act, and have received the highest possible rating from at least one Nationally Recognized Statistical Rating Organization as designated by the SEC; Certificates of Deposit; and Commercial Paper. In addition, the primary government can participate in the local government investment pool authorized and maintained by the State of Maryland. The fair value of the position in the pool is the same as the value of the shares. Finally, the primary government is authorized to invest bond proceeds that are subject to arbitrage rebate requirements in State and local government obligations.

The primary government, Board of Education, Community College, and Library all participate in the Maryland Local Government Investment Pool (MLGIP), which provides all local government units of the State a relatively safe investment vehicle for the short-term investment of funds. The State Legislature created MLGIP with the passage of Article 95 22G, of the Annotated Code of Maryland. The MLGIP, under the administrative control of the State Treasurer, is managed by PNC Capital Advisors, LLC. The pool is a 2a7 like pool, which is not registered with the Security and Exchange Commission (SEC), but generally operates in a manner consistent with the SEC's rule 2a7 of the Investment Company Act of 1940 (Rule 2a7). MLGIP has a credit rating of AAAm and seeks to maintain a \$1 per share value, is designed to give local government units of the State an investment vehicle for short-term investment of funds.

Legislation became effective during fiscal year 2015 that expanded the authorized investments for Self-Insurance funds. In addition to the vehicles available for public money, the non-current portion of Self Insurance fund reserves may be invested in investment grade domestic corporate bonds, mutual funds, exchange traded funds, and taxable or tax-exempt municipal securities.

Pooled cash is primarily used to purchase short-term investments. Policy requires that for repurchase agreement investments made by the County, the initial collateral securities underlying repurchase agreement investments have a market value of at least 102.0% of the cost of the repurchase agreement. The collateral is in the County's name and held by an independent third party or at the Federal Reserve. When the collateral falls under 101.0% or is \$100,000 less than the 102.0%, additional collateral is required to bring the total to the required level. As of June 30, 2023, there were no repurchase agreements to collateralize at 102.0%

The Retirement System is authorized to invest in U.S. Government securities, insurance company general accounts, commercial paper, money market mutual funds, corporate bonds, common and international stocks, limited partnerships, absolute return funds, private markets, mortgage participations, and real estate. The Retirement System lends its securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. Effective December 1, 2016, the Retirement System's Lending Agent was Deutsche Bank AG. Deutsche Bank AG lends securities for collateral in the form of cash or other securities of 102.0% for domestic securities and 105.0% for international. Cash collateral received by the Retirement System with respect to these transactions is invested in a separate, un-pooled account basis at the direction of the Board of Trustees in fully collateralized repurchase agreements.

At year end, the Retirement System had no credit risk exposure to borrowers, because the amount of collateral held by the Retirement System was greater than the value of securities on loan. The market value of invested collateral held as of December 31, 2022 was \$93,450,204. There were no securities held as collateral. The market value of securities on loan for the Retirement System as of December 31, 2022 was \$91,289,193.

The Retirement System did not impose any restrictions during the year on the amount of the loans that the agent made on its behalf. Moreover, there were no losses during the year resulting from a default of the borrowers or agent. All security loans can be terminated on demand by either the Retirement System or the borrower. Cash collateral received was invested in Repurchase Agreements, which as of December 31, 2022 had a weighted average final maturity of 1.0 day. The interest rate risk is zero days, as assets and liabilities can be rate changed on a daily basis.

The Anne Arundel Retiree Health Benefits Trust (OPEB Trust) is authorized to invest in large capitalized domestic equities, small capitalized domestic equities, international equities, emerging international equities, core fixed income, diversified fixed income, and real estate. The OPEB Trust's Board of Trustees has established an Investment Policy Statement (IPS) to set forth investment objectives, policies, guidelines, monitoring and review procedures relating to the management and safekeeping of all assets of the OPEB Trusts. Policy allows the use of mutual/commingled funds as investment vehicles under certain guidelines.

Balances and Custodial Credit Risk – As of June 30, 2023, the carrying amount of the primary government's bank deposits was \$552,353 and bank balances were \$5,167,015. All bank balances were fully secured by Federal Deposit insurance or fully collateralized. The total money market fund balance was \$277,468,567.

Cash balances of the Board of Education are fully secured by Federal Deposit insurance and collateral held in the Board's name at the Federal Reserve Bank of Richmond. Deposits for Anne Arundel Community College are secured and properly protected. The cash balances of the other non-major component units were insured.

Money market fund balances for the Retirement System as of calendar year-end December 31, 2022 and OPEB Trust as of fiscal year ended June 30, 2023, were \$68,839,140 and \$14,663,320 respectively.

Custodial credit risk is the risk that the primary government will not be able to recover deposits in the event of the failure of a depository financial institution or will not be able to recover collateral securities that are in the possession of an outside party. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the primary government, and are held by either a counterparty or the counterparty's trust department or agent, but not in the primary government's name. The primary government's Investment Policy requires that the Controller maintain a list of financial institutions authorized to provide investment services, including custodial services and collateral requirements. Internal procedures establish the methods for evaluating eligible institutions. Custodial credit risk for deposits is not addressed in the policy.

C Interest Rate Risk – Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The fair value of fixed income (debt) securities is affected by increases and declines in interest

rates. These investments may also have embedded call features allowing the issuer to redeem part or all of the issue prior to maturity at a pre-determined price. In addition, debt issues may have interest rates that vary according to a pre-determined external index (such as the Secured Overnight Financing Rate) or a pre-determined step-up in the interest rate at a pre-determined date(s). The primary government's Investment Policy does not specifically address interest rate risk. However, term limits are established for certain investments to minimize interest rate risk. The Retirement System's Investment Policy Statement (IPS) sets limits on floating rates for mortgage-backed securities and establishes limits on the average duration of some investment types.

The table that follows uses the *Segmented Time Distribution* method to display debt investments by maturity for the primary government and the component units by term and investment type. Market values for issues within the primary government's agency/instrumentalities category include \$87,953,219 of callable issues as of June 30, 2023. There is one corporate bond that has both callable and variable-rate features in the amount \$1,598,976 as of June 30, 2023. The component units' issues have no variable rate securities. Exchange traded fund (ETF) investments with a market value of \$21,667,887 are not included in this table.

The following table uses *Segmented Time Distribution* to display the Retirement System's debt holdings by maturity term and investment type as of December 31, 2022. Some issues within the categories agencies/instrumentalities, corporate bonds, collateralized mortgage obligations, and other asset-backed securities have variable-rate features. The total fair value of the securities with variable rate features was \$8,028,031 as of December 31, 2022.

The table also includes issues with call features and assumes that these issues will be held to maturity. The total fair market value of callable securities totals \$114,329,539 with call dates ranging from January 4, 2022 for continuously callable issues to August 5, 2069. Stated call prices are generally at par. The callable holdings include issues with floating interest rates, which have a market value of \$11,611,441. Non-debt investments, guaranteed contracts, and un-invested cash with a combined fair value of \$1,540,947,164, do not have maturity dates and therefore are not included in this table.

Not included above is AETNA pool of \$20,071,222.

The OPEB Trust owned one debt mutual fund exposed to interest rate risk as of June 30, 2023. As of June 30, 2023 the trust owned one fixed income mutual fund with an effective maturity of 5.3 years with a fair value of \$124,426,536.

Credit Risk – Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Debt securities are rated by Nationally Recognized Statistical Rating Organizations to provide purchasers with an opinion of the capability and willingness of a borrower to repay its debt. The primary government's Investment Policy does not address credit risk. The following table displays the County's debt holdings and quality ratings from Standard & Poor's. Ratings for the component units and Retirement System are listed separately. Exchange traded fund (ETF) investments with a market value of \$21,667,887 are not included in this table.

Credit ratings of U.S. government agency securities that are only implicitly guaranteed by the U.S. government are categorized accordingly in the main body of this table. Implicitly guaranteed agency securities include government mortgage backed, government agencies, and short-term U.S. treasury bills and notes. Other categories issued are Federal National Mortgage Association, Federal Deposit Insurance Corporation, Federal Home Loan Bank, Federal Home Loan Mortgage Corporation, Federal Financing Corporation, Small Business Association, Farmer Mac, and Federal Farm Credit.

- **E** Concentration Risk Concentration risk is the risk of loss attributed to the magnitude of the government's investment in a single issuer. As of June 30, 2023, Federal Home Loan Bank was 23.2% of the primary government's investments, Federal Farm Credit Bank represented 5.9%, Federal National Mortgage Association was 4.2%, Federal Agricultural Mortgage Corporation was 1.6%, Federal Home Loan Mortgage Corporation was 1.1%, and Tennessee Valley Authority was 0.2%. The primary government's Investment Policy requires diversification of investments by security type and institution. Issuer limits are not addressed. There was no investment greater than 5.0% for the Board of Education or the Community College, excluding pools. The Retirement System's IPS sets maximum concentration limits by asset type and manager style. As of December 31, 2022, there was no exposure to a single issuer greater than 5.0% of the Retirement System's plan net position, excluding investment pools.
- Foreign Currency Risk This risk relates to the potential, unfavorable fluctuation of exchange rates compared with the U.S. Dollar. Neither the primary government nor its component units had exposure to foreign currency risk as of June 30, 2023. The Retirement System recognizes the value of global diversification and retains six managers for global and international equity and fixed income investments. Global and international managers may also purchase or sell currency on a spot basis and may enter into forward exchange contracts on currency, provided that the use of such contracts is designed to dampen portfolio volatility or to facilitate the settlement of securities transactions.

As of December 31, 2022, the Retirement System had no direct exposure to fixed income foreign currency. The fair market value of international/global equities and fixed income assets, which are managed in pooled funds, totaled \$540,011,258 as of December 31, 2022.

As of June 30, 2023, the OPEB Trust had no direct exposure to fixed income foreign currency. The fair market value of one international mutual fund totaled \$123,872,396.

Fair Value Measurement – The Primary Government, Retirement System and Retiree Health Benefits Trusts have categorized the fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset and give the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs.

Level 1 Unadjusted quoted prices in active markets for identical instruments.

Level 2 Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuation in which all significant inputs are observable.

Level 3 Valuations derived from valuation techniques in which significant inputs are unobservable.

Investments that are measured at fair value using the net asset value per share, or its equivalent, as a practical expedient are not classified in the fair value hierarchy.

The schedule of investments by type and hierarchy level as of June 30, 2023 is displayed below. As of June 30, 2023, short-term investments of \$277,468,567 were in money market mutual funds, which are not subject to the fair value measurement requirements.

Assets at Fair Value June 30, 2023

Securities classified in Level 1 are valued using quoted prices in active markets for those securities. Securities classified in Level 2 and Level 3 are valued using methodologies such as various bid evaluations, market averages and other matrix pricing techniques as well as values derived from associated traded securities or last trade data. In instances where inputs used to measure fair value fall into different levels, the fair value is categorized based on the lowest level input that is significant to the valuation.

Investments valued at the net asset value (NAV) per share, or its equivalent, have been classified separately in the table above and include investments considered to be Alternative Investments as defined by the American Institute of Certified Public Accountants. The definition includes investments for which a readily determinable fair value does not exist (that is, investments not listed on national exchanges or over-the-counter markets, or for which quoted market prices are not available from sources such as financial publications, the exchanges, or NASDAQ).

These types of investments can be held within any of the asset classes used by the System based on underlying portfolio holdings and analysis of risk and return relations. These investments can be structured in different ways, including limited partnerships, limited liability companies, common trusts, and mutual funds. Some are closed-ended with a specific life and capital commitments while others are open-ended with opportunity for ad hoc contributions or withdrawals and termination with proper notice.

Exposure to Derivatives – Derivative instruments are securities that derive value from another asset and are in the form of a contract between two or more parties. Common derivatives are futures contracts, forwards contracts, options, and swaps. The System has no direct exposure to derivative securities. There are however, mutual funds, commingled funds, and other investment vehicles in which the System has a percentage ownership that have exposure to futures, currency forward contracts, commodity forward contracts, and total return swap contracts. These funds enter into derivative contracts as part of their investment strategies to mitigate risk and volatility.

A derivative policy statement is included in the Investment Policy Statement (IPS). Prohibited instruments include options, commodities, uncovered options or futures, uncovered short positions, short selling, and use of financial leverage. The derivative exposure as of December 31, 2022 within the mutual funds is comprised of allowable instruments based on the IPS.

Commingled/Mutual Funds – These types of funds are open-ended funds and may be utilized in equity or fixed income asset classes. They are funds made up of underlying securities that have readily available fair values (publicly traded stocks or bonds). The Retirement System owns units of these funds rather than the individual securities. Contributions or withdrawals from the funds can be made as needed, generally with daily or monthly liquidity, with a notice period of one to thirty days. There are no unfunded commitments for these types of investments, because they are liquid funds.

Private Markets – Private Market investments are typically private interests in corporations across different areas of the capital structure and in different stages of the corporations' development via limited partnership vehicles. Private Market investments are illiquid and long-term in nature (10-12 years), typically held until maturity. These portfolios generally have a "J-Curve Effect" whereby there are low to negative returns in the initial years due to the payment of investment management fees and initial funding of investments made by the General Partner during a period when investments are typically carried at cost and returns have not been realized. To diversify the program, investments are made across business cycles, vintage years, and different strategies. The Retirement Systems' Investment Policy Statement has a dedicated asset class for Private Markets. There is no option to request redemptions from the Private Market funds.

The schedule of fair market measurements for the Community College follows: Community College Assets at Fair Value June 30, 2023

<u>4</u> Receivables

- *Property Taxes Receivable* The County's property tax is levied each July 1st based on values assessed and certified by the Maryland State Department of Assessments as of that date. Liens are placed on property at that time. A revaluation of each property is required to be completed every three years. For owner-occupied residential property, owners can choose to pay one payment due September 30th or two installments due on September 30th and December 31st. Property taxes are due from all other taxpayers on September 30th. Once the due date has passed, interest and penalties are charged each month on the unpaid balance. Property with delinquent taxes, are included in the tax sale each May or June.
- B State Income Taxes Receivable Revenue from the income tax is derived from personal income from County residents like salaries and social security payments as well as income from capital gains, interest and some business income. Local income tax revenue was collected by The State and distributed to local governments throughout the year. The State's distribution of the County's share of income taxes lags behind the County's fiscal year. Management estimates the amount of receivables for taxes earned in the fiscal year by analyzing the historical trends of distribution patterns and current year income tax activity. The estimated unavailable local income tax balance as of June 30, 2023 was \$158,728,333. The local income tax rate for the reporting fiscal year is 2.81%.
- C Long-Term Receivables The primary government has long-term receivables recorded in the Water and Wastewater Fund consisting of front foot benefit assessments, capital facility connection fees, and interest charges that vary from 1.6% to 8.0%. These receivables are collected over five to thirty years. The balance as of June 30, 2023 was \$19,186,848.

5 Capital Assets

The components of capital assets, changes in asset categories, and accumulated depreciation for the fiscal year ended June 30, 2023 are presented as follows:

The County has established tax increment and special taxing districts to aid in development efforts within certain geographical areas. The proceeds of debt issued on behalf of the districts are primarily used for capital improvements. Expenditures related to the improvements are recorded in the County's capital projects and are included as construction in progress until the projects are completed. The related assets are capitalized when developer construction agreements are finalized and the assets inspected. The assets are depreciated over their estimated useful lives.

Certain items in construction in progress may be expensed once the projects close based on the final analysis of the capital projects closing. As a result, the amounts closed in construction in progress may be greater than the additions to capital assets.

Depreciation and amortization expense has been included in the functional categories on the Statement of Activities based on the governmental department, business-type activity, or component unit responsible for the asset. The table that follows shows the depreciation expense for each functional category.

Governmental activities:			Business-type activities:		
Public safety	\$	13,667,849	Water and wastewater	\$	69,266,812

<u>6</u> Restricted Assets and Liabilities

The following funds are shown as restricted on the government-wide financial statements, Statement of Net Position: General, Grants, Impact Fees Capital Project, General County Capital Projects, Forfeiture and Asset Seizure Team, Roads and Special Benefits District, Reforestation, Laurel Racetrack, Video Lottery Local Impact Aid, Opioid Abatement, Housing Trust, Arundel Community Development Services, Circuit Court, Erosion Districts, Watershed Protection and Restoration, Tax Increment Funds and Special Taxing Districts. In addition, fees collected by the Water and Wastewater Fund, including capital connections, front foot benefit assessments, and environmental protection fees are restricted for the payment of debt service incurred for the construction of capital facilities. Water and Wastewater Fund capital grants are restricted and the Solid Waste Fund includes restricted funds for the payment of closure and post-closure costs.

7 Interfund and Intra-Entity Balances and Transfers

The interfund balances of the primary government consist of the following as of June 30, 2023:

Fund With Receivable	Fund With Payable	_	Amount	Represents
General Fund	Non-major Governmental Funds	\$	468,774	Temporary borrowing from the General Fund
General Fund	Grants Special Revenue Fund		11,576,459	Temporary borrowing from the General Fund
General Fund	Internal Service Funds		18,857,657	Temporary borrowing from the General Fund
General Fund	Internal Service Funds		6,015,913	Self Insurance Fund surplus allocation
Non-major Enterprise Funds	Internal Service Funds		1,767	Self Insurance Fund surplus allocation
Water and Wastewater Fund	Internal Service Funds		145,805	Self Insurance Fund surplus allocation
Solid Waste Fund	Internal Service Funds		31,526	Self Insurance Fund surplus allocation
Internal Service Funds	Water and Wastewater Fund		928,880	Central Garage Fund deficit allocation
Internal Service Funds	Solid Waste Fund		540,367	Central Garage Fund deficit allocation
Internal Service Funds	General Fund		7,564,116	Central Garage Fund deficit allocation
		\$	46,131,264	

Interfund balances between the General Fund and internal service funds have been eliminated on the government-wide Statement of Net Position.

Transfers between the primary government's governmental funds totaled \$413,289,695 for fiscal year 2023. The transfers are for the following:

Originating Fund	Recipient Fund	Amour	ıt	Purpose
General Fund	Arundel Community Development Services	\$ 270,	000	Transfers for grants
General Fund	General County Capital Projects	115,455,	000	Bond proceeds transferred for capital projects
General Fund	General County Capital Projects	204,795,	000	Pay-as-you-go transfers for capital projects
Impact Fees Capital Projects	General County Capital Projects	9,841,	339	Impact fee funding for capital projects

Transfers between the primary government's proprietary funds and governmental funds presented as follows, totaled \$1,398,958 for fiscal year 2023. The transfers from the Water and Wastewater Fund and the Solid Waste Fund to the General County Capital Projects Fund are for an information technology project. The transfer from the Solid Waste Fund to the Non-major Governmental Funds is for Energy Revolving Loan Fund loans.

Originating Fund	Recipient Fund	Amount
Water and Wastewater Fund	General County Capital Projects	\$ 877,600
Solid Waste Fund	General County Capital Projects	191,900
Solid Waste Fund	Non-major Governmental Funds	329,458
		\$ 1,398,958

As of June 30, 2023, receivable and payable balances remained between the primary government and the discretely presented component units. These balances and transactions are a result of the primary government's ongoing funding of the component units' capital and operating costs and a return of funding. Those balances and the payments from the primary government to or on behalf of these parties are presented as follows:

Receivables/Payables

<u>Entity with Receivable</u>	Entity with Payable		Amount
Board of Education	Primary Government	\$	39,580,014

		\$	1,040,979,127

8 Bonded Debt and Other Obligations

E-4:4-- --:4h D---:--hl-

The primary government's Statement of Net Position includes short and long-term debt and obligations comprised of bond anticipation notes, general obligation bonds, special assessment debt, installment purchase agreements, and liabilities related to State loans, unpaid insurance claims and claims and judgments. Descriptions of certain of these obligations and the respective balances, debt service requirements, and changes during fiscal year 2023 are provided as follows.

A Bond Anticipation Notes – The County periodically incurs short-term debt by issuing bond anticipation notes for the purchase of capital related assets. Upon refinancing, at the notes' maturities, they will be marketed at then-

current interest rates which is calculated based on the weekly SOFR Index plus thirty basis points. This remarketing is backed for liquidity purposes by a letter of credit, the terms of which provide that no principal repayments are due if there is a call on the letter of credit, until the termination of the agreement. The maturity date of the current liquidity arrangement is December 14, 2024. The County has a credit amount available of up to \$90 million, of which none is outstanding as of June 30, 2023.

B General County Debt – Substantially all long-term bonded debt is issued as general obligation bonds for the purchase of capital assets and guaranteed by the full faith and credit of the County, subject to guidelines set forth in Title10, Subtitle1, Section 4-10-104 of the County Charter, which addresses bonds and notes for capital improvements. The following table includes general obligation bonds which include amounts issued for the Watershed Protection and Restoration Fund, but excludes the tax increment bonds, installment purchase agreements, and state loans. These are listed separately. Business-type debt includes general obligation bonds issued for the Solid Waste Fund and Water and Wastewater Fund. The debt service requirements for the bonds outstanding as of June 30, 2023 are presented as follows:

General County Debt										
Year Ending		Governm	ental	Business	-type					
June 30 ,	_	Principal	Interest	Principal	Interest					
2024	\$	98,640,851 \$	67,591,815 \$	44,063,468 \$	36,137,552					
2025		94,048,880	63,258,957	42,638,854	34,426,371					
2026		86,602,147	58,556,902	42,096,286	32,384,728					
2027		83,375,188	54,241,984	41,620,264	30,428,629					
2028		80,020,580	50,252,642	40,980,760	28,560,011					
2029-2033		333,771,664	197,683,437	191,572,837	116,488,657					
2034-2038		227,624,868	128,177,269	156,157,853	76,063,816					
2039-2043		211,944,711	80,675,459	130,991,740	42,872,613					
2044-2048		204,293,370	35,599,217	89,731,630	16,157,711					
2049-2053	-	80,794,782	5,115,286	33,345,218	2,366,564					
	\$	1,501,117,041 \$	741,152,968 \$	813,198,910 \$	415,886,652					

C Tax Increment and Other Debt - As of June 30, 2023, there was \$56,780,000 of Special Obligation Tax Increment Bonds payable from property tax revenue generated from assessment increases occurring since the formation of the tax increment districts. This debt is included in the primary government's long-term debt on the Statements of Net Position. The County has pledged its full faith and credit for the following Special Obligation Tax Increment Bonds: Arundel Mills Refunding 2004, National Business Park Refunding 2004, West Nursery Road 2004, Arundel Mills Refunding 2014, National Business Park Refunding 2014, and West Nursery Road Refunding 2014. As of June 30, 2023, the County has also pledged its full faith and credit for National Business Park North 2018 Refunding bonds and Village South at Waugh Chapel 2018 Refunding bonds.

During the fiscal year ended June 30, 2023, \$52,199,518 of incremental property tax revenue was collected and available for debt service purposes as reported on the Combining Statement of Revenues, Expenditures and Changes in Fund Balances for the Non-major Governmental Funds. Of this amount, \$1,099,113 is related to Park Place which is not considered part of the County's debt and \$4,925,826 is related to Odenton Town Center TIF which does not have debt outstanding as of June 30, 2023. The table that follows outlines the debt service requirements for these bonds.

Year Ending			Year Ending			
June 30,	 Principal	 Interest	June 30,	_	Principal	Interest
2024	\$ 4,600,000	\$ 1,992,519	2029-2033	\$	14,920,000	\$ 3,636,245
2025	4,965,000	1,758,644	2034-2038		12,760,000	1,402,833
2026	5,310,000	1,543,219	2039-2041	_	2,650,000	141,049
2027	5,620,000	1,349,519		_		
2028	5,955,000	1,143,819		\$	56,780,000	\$ 12,967,847

In addition, there were \$1,345,000, \$9,730,000, \$29,205,000, and \$22,280,000 of special tax district bonds related to the Farmington Village Project, the Villages of Dorchester, Two Rivers, and Arundel Gateway outstanding as of June 30, 2023, respectively. The proceeds of these bonds were used to finance infrastructure improvements within the special districts. These bonds are payable solely from the proceeds of a special tax levied on parcels within the districts and are not backed by the County's full faith and credit. This debt does not appear on the Statement of Net Position. The County acts only as a fiduciary in collecting the taxes and servicing the debt.

D State Loans – The County has interest free loans outstanding in the amount of \$1,681,761 as of June 30, 2023. These loans were received from the State for waterway improvements. During fiscal year 2023, the County paid \$214,911 for principal. The table that follows outlines the debt service requirements:

}	Year Ending	g		Year Ending		
	June 30,	_	Principal	_ June 30,	_	Principal
	2024	\$	202,260	2029-2033	\$	569,492
	2025		202,260	2034-2038		84,999
	2026		202,260	2039-2041		29,100
	2027		195,695			
	2028		195,695		\$	1,681,761

E Installment Purchase Agreements – The County has instituted an Installment Purchase Program to facilitate County purchases of real property easements to maintain farmland and other open space. Under this program, the County signs long-term debt agreements with property holders with a minimal down payment, typically \$1,000. Interest and nominal principal payments are made over the life of the agreement, and a balloon payment is due at the end of the term to pay off the remaining principal balance. To pay the balloon payment, the County purchases and reserves a zero coupon U.S. Treasury Strip. This investment matures when the agreement expires and effectively earns the same interest rate that the County pays on the debt. The debt requirements as of June 30, 2023 are presented as follows:

Year Ending				Year Endin	g			
June 30,	_]	Principal	Interest	June 30,		Principal	_	Interest
2024	\$	20,000	\$ 717,146	2029-2033	\$	1,534,000	\$	848,604
2025		20,000	716,030	2034-2038		1,444,000		602,308
2026		20,000	714,915	2039-2043	_	1,487,000	_	202,976
2027		20,000	713,799					
2028		8,880,000	712,683		\$	13,425,000	\$	5,228,461

F Year-end Balances, Debt Limitations, and Authorized Debt - A summary of the debt issues currently outstanding is provided as follows:

	Dates	Rates	Original Issue	_	Outstanding
Governmental activities:				-	_
General obligation bonds	2024-2053	2.00% to 5.00%	\$ 2,070,251,037	\$	1,501,117,041
Tax increment district bonds	2024-2041	1.50% to 5.00%	79,240,000		56,780,000
Installment purchase agreements	2024-2041	4.55% to 6.00%	13,819,916		13,425,000
State loans	2024-2040	0%	4,813,912	_	1,681,761

Solid waste serial bonds	2024-2053	2.00% to 5.00%	57,308,963	_	42,992,958
Total business-type activities			1,080,378,923		813,198,910
			\$ 3,248,503,788	\$	2,386,202,712

The County Charter authorizes the County Council to approve the issuance of general obligation bonds and to set limits on bonds issued through ordinance. Based on the effective ordinance, bonds (other than water and sewer) are limited at 5.2% of the assessable base of real property and 13.0% of the assessable base of personal property and certain operating real property of the County. In addition, general obligation water and water and wastewater bonds are limited at 5.6% of the assessable base of real property and 14.0% of the assessable base of personal property and certain operating real property within the County's sanitary district. As of June 30, 2023, the legal debt limitations and margins are as follows:

%/13.0% Limitations)	Water and Wastewater (5.6%/14.0% Limitations)			
5,550,794,603	\$	5,520,379,147

As of June 30, 2023, the County had the total authority to issue bonds in the amount of \$2,535,288,075 of which \$979,746,420 has not been issued. Included in the amounts available to issue to date are \$396,399,264 for general obligation water and wastewater series bonds, and \$30,451,761 of general obligation bonds for the Solid Waste Fund. This unused authority will be used to fund existing capital projects and those appropriated through the budgetary process.

G Loans Payable – On July 25, 2012, the Anne Arundel Community College Foundation finalized an agreement between Anne Arundel County, Maryland (the issuer) and The Bank of New York (the Trustee) whereby the Foundation refinanced \$12,180,000 of the economic development revenue bonds. The proceeds of the loan were used to finance the cost of the construction of educational facilities. Principal payments began September 1, 2014, with the final principal payment being due on September 1, 2028. Interest on the bonds varies from 2.00% to 4.00%. The loan balance as of June 30, 2023 was \$5,800,000. Scheduled principal payments due on the bonds payable for future years ending June 30 are shown as follows:

	Ending ne 30,	Principal Payments_	r Ending une 30,	 Principal Payments	 Year Ending June 30,	Principal Payments
2	024	\$ 895,000	2026	\$ 950,000	2028	\$ 1,010,000
2	025	925,000	2027	975,000	2029	1,045,000
						\$ 5,800,000

Payables to State of Maryland – In the case of Comptroller v. Wynne, 135 S.Ct. 1787 (2015), the United States Supreme Court ruled in May 2015 that Maryland residents who paid income taxes to another state on income earned in the other state were entitled to a credit against the county portion of the Maryland income tax owed. The ruling meant that each county in Maryland would experience a reduction in income tax revenue, including Anne Arundel County. The Comptroller's Office calculated the fiscal impact of the ruling on the County to be \$17,694,496 of refunds for prior years' taxes, and an estimated reduction of \$4,000,000 each year going forward. The calculated amount of refunds to be paid has been recorded as a non-current liability on the Statement of Net Position and an accrued liability in the General Fund. The County began reimbursing the State of Maryland in May 2021 in the amount of \$221,181 quarterly. These reimbursements will continue for 80 installments over twenty years. During fiscal year 2023, total payments of \$884,724 were made and \$15,482,686 remains outstanding at June 30, 2023.

Changes in Debt and Obligations – The changes in the primary government's long-term liabilities are presented as follows:

^{*} Subscriptions beginning balance of \$14,462,900 reflects implementation of GASB 96 as of July 1, 2022.

Refundings — In fiscal year 2023, the County defeased certain General Obligation and Water Wastewater Bonds by placing the proceeds of the refunding bonds in an irrevocable trust to provide for all future debt service payments on the refunded bonds. The funds are held in escrow by a third-party custodian invested in U.S. Government issued securities. On April 12, 2023 the County issued \$62,485,000 in non-taxable refunding bonds for the following: \$40,730,000 to refund \$46,400,000 of General Obligation Bonds Series 2013, \$21,755,000 to refund \$25,400,000 of Water and Wastewater Series 2013. The true interest cost for the General Obligation bonds refunded bonds was 2.07% and the true interest cost for the Water Wastewater bonds refunded was 2.96%. The current refunding net proceeds were deposited in an irrevocable trust account with an escrow agent to provide for all future debt service payments on the refunding bonds. As a result, the refunding bonds are considered to be defeased and have been removed from the primary government statement of net position. The savings or aggregate difference in debt service from refunding General Obligation Series 2013, was \$6,374,759 and from refunding Water Wastewater Series 2013 was \$2,869,337. The net effect of the total refunding loss for General Obligation was \$9,516,886, and the effect of the refunding gain for Water Wastewater Series 2013 was \$757,139. The refunding loss is being amortized over the shorter life of either the old refunded bonds or new the new refunding bonds. There was a net present value savings of \$9.2 million in debt service.

<u>9</u> <u>Leases</u>

A lease is defined as a contractual agreement that conveys control of the right to use another entity's nonfinancial asset, for a minimum contractual period of greater than one year, in an exchange or exchange-like transaction. The County leases and subleases a significant amount of nonfinancial assets such as land, buildings, equipment and infrastructure. The related obligations are presented in the amounts equal to the present value of lease payments, payable during the remaining lease term. As the lessee, a lease liability and the associated lease asset is recognized on the government-wide Statement of Net Position.

A County as Lessee

The County has entered into various lease agreements as lessee primarily for office space and office equipment. Leases have initial terms from 2 to 31 years with an average length of 10 years, and contain one or more renewals at the County's option, most commonly for five-year periods and others at one or three years. The County has generally included these renewal periods in the lease term when it is reasonably certain that the County will exercise the renewal option. The County's leases generally do not include termination options for either party to the lease or restrictive financial or other covenants. Certain real estate leases require additional payments for common area maintenance, real estate taxes, and insurance, which are expensed as incurred as variable lease payments. For office space leases that include variable payments, those include payments for the County's proportionate share of the building's property taxes, insurance, and common area maintenance. The County's lease arrangements do not contain any material residual value guarantees. As the interest rate implicit in the County's leases is not readily determinable, the County utilizes its incremental borrowing rate to discount the lease payments.

As of June 30, 2023, the statement of net position included the following amounts relating to leases:

	Gove	rnmental	Busine	ess-Type	 Total	 omponent Unit Library

B County as Lessor

The County leases out some of its buildings and land. Most leases have initial terms from 2 to 77 years with an average length of 10 years and contain one or three more renewals at the County's option for five-year periods. The County has included these renewal periods in the lease terms when they are both non-cancellable and reasonably certain to be exercised. The County's lease arrangements do not contain any material residual value guarantees. As the interest rate implicit in the County's leases is not readily determinable, the County utilizes its incremental borrowing rate to discount the lease payments. Although the County is exposed to changes in the residual value at the end of the current leases, the County typically enters into new operating leases and therefore will not immediately realize any reduction in residual value at the end of these leases.

On July 1, 2022, Anne Arundel County, MD entered into a 60-month lease as Lessor for the use of Amberly Water Tank-Verizon. An initial lease receivable was recorded in the amount of \$314,343. As of 06/30/2023, the value of the lease receivable is \$260,002. The lessee is required to make monthly fixed payments of \$5,253. The lease has an interest rate of 3.3050%. The value of the deferred inflow of resources as of June 30, 2023 was \$251,474, and Anne Arundel County, MD recognized lease revenue of \$62,869 during the fiscal year. The lessee has 3 extension option(s), each for 60 months.

The total amount of inflows of resources relating to leases recognized in the current fiscal year are as follows:

		Activ	ity				
	Go	vernmental	Bu	siness-Type	Total		
Lease Revenue	\$	967,917	\$	1,689,040	\$	2,656,958

^{*} Included in Governmental Activities column above.

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. In addition, governmental funds and governmental activities defer revenue recognition in connection with resources that have been received, but unearned. At the end of the current fiscal year, the components of deferred inflows and unearned revenue were reported as follows:

13 Conduit Debt

The County has issued Industrial Revenue Bonds to provide financial assistance to third parties for the acquisition or construction of facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on underlying mortgage loans. Upon repayment of the bonds, ownership of the facilities transfers to the private entity served by the bond issuance.

As of June 30, 2023 153 Industrial Revenue Bonds series have been issued. The aggregate principal amounts payable for the three series issued after July 1, 1996 that are still outstanding was \$19,865,000. The aggregate principal amounts payable for the 150 issued prior to July 1, 1996, could not be determined; however, the original issues totaled \$582,700,000. The County is not obligated in any manner for payment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

14 Pension Plans

County employees participate in one of four single-employer defined benefit pension plans, which are in separate trust funds and administered by the Anne Arundel County Retirement and Pension System (Retirement System). The Retirement System issues a separate financial report for these plans. A copy of this report can be obtained from Anne Arundel County on the Office of Personnel page of the County website at www.aacounty.org. Some County employees participate in two multi-employer cost sharing pension plans administered by the State of Maryland. The County plans were established under authority created by County Charter and legislation, while the State plans were created by State legislation. The County's actuarial valuation measurement date is December 31, 2021.

- A Summary of Significant Accounting Policies for Pensions For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the County System and the Maryland State Retirement and Pension System and additions to/deductions from the System's fiduciary net position have been determined on the same basis as they are reported by the respective Systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.
- B Single Employer Defined Benefit Pension Plans The Retirement System administers the Anne Arundel County Employees' Retirement Plan (Employees Plan), Anne Arundel County Police Service Retirement Plan (Police Plan), Anne Arundel County Fire Service Retirement Plan (Fire Plan), and Anne Arundel County Detention Officers' and Deputy Sheriffs' Pension Plan (Detention Plan). Although the assets of the plans are commingled for investment purposes, each plan's assets must be used for the payment of benefits to the participants within that plan, in accordance with the terms of the plan. All benefit provisions are established by County legislation. Each of the plans provides for cost of living adjustments to annual benefit payments.

Membership in each plan consisted of the following as of December 31, 2022 based on the January 1, 2023, actuarial valuation:

	Employees' Retirement Plan	Police Service Retirement Plan	Fire Service Retirement Plan	Detention Officers' and Deputy Sheriffs' Plan	Total
Retirees and beneficiaries receiving payments	2,201	817	677	345	4,040
Terminated Plan members entitled to but					
not yet receiving payments	293	-	-	3	296
Deferred Retirement Option (DROP)	-	78	82	43	203
Active Plan members	2,156	680	802	293	3,931
Total	4,650	1,575	1,561	684	8,470

<u>Employees Plan</u> - Plan Description – The Employees' Retirement Plan is a single-employer defined benefit pension plan that covers all full-time general employees of the County who are not included in any other pension plan, as well as employees of Anne Arundel Economic Development Corporation. The Plan provides retirement, disability, and death benefits to Plan members and their beneficiaries pursuant to two separate benefit structures, Tier I and Tier II. Cost-of-living adjustments (COLAs) are also provided pursuant to County legislation.

Contributions – Contribution rates for participants are established through County legislation. Employees who elect to be in Tier I are required to contribute 4.0% of their annual covered salary. Tier II employees are not required nor permitted to make contributions.

Cliff Vesting – Participants hired on or before June 30, 2015 will be fully vested after their fifth year of service. Termination prior to the fifth year will result in the return of all employee contributions, if applicable, plus 4.25% interest per annum with no additional benefits available. Participants hired on or after July 1, 2015 will be fully vested after their tenth year of service. Termination prior to the tenth year will result in the return of all employee contributions, if applicable, plus 4.25% interest per annum with no additional benefits available.

<u>Police Plan</u> - Plan Description – The Police Service Retirement Plan is a single-employer defined benefit pension plan that covers the following classes of workers: Police Officer, Police Officer First Class, Police Corporal, Police Sergeant, Police Lieutenant, Police Captain, Police Major, Deputy Police Chief (classified position), and (by election) the Chief of Police and Deputy Police Chief (by election if exempt). The Plan provides retirement, disability, and death benefits to Plan members and their beneficiaries. COLAs are also provided pursuant to County legislation.

Contributions – Contribution rates for participants are established through County legislation. Plan participants are required to contribute 7.25% of their basic rate of pay as a participant. The basic rate of pay is the rate of annual basic compensation (including longevity) with the County on the day specified, excluding overtime payments and other forms of additional compensation.

Normal Retirement – Participants hired on or after February 25, 2002 will be fully vested on the earlier of their attainment of age 50 and completion of their fifth year of service, or their completion of 20 years of service. Participants hired before February 25, 2002 will be fully vested on the earlier of their attainment of age 50 or completion of 20 years of service. Termination prior to attainment of Normal Retirement will result in the return of all employee contributions, if applicable, plus 3.0% interest per annum with no additional benefits available.

<u>Fire Plan</u> - Plan Description – The Fire Service Retirement Plan is a single-employer defined benefit pension plan that covers the following classes of workers: Fire Fighter II, Fire Fighter III, Fire Fighter Cardiac Rescue Technician, Fire Fighter/Emergency Medical Technician-Paramedic, Fire Lieutenant, Fire Captain, Fire Battalion Chief, Fire Division Chief, Fire Deputy Chief, and (by election) the Assistant Fire Chief and Fire Chief. The Plan provides retirement, disability, and death benefits to plan members and their beneficiaries. COLAs are also provided pursuant to County legislation.

Contributions – Contribution rates for participants are established through County legislation. Plan participants are required to contribute 7.25% of their annual covered salary.

Normal Retirement – Participants who retire on or after July 1, 2002 will be fully vested on the earlier of their attainment of age 50 and completion of their fifth year of service, or their completion of 20 years of service. Participants who retired prior to July 1, 2002 will be fully vested on the earlier of their attainment of age 50 and completion of 5 years of service. Termination prior to attainment of Normal Retirement will result in the return of all employee contributions, if applicable, plus 3.0% interest per annum with no additional benefits available.

<u>Detention Plan</u> - Plan Description – The Detention Officers' and Deputy Sheriffs' Retirement Plan is a single-employer defined benefit pension plan that covers the following classes of workers: Detention Officer, Detention Corporal, Detention Sergeant, Detention Lieutenant Detention Captain, Correctional Program Specialist I, Correctional Program Specialist II, Criminal Justice Program Supervisor, Correctional Facility Administrator, Assistant Correctional Facility Administrator, Deputy Sheriff I, Deputy Sheriff II, Deputy Sheriff IV, and (by election) the Superintendent of Detention Facilities. The plan provides retirement, disability, and death benefits to Plan members and their beneficiaries. COLAs are also provided pursuant to County legislation.

Contributions – Contribution rates for participants are established through County legislation. Plan participants are required to contribute 6.75% of their annual covered salary.

Cliff Vesting – Participants will be fully vested on the attainment of age 50 and completion of their fifth year of service. Termination prior to attainment of Normal Retirement will result in the return of all employee contributions, if applicable, plus 4.25% interest per annum, with no additional benefits available.

Additional detail for determining benefit payments and eligibility for retirement can be found on the County Connect Personnel Benefits web site under Pension System Information for all four plan.

C Multiple-Employer Pension Plans - Primary government employees hired prior to July 1, 1969 who elected not to transfer to the Employees Plan and substantially all employees of the Board of Education, Library and Community College participate in plans of the Maryland State Retirement and Pension System (the State System), which are multi-employer cost sharing defined benefit pension plans. The system plans provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. The State System issues a financial report that includes financial statements and required supplementary information that can be

obtained at http://www.sra.state.md.us or by writing to State Retirement Agency of Maryland, 120 East Baltimore Street, Baltimore, MD 21202.

Information on the State System follows:

Plan description: Retirees and employees of the County are covered by the Maryland State Retirement and Pension System (the System), which is a cost sharing employer public employee retirement system. The State System is made up of two cost-sharing pools: the "State Pool" and the "Municipal Pool". The Municipal Pool consists of the participating governmental units that elected to join the System. Neither pool shares in each other's actuarial liabilities, thus participant governmental units that elect to join the State System share in the liabilities of the Municipal Pool only. The State System is comprised of the Teachers' Retirement and Pension Systems, Employees' Retirement and Pension System, State Police Retirement System, Judges' Retirement System, and Law Enforcement Officers' Pension System. Most of the County retirees and employees participate in the Employees' System. The State System was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits to State employees, teachers, police, judges, legislators, and employees of participating governmental units. The Plans are administered by the State Retirement Agency. Responsibility for the System's administration and operation is vested in a 15-member Board of Trustees.

Benefits provided: The State System provides retirement allowances and other benefits to State employees of participating governmental units, among others. For individuals who become members of the Employees' Retirement and Pension Systems on or before June 30, 2011, retirement/pension allowances are computed using both the highest three years Average Final Compensation (AFC) and the actual number of years of accumulated creditable service. For individuals who become members of the Employees' Pension System on or after July 1, 2011, pension allowances are computed using both the highest five years AFC and the actual number of years of accumulated creditable service. Various retirement options are available under each system which ultimately determines how a retirees' benefits allowance will be computed. Some of these options require actuarial reductions based on the retirees' and/or designated beneficiary's attained age and similar actuarial factors.

A member of the Employees' Retirement System is generally eligible for full retirement benefits upon the earlier of attaining age 60 or accumulating 30 years of creditable service regardless of age. The annual retirement allowance equals 1/55 (1.81%) of the member's average final compensation (AFC) multiplied by the number of years of accumulated creditable service.

A member of the Employees' Pension System on or before June 30, 2011 is eligible for full retirement benefits upon the earlier of attaining age 62, with specified years of eligibility service, or accumulating 30 years of eligibility service regardless of age. An individual who becomes a member of the Employees' Pension System on or after July 1, 2011, is eligible for full retirement benefits if the members' combined age and eligibility service equals at least 90 years or if the member is at least age 65 and has accrued at least 10 years of eligibility service.

For most individuals who retired from the Employees' Pension System on or before June 30, 2006, the annual pension allowance equals 1.2% of the members AFC, multiplied by the number of years of credible service accumulated prior to July 1, 1998, plus 1.4% of the members AFC, multiplied by the number of years of credible service accumulated subsequent to June 30, 1998. With certain exceptions, for individuals who are members of the Employees' Pension System on or after July 1, 2006, the annual pension allowance equals 1.2% of the member's AFC, multiplied by the number of years of credible service accumulated prior to July 1, 1998 plus 1.8% of the members AFC, multiplied by the number of years of credible service accumulated subsequent to June 30, 1998. Beginning in July 1, 2011, any new member of the Employees' Pension System shall earn an annual pension allowance equal to 1.5% of the member's AFC multiplied by the number of years of creditable service accumulated as a member of the Employees' Pension System.

Contributions: The County and covered members are required by State statute to contribute to the State System. Members of the Employees' Pension System are required to contribute 7.0% annually. Members of the Employees' Retirement System are required to contribute 5.0% to 7.0% annually, depending on the retirement option selected. The contribution requirements of the members, as well as the State and participating governmental employers are established and may be amended by the Board of Trustees for the State System.

The County's total required contribution during the year ended June 30, 2022 was \$93,571. Of this amount, \$27,504 was for County Officials Retirement System and \$66,067 was for Master Judges Retirement System. The

final payment for the State withdrawal payoff of unfunded liability was made in 2020. The rates varied from 0.0% for the actuarially determined contractual liability to 40.0% of covered payroll for the participant in the Judges Retirement System and 20.7% for the County Officials Retirement System. The County made its share of the required contributions.

As of June 30, 2023, the County reported a liability of \$836,757 for its proportionate share of the net pension liability of the State System. The net pension liability was measured as of June 30, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportion of the net pension liability was based on actual employer contributions billed to participating government units for the year ending June 30, 2022. The contributions were increased to adjust for differences between actuarial determined contributions and actual contributions by the State of Maryland. As of June 30, 2022, the County's proportionate share was 0.0042%.

Actuarial assumption: The total pension liability for the State System in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary increases	2.75%
Investment rate of return	6.80%

Mortality rates were based on PUB-2010 Mortality Tables with projected generational improvements based on the MP-2018 fully generational mortality improvement scale.

The economic and demographic actuarial assumptions used in the June 30, 2021 valuation were adopted by the System's Board of Trustees based upon review of the State System's experience study for the period 2014-2018, after the completion of the June 30, 2019 valuations. Assumptions from the experience study including investment return, inflation, COLA increases, mortality rates, retirement rates, withdrawal rates, disability rates and rates of salary increase were adopted by the Board for the first use in the actuarial valuation as of June 30, 2020. As a result, an investment return assumption of 6.80% and an inflation assumption of 2.25% were used in the June 30, 2021 valuation.

The long term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-range expected rate of return by weighting the expected future real rates by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the Board after considering input from the State System's investment consultant(s) and actuary(s). For each major asset class that is included in the System's target asset allocation, these best estimates are summarized in the following table:

		Long Term Expected
Asset Class	Target Allocation	Real Rate of Return
Public Equity	34%	6.0%
Private Equity	16%	8.4%
Rate Sensitive	21%	1.2%
Credit Opportunity	8%	4.9%
Real Assets	15%	5.2%
Absolute Return	6%	3.5%
Total	100%	
Total	100%	

Source- Maryland State Retirement and Pension System Annual Comprehensive Financial Report For the Years Ended June 30, 2022 and 2021

The above was the System's Board of Trustees adopted asset allocation policy and best estimate of geometric real rates for each major asset class as of June 30, 2022.

For the year ended June 30, 2022, the annual money-weighted rate of return on pension plan investments, net of the pension plan expense was (2.97)%. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Discount rate: The single discount rate used to measure the total pension liability was 6.80%. This single discount rate was based on the expected rate of return on pension plan investments of 6.80%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

D Funding Policy and Annual Pension Costs – The employee contribution requirements for each defined benefit plan in the Retirement System are set by County legislation. The County's annual contribution is based on annual actuarial valuations. The Required Supplementary Information following these notes presents changes in net pension liability and related ratios by Plan.

Certain participants in the State Retirement and Pension Systems (State plans) are required to contribute 2.0% to 8.0% of compensation to the plans. The County is required to contribute the remaining amounts necessary to fund the plans, except that the State pays the employer's share of retirement costs on behalf of certain teachers, professional librarians, and related positions for the Board of Education, Library, and Community College, in accordance with State law. These amounts are shown as grant revenue and current expenses in the financial statements of these component units. County expenditures for those employees in the State plans for the years ended June 30, 2023 and 2022 equal the required contributions and are summarized as follows along with the State's contribution on behalf on the employees discussed previously.

Fiscal Year Ending June 30,						
2023	2022

Long-Term Expected Returns - For investment purposes, the four County Plans which comprise the System are managed on a co-mingled basis. The long-term expected rates of investment return are the same for each Plan. The long-term (30 year) expected rate of return on pension System investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by using an optimizer program that relies on the arithmetic return inputs, the standard deviation forecast (risk) for each asset class, and the correlations among them. The result is a 30-year nominal, geometric, net-of-fee return forecast for the pension assets. The 30-year real rate of return is calculated by netting the inflation assumption out of the nominal forecast. The nominal and real rates of return forecasts for each major asset class included in the pension System's target asset allocation, as of December 31, 2022 are summarized in the following table. Data is provided by the System's Investment Advisor, New England Pension Consultants, which uses a 30-year geometric inflation assumption of 2.54%.

30-Year Return Assumption by Asset Class As of December 31, 2022

	30-Year Geometric Forecast							
Asset Class	(Nominal Returns)	(Real Returns)						
Inflation (CPI)	2.54%	0.00%						
Cash	3.42%	0.86%						
Core Fixed Income(1)	4.85%	2.10%						
* High-Yield Bonds	7.81%	4.60%						
Emerging Market Debt (External)	7.58%	4.18%						
Emerging Market Debt (Local Currence	6.89%	3.50%						
Large Cap Equity	8.17%	4.27%						
Small/Mid Cap Equity	9.25%	4.72%						
International Equities (Unhedged)	8.37%	4.06%						
Emerging Int'l Equities	12.95%	6.89%						
Private Equity	12.86%	7.40%						
Private Debt	9.74%	6.43%						
Real Estate	7.99%	3.85%						

Note: NEPC's 30-year geometric CPI inflation assumption is 2.54%.

Discount Rate: The calculation of actuarial liabilities for valuation purposes is based on a current estimate of future benefit payments. The calculation includes a computation of the "present value" of those estimated future benefit payments using an assumed discount rate; the higher the discount rate assumption, the lower the estimated liability will be. For purposes of estimating the liabilities (future and accrued) in this report, an assumption was selected based on the expected long-term rate of return on plan investments. Using a lower discount rate assumption, such as a rate based on long-term bond yields, could substantially increase the estimated present value of future and accrued liabilities. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plans fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

^{*}Core Bonds assumption based on market weighted blend of Bloomberg Barclays US Aggregate Bond Index (Treasuries, IG Credit, MBS).

F Changes in the Net Pension Liability by Plan for the Measurement Period December 31, 2022:

- *H* Payable to the County Pension System At December 31, 2022, the System reported \$24.0 million in payables.
- *Commitments* The System has committed to fund various private markets investments totaling \$516.8 million at December 31, 2022, of which approximately \$132.3 million remains unfunded. The expected funding dates for these commitments extend through 2028.
- *Teacher pension funding shift* Legislation enacted by the Maryland General Assembly during 2012 requires County Boards of Education to pay a portion of employer contributions for members of the Teachers' Retirement System or the Teachers' Pension System beginning in fiscal year 2013. Beginning in fiscal year 2017, each local Board pays the normal cost for their teachers in the Teachers' Retirement System and the Teachers' Pension System. Since that time, the annual appropriations for the Teachers' Pension System have been as follows:

Fiscal Year	<u>Ap</u>	<u>propriation</u>
Fiscal Year 2017	\$	22,079,472
Fiscal Year 2018		23,665,760
Fiscal Year 2019		23,665,760

Fiscal Year 2021		24,701,353
Fiscal Year 2022		25,713,345
Fiscal Year 2023		32,443,555

- **K** 401(a) Employee Retirement Savings Plan Anne Arundel County Bill No. 95-17 created the new 401(a) Employee Retirement Savings Plan. Effective July 1, 2018, any employee hired in any position eligible to participate in the Employees' Retirement System shall have the election to choose the Employee Retirement Savings Plan. Employee contribution for the Savings Plan is 4% and there is an 8% employer contribution. An employee vests in the new plan in 5 years. The amount not vested as of June 30, 2022 was \$1,165,996.
- *L* Firemen's Length of Service Award Program (LOSAP): The County instituted and began administering a single employer defined benefit length of service award program (LOSAP or the Plan), for volunteer firemen and ambulance personnel on May 1, 1975. Anne Arundel County Bill No 90-16 modified the methods and terms of the awards program.

Summary of Significant Accounting Policies for LOSAP Pension Plan - LOSAP is included in the Fire Departments departmental financial statements and full accrual Governmental Activities section of the County financial statements. For purposes of measuring the pension liability related to pension and pension expense, benefit payments are recognized when due and payable in accordance with the benefit terms. This is an unfunded program, so there are no assets accumulated for this program. The County does not issue a separate financial statement for the LOSAP.

General Information about the LOSAP Pension Plan:

Plan description: The Anne Arundel County Length of Service Award Program is a single-employer defined benefit retirement plan administered by Anne Arundel County, Maryland, which provides retirement and death benefits to volunteer fire and ambulance personnel serving the various independent volunteer fire companies in the County.

Benefits provided: Under the LOSAP, participants become vested after 25 years of eligible service beginning at age 50. No benefit is paid if service is less than 25 years.

Employees covered by benefit terms: A person who has served as an active member of a County or Annapolis City volunteer fire company is entitled to receive benefits under LOSAP if the person has satisfied the following requirements:

Persons who are at least 50 years old and who have completed at least 25 years of active volunteer service with a County volunteer fire company or an Annapolis City volunteer fire company; or volunteer firefighters who have been determined by the Maryland Workmen's Compensation Commission to have been permanently and totally disabled in the performance of duties as a volunteer firefighter.

Volunteer personnel who have qualified for benefits under the above provisions shall receive a monthly benefit payment according to the following payment schedule:

- 1. For members receiving benefits as of January 1, 2017, eligibility for an increase in benefits shall be determined based on earning active service credit in seven of the previous ten years (January 1, 2007 to December 31, 2016). If the member has not met this service requirement, the benefit will remain at \$250 per month for life.
- 2. For members receiving benefits as of January 1, 2017 and have met the requirement for continued active service in seven of the previous ten years, benefits will be increased to the following:
 - 25 to 34 years of active service, receive \$300 per month for life;
 - 35 to 44 years of active service, receive \$350 per month for life;
 - 45 or more years of active service, receive \$400 per month for life.
- 3. Current beneficiaries who continue to earn active service credit shall be eligible for benefit increases as they obtain the next service milestone on the benefit scale.
- 4. Any new beneficiaries that become eligible for benefits shall receive a benefit payment in accordance with the above scale and shall be eligible for benefit increases as they obtain the next service milestone on the benefit scale.

The surviving spouse of a volunteer firefighter who, at the time of death, was receiving benefits under LOSAP is entitled to receive a surviving spouse benefit. The benefits shall be paid to the surviving spouse monthly until the death or remarriage of that spouse. As of January 1, 2017, all current spouse beneficiaries shall continue to receive the benefit as a rate of \$150 per month. After January 1, 2017, any new spouse beneficiaries shall receive a benefit equal to 50.0% of the member benefit at the time of the member's death.

The total LOSAP liability was determined by an actuarial valuation as of December 31, 2022 using the following actuarial assumptions:

Actuarial Assumptions:

 $\begin{array}{ll} \text{Inflation Rate} & 3.00 \ \% \\ \text{Discount rate} & 4.05 \ \% \end{array}$

Average Service	8.56		

Other Post-employment Benefits

The County (which includes the County and Anne Arundel Economic Development Corporation), the Community College, and the Library participate in a single employer defined benefit healthcare plan for retirees. The assets of each participant (the County, Community College, and Library) are commingled for investment and payment of benefits, however each participant's activity is tracked separately, and each participant receives a separate actuarial valuation. The following provides a summary of the plans' descriptions and eligibility, funding policies and sources of authorization, annual cost and net obligations, and the actuarial methods and assumptions used in determining costs and liabilities. In addition, required supplementary information includes trend data about these plans. The Supplementary Information following these notes presents multi-year trend information about whether the actuarial value of each plan's assets is increasing or decreasing relative to the actuarial accrued liability for benefits year to year over a four-year period.

Actuarial valuation of an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Amounts determined regarding the funding status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The total OPEB liability is based on January 1, 2021 valuation data for the County, College, and Library Plans with a roll forward of data to June 30, 2022. The Plan's liability was rolled forward to the measurement date June 30, 2023. The methods, assumptions, plan provisions, and participant data used are detailed in the actuarial valuation report dated August 21, 2023 with the exception of the actuarial cost method. These calculations are based on the Entry Age Normal (EAN) cost method as required by GASB 74 and GASB 75. The EAN actuarial cost method requires a salary scale assumption. The Actuary used the salary scale assumption used to value Anne Arundel County's pension plans. The calculation of the Actuarially Determined Contribution for the fiscal year ended June 30, 2023 is contained in the actuarial valuation report dated October 12, 2023.

Plan Description, Eligibility, Authorization, and Funding Policy - The primary government provides a group health plan for employees and retirees under the authority of § 6-1-308 of the County Code. This health plan may be extended to other component units under § 6-1-309 of the County Code. The Community College and the Library provide retiree health insurance through participation in the County's health plans. Anne Arundel Economic Development, a component unit of the County, is a participant in the County plan. The County collects premiums from these entities to offset the related costs. The County Code requires the County to pay 80.0% of the health coverage cost for current County retirees and terminated vested employees that retired before July 1, 2014. Employees not eligible for normal or early retirement by January 1, 2017 will receive a subsidy based on years of service. The Library currently pays 80.0% for Library retirees. The primary government plan provides the same health plans to active employees and pre-age sixty-five retirees. The County offers a Medicare Advantage Plan to post age sixty-five retirees. Post age sixty-five retirees are eligible to participate in an Employer Group Waiver Plan (EGWP) plus WRAP for prescription benefits. County and Library retirees have the option of retaining dental and vision coverage, but must pay the full premium for these benefits.

The Anne Arundel County Public school system offers a separate single employer defined OPEB plan, which is disclosed in its separately issued financial statements. Anne Arundel County Public Schools (AACPS) employees eligible to retire and receive Maryland State Retirement Agency (MSRA) benefits may be eligible for retiree healthcare benefits based on date of hire and service criteria. This is not part of the County plan. Employees hired prior to September 15, 2002 receive Board funding of 75.0% for Medical/Rx and dental benefits. For employees hired after September 15, 2002, ten years of AACPS service is required to be eligible for retiree health benefits. The Board funds a portion of the medical premium ranging from 25.0% with ten years of service to 75.0% with twenty or more years of service. No Board funding is provided for dental benefits. No Board funding is provided for vision coverage regardless of service date. Active employees and retirees have the same medical, dental, and vision plans while retirees over sixty-five have three Medicare Supplemental Plans available. The retiree and active prescription plan copayments differ. The retiree plan is evaluated separately based on claims experience; however, a blended percentage increase has been applied to the retiree rates.

A Summary of the key elements of the AACPS Plan are disclosed below:

	Deferred Outflows	Deferred Inflows
Net OPEB Liability	of Resources	of Resources
\$ 1,125,188,289	\$ 249,858,155	\$ 1,620,200,698

The Community College (the College) provides medical, dental, and vision benefits to eligible retirees who are enrolled in medical coverage at the time of retirement. The benefit levels, employee contributions, and employer contributions are governed by and may be amended by the College Board of Trustees. Retirees are eligible for these benefits if they have a minimum of ten years of service and meet the eligibility requirement of their retirement plan, (Maryland State Retirement System or Optional plan). The College contributes to the cost of retirees' benefits at a rate of 2.5% for each year of service, and employees must have at least ten years of service to qualify. The maximum paid by the College is 75.0%. Retirees have no vested rights to these benefits.

A copy of the Anne Arundel Retiree Health Benefits Trust (OPEB Trust) financial statements may be obtained by contacting Anne Arundel County Office of Personnel, 2660 Riva Road, Annapolis, MD 21401.

Membership by Plan – Anne Arundel County retirees meeting certain criteria are eligible for medical insurance and prescription coverage in retirement. The College provides certain health care benefits to eligible retirees. The benefits provided, benefit levels, retiree contributions and employer contributions are governed by the College's Board of Trustees and during the budgetary process. The Board of Trustees may amend or change the plan periodically. The Library, through its Health Benefits Pooling Agreement with the County, has agreed that its benefits and costs to the retirees will match the County Plan. The number of participants in the OPEB Trust as of June 30, 2023 follows. Data is based on actuarial valuations dated August 2, 2023.

	County Plan	College Plan	Library Plan	Total
Employees with medical coverage	3,982	663	207	4,852
Deferred vested termination	294	-	-	294
Retirees	2,952	269	145	3,366
Total	7,228	932	352	8,512

- *Funding Policy* Effective July 1, 2015, the County Council under Bill 13-15 established the Retiree Health Benefits Trust to include the primary government, the College and the Library. The Bill requires that the balance of Reserve Funds for Retiree Health Benefits on July 1, 2015 be transferred to the Trust. The Bill established a Board of Trustees to manage the Trust and designated the County Personnel Officer to administer the Trust. The County Executive will recommend annual appropriations to the Trust. The County Council will approve this request as is or may increase it during the County Annual Budget process. Previously, the County established under its Charter, a Reserve Fund for Retiree Health Benefits into which funds were appropriated for the sole purpose of funding retiree health benefits. This Reserve Fund has been closed and the funds transferred to the Trust Fund.
- **D** Actuarial Methods and Assumptions Projections of benefits for financial reporting purposes are based on the substantive OPEB Trust (the Plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefits costs between employers and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. The actuarial assumptions used in the latest valuation are as follows.

Schedule of Actuarial Methods and Assumpti	ons
--	-----

Actuarial Cost Method	County Plan Entry Age Normal	College Plan Entry Age Normal	Library Plan Entry Age Normal
Asset valuation Method	Market value of Assets	Market value of Assets	Market value of Assets
Actuarial Assumptions			
Discount Rate	6.30%	6.30%	6.30%
	Long-term expected return	Long-term expected return based on	Long-term expected return
	based on trust assets	trust assets	based on trust assets
Payroll Increase	Pension Plan Assumptions	Pension Plan Assumptions	Pension Plan Assumptions
Ultimate Healthcare Cost Trend Rate	3.94%	3.94%	3.94%

Notes:

- 1) The health cost trend rate in 2023 is 7.50%, in 2024 is 7.50%, in 2025 is 5.20%. The rate in 2030 is 5.01%. The rate in 2050 is 4.64%. The rate in 2070 is 4.20%. The ultimate rate is 3.94%
- The Plan's actual benefit payments may be greater or lesser than the amounts shown, depending on the Plan's actual demographic experience, and claims experience.
- 3) The information above is from the actuarial valuation reports dated March 31, 2023 which used census valuation data as of January 1,2023.

Mortality rates: Healthy uses SOA RPH-2014 adjusted to 2006 Blue Collar Headcount-Weighted Mortality; MP-2018 base year 2006 fully generational. Disabled - General County employees uses SOA RP-2014 adjusted to 2006 Blue Collar Mortality with Scale MP-2018 (set forward 9 years). Disabled - Uniformed services employees (Police, Firefighters, and Correctional facilities) uses SOA RP-2014 adjusted to 2006 Blue Collar Mortality with Scale MP-2018 (set forward 5 years).

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Anne Arundel Retiree Health Benefits Trust (the Trust) and additions to/deductions from the Trust's fiduciary net position have been determined on the same basis as they are reported by the County. The measurement date for the current fiscal yearend was June 30, 2023. For this purpose, the Trust recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

The following table details the changes in the net OPEB liability for the County Plan:

Change in Net OPEB Liability

Net OPEB liability	\$	593,090	\$	61,398	\$	36,647	\$ 691,135

Actuarial assumptions

The total OPEB liability was determined by an actuarial valuation as of June 30, 2023, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified.

		College	Library
	County Plan	Plan	Plan
Inflation	2.40%	2.40%	2.40%
Discount rate	6.30%	6.30%	6.30%
Initial healthcare cost trend	3.90%	3.90%	3.90%

F Long-term expected real rate of return – The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation of 25 percent for fixed income and 60 percent for equity investments, and including the expected rate of inflation. Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation as of June 30, 2023 are summarized in the following table:

2023 30-Year Return Assumptions by Asset Class

	30-Year Geometric Forecast	30-Year Geometric Forecast
Asset Class	(Nominal Returns)	(Real Returns)
Inflation (CPI)	2.70%	2.66%
Cash	3.33%	0.61%
Core Fixed Income ⁽¹⁾	4.54%	1.79%
Diversified Fixed Income ⁽²⁾	5.65%	2.87%
Large Cap Equity	6.73%	3.92%
Small/Mid Cap Equity	7.34%	4.52%
International Equities (Unhedged)	6.50%	3.70%
Emerging Int'l Equities	9.50%	6.62%
Real Estate (Core)	5.35%	2.58%

Notes

NEPC's 30-year geometric CPI inflation assumption is 2.7%.

Policy allows use of mutual/commingled funds as investment vehicles. The following schedule displays the asset allocation targets in the IPS.

Asset Allocations by Investment Policy

	Target	Minimum	Maximum
	Allocation	Allocation	Allocation
Large Cap U.S. Equities	26%	21%	31%
Small/Mid Cap U.S. Equities	7%	2%	12%
International Equities - Developed Markets	21%	16%	26%
Emerging International Equities	6%	1%	11%
Total Equity	60%	50%	70%
Core Fixed Income	11%	6%	16%
Diversified Fixed Income	14%	9%	19%
Total Fixed Income	25%	15%	35%
Real Estate (Core)	5%	0%	10%
Total Real Estate	5%	0%	10%
Cash	10%	0%	20%
Total Cash	10%	0%	20%

G Discount rate – The discount rate used to determine the actuarial net liability varied by Plan. Based on assumptions of increasing contribution levels and normal costs for future hires, the County Plan is expected to never become insolvent. Consequently, the actuary determined the County, College, and Library Plans' liability using the expected rate of return on assets of 6.30 percent as the discount rate

⁽¹⁾ Core Bonds assumption based on market weighted blend of Bloomberg Barclays US Aggregate Bond Index (Treasuries, IG Credit, MBS)

⁽²⁾ Diversified Fixed Income assumption based on market weighted blend of Treasuries, Investment Grade Corporate Credit, High Yield, Bank Loans, Emerging Market Debt, and Non-US Bonds

H Sensitivity of the net OPEB liability to changes in the discount rate – The following presents the net OPEB liability of each Plan based on the current discount rate, as well as what the liability would be if it were calculated using a rate that is 1.0% lower or 1.0% higher than the current discount rate as follows:

Discount Rate Sensitivity as of June 30, 2023

	Net OPEB liability										
		1.00% Decrease		Discount Rate	1	1.00% Increase					
		5.30%		6.30%		7.30%					
County Plan	\$	744,672,954	\$	593,090,356	\$	471,708,143					
College Plan	\$	74,608,830	\$	61,397,811	\$	50,658,322					
Library Plan	\$	43,460,526	\$	36,646,760	\$	31.200.425					

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rate – The trend rate selected is based on an economic model developed by a health care economist for the Society of Actuaries. Future medical trend increases could vary significantly from the model. Model inputs will be updated periodically based on the best estimate of the economy at the time. Small changes in the model inputs can result in actuarial losses or gains of 5 to 15 percent of liabilities. The same trend rate is used for each Plan. The following presents the net OPEB liability for each Plan, as well as what the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower or 1% higher than the current healthcare cost trend rates:

Healthcare Trend Cost Sensitivity as of June 30, 2023

	Net OPEB liability										
	1.00% Decrease		Trend Rates		1.00% Increase						
	2.90%		3.90%		4.90%						
County Plan	\$ 449,907,547	\$	593,090,356	\$	775,174,426						
College Plan	\$ 48,094,237	\$	61,397,811	\$	78,587,554						
Library Plan	\$ 30,286,256	\$	36,646,760	\$	44,817,037						

The schedules of funding progress, included as required supplementary information (RSI) following the notes to the financial statements, present multiyear trend information about whether the actuarial values of plan assets are increasing or decreasing over time relative to the AALs for benefits.

16 Risk Management

The County retains the risk of loss for workers' compensation and Directors and Officers coverage for the primary government, the Library, the Board of Education, and the Community College; general liability and vehicle liability coverage for the primary government, Library and the Board of Education; and health coverage for the primary government. The County purchases insurance coverage for real and personal property and money and security coverage, as well as school bus insurance for the bus contractors of the Board of Education. All insurance activities are recorded in the Self Insurance Fund, except for health activity, which is recorded in the Health Insurance Fund.

The Self Insurance Fund has recognized a liability at fiscal year-end for those claims where a loss has occurred and the amount of loss can be reasonably estimated. This estimate includes reserves for non-incremental claims adjustment expense. An actuarial review of all claims is used as the basis for determining the liability at the end of the year. Management, with the assistance of claims administrators, estimates the liabilities for the Health Insurance Fund. Both funds include estimated liabilities for claims that have been incurred but not reported. Claims are reevaluated periodically to take into consideration recently settled claims, the frequency of claims, and other economic and social factors. As of June 30, 2023, the Self Insurance Fund liability of \$58,086,446 is discounted, since discounting is more reflective of the nature of the claims. The Health Insurance Fund liability of \$6,667,234 is undiscounted since claims will be paid within one year of the date incurred. Settlements have not exceeded coverage for each of the past three years. Changes in the balances of claims liabilities during fiscal years 2023 and 2022 were as follows:

		2023	2022
Liability balance, July 1	\$	60,360,274	\$ 75,379,890
Current year claims and changes in estimates:			
Changes in estimates - prior periods		(5,560,348)	(7,890,629)
Changes in estimates - current year		120,184,644	115,213,591
Claims payments	_	(110,230,890)	(122,342,578)
Liability balance, June 30	\$	64,753,680	\$ 60,360,274

17 Landfill Closure, Post closure, and Remediation

The primary government has utilized three landfill sites, however, only one site, the Millersville Landfill, is still accepting trash. The others, Glen Burnie and Sudley, ceased accepting solid waste in 1983 and 1993, respectively. The Millersville site consists of nine individual cells. Cells 1 through 8 are closed. Closure for cell 8 was competed in 2022. Cell 9 has opened and is 21.0% full. Cell 9 has a useful life to at least 2049. The table that follows presents the costs and liabilities related to all sites. The costs for cells 8 and 9 at the Millersville Landfill are determined by applying the percent of capacity used to the total estimated closure and post closure costs.

		Millersville		Closed Sites		Total
Total costs:						
Closure	\$	64,542,442	\$	18,163,719	\$	82,706,161
Post closure	_	28,514,455	_	1,700,944	_	30,215,399
		93,056,897	-	19,864,663		112,921,560
Less:						
Amount recognized thru June 30, 2022		58,088,622		19,864,663		77,953,285
Costs remaining to be recognized	\$	34,968,275	\$	_	\$_	34,968,275
	_		_	_		_
Liability recorded as of June 30, 2023						
Current portion post closure	\$	1,097,124	\$	271,610	\$_	1,368,734
Closure Cell 9 Long Term		4,914,783		-		4,914,783
Post closure Long Term		13,423,306		1,429,334	_	14,852,640
Total Long Term Liability		18,338,089		1,429,334		19,767,423
Total Liability	\$	19,435,213	\$	1,700,944	\$	21,136,157

The primary government accounts for landfill activities in the Solid Waste Fund. Management estimates the costs of closure, post closure, remediation, and monitoring the landfills based on federal and state regulations. These estimates are recorded at current costs and are management's best judgment of the minimum cost required to correct identified problems and close and remediate open cells. These estimates are subject to periodic reevaluation, and actual costs may differ due to inflation or deflation, changes in technology, or changes in applicable laws and regulations. The closure reserves increased in the amount of \$985,278, primarily as a result of Cell 9 closure costs through June 30, 2023 and post closure reserves decreased by \$1,070,487 in fiscal year 2023. These amounts include changes to the estimates in the reserves, payments, and other adjustments.

The Solid Waste Fund has restricted assets of \$20,642,433 for closure and post closure care as of June 30, 2023.

18 Tax Abatements

Anne Arundel County provides tax abatements through the following programs - Payment in Lieu of Taxes (PILOT), Brownfields Site property tax credits, Agricultural Land tax credits and Enterprise Zone tax credits.

A PILOT - The purpose of the first type of County PILOT agreement is to provide quality multi-family housing communities for households of limited income in the County. Agreements are made with the County in negotiated amounts in lieu of County real property taxes per Tax Property Article § 7-506.1. For fiscal year 2023, the net amount of taxes abated after receipt of the PILOT payments was \$376,682. The second type of County PILOT agreement is for economic development projects that demonstrate to the satisfaction of the Anne Arundel County Executive and County Council of Anne Arundel County that the project is an economic development project that provides a public

benefit. Agreements are made with the County in negotiated amounts in lieu of County real or personal property tax per Tax Property Article § 7-520. For fiscal year 2023, the County had one of this type of PILOT agreement and the amount of the abatement of real and personal property taxes was \$688,329.

- **Brownfields Site Tax Credit** The County provides a Brownfields Site tax credit on real property taxes levied on qualified brownfields sites as authorized by Tax Property Article § 9-229. The brownfields tax credit is effective for each of the five taxable years following the issuance of the notice of revaluation by the State Department of Assessments and Taxation after completion of a voluntary cleanup or a corrective action plan for a qualified site. For fiscal year 2023, the total amount of taxes abated for brownfields sites was \$289,400.
- C Agricultural Land Tax Credit The County provides an agricultural land tax credit on real property taxes levied on agricultural land and woodland if the property is included in an agricultural preservation district as provided in the Agriculture Article § 2-509 of the State Code or a County agricultural district as provided in County Code and the landowner has agreed to remain in the district for at least ten years. For fiscal year 2023, the total amount of agricultural taxes abated was \$652,919.
- D Enterprise Zone Tax Credit The County provides enterprise zone tax incentives to businesses and property owners located in economically distressed communities. The Enterprise Zone tax credit from County real property taxes for eligible assessments of qualified properties is authorized per Tax Property Article § 9-103. For fiscal year 2023, there were no County participants in this program, therefore no taxes were abated.
- *The State of Maryland* The State of Maryland has programs that result in tax abatements for Anne Arundel County real property taxes. Per Tax Property Article § 8-209, property owners of qualified agricultural land receive a preferential land value. Land is assessed according to its current use and not according to its market value, resulting in a reduced assessed value of the land and thereby reducing the taxes. Lower assessments are given for land that is devoted to farm or woodland uses. For fiscal year 2023, there were 1,541 accounts totaling 46,455 acres receiving a preferential land value of \$12,263,925. The exact amount of the tax abatement is unknown because the State Department of Assessments and Taxation is unable to provide the market value and can only provide the preferential land value.

Qualified country clubs and golf courses are assessed according to their preferred use value rather than their market value per Tax Property Article§§ 8-212 - 8-218. This lower assessment results in lower taxes. For fiscal year 2023, the difference between the preferred use value and the market value reduced the assessments by \$25,657,505 resulting in an abatement of \$239,385 in County real property taxes.

19 Contingent Liabilities

- A Impact Fees At June 30, 2023, the primary government held impact fees accumulated for construction of schools and roads in designated districts of the County. County legislation authorizes the collection of such fees. In addition, the County has entered into impact fee agreements with developers who provide offsite improvements designed to lessen the impact of development on the immediate community. Unredeemed impact fee credits totaled \$ 17,008,359 as of June 30, 2023.
- **B** Lawsuits The claimant contractor was the successful bidder on a public works contract for a road resurfacing project in the County. Pursuant to the contract, the contractor asserted claims for additional compensation above its contract price. The County considered the claims and approved compensation for change orders and the retainage release. In October 2022, the County denied the contractor's claim for delay damages of \$1,400,000 which the contractor claims were caused by the County's construction manager. The contractor appealed the denial of its claim pursuant to the terms of the contract and a hearing was held that concluded on March 28, 2023. A decision was issued in favor of the County on June 20, 2023. The appeal time expired on July 20, 2023. The claim is concluded with no recovery.

A developer that proposed a commercial facility requiring both State and County approval filed suit against Anne Arundel County and the State of Maryland on December 17, 2020 seeking to compel certain State and County actions concerning its proposed facility. After a hearing, the Court issued an order on May 26, 2021 declaring that communications regarding the proposed development by County officials

to the State were void, and ordering the State to continue processing the developer's application. The County unsuccessfully appealed to the Appellate Court of Maryland, and the Supreme Court of Maryland declined to consider the appeal on March 27, 2023. Thereafter, the developer filed a petition for \$1.3 million in attorneys' fees on July 19, 2023, alleging that the County's defense of the initial suit, and the pursuit of its unsuccessful appeals, were unwarranted. A hearing on the petition for attorneys' fee was held on October 2, 2023. The parties are awaiting a ruling from the Court.

The County received a notice of claim from a claimant who asserts that he was severely injured in October 2022 when a branch fell from a dead tree while he was a pedestrian on a County public sidewalk. The claimant maintains that he was knocked unconscious and suffered severe injuries. The claimant alleges that some of his injuries are permanent. The claimant contends that the County had prior notice of the dead tree and should have taken corrective action to make the sidewalk safe. By statute, the County's liability is limited to \$400,000 for all claims arising out of the incident.

The County is an interested party in various legal proceedings that normally occur in governmental operations, including various tort and contract suits, suits alleging violations of individual rights, and matters involving claims relating to land development, property damage, personal injury, employee liability, and workers' compensation. With respect to such claims or matters for which reserves have not yet been funded, excluding the matters set forth immediately above, in the judgment of the County Attorney, the aggregate expected liability of the County will not exceed \$2,000,000, not including workers' compensation claims.

C Federal Financial Assistance - The County receives significant financial assistance from the U.S. Government. Entitlement to the resources is generally conditioned upon compliance with terms and conditions of the grant agreements and applicable Federal regulations, including the expenditure of the resources for eligible purposes. Substantially all grants are subject to financial and compliance audits. Any disallowances as a result of these audits become a liability of the fund that received the grants. As of June 30, 2023, the County estimates that no material liabilities will result from such audits.

Notes:

Valuation date:

Actuarially determined contribution rates are calculated as of July 1, two years prior to the end of the fiscal year in which contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method Open group Projected Unit Credit: Prorated to assumed benefit commencement/retirement date.

ADC determination methodology 20-year target period to reach the goal level (90% Funding Target).

Asset valuation method Market value of assets.

Inflation 2.40%

Healthcare cost trend rates The health cost trend rate in 2023 is 7.50%, in 2024 is 7.50%, in 2025 is 5.20%. The rate in 2030 is 5.01%. The rate in 2050 is 4.64%. The rate in 2070 is 4.20%. The ultimate rate is 3.94%

Payroll increases 3.00%

Investment rate of return 6.30% The long-term expected return on assets is based on trust assets.

Decrement assumptions The retirement decrement is assumed to commence once a participant reaches earliest retirement eligibility.

Mortality (1) Healthy uses SOA RPH-2014 adjusted to 2006 Blue Collar Headcount-weighted Mortality: MP-2018 Base Year 2006 Fully

Generational.

(2) Disabled - General County employees uses SOA RP-2014 adjusted to 2006 Blue Collar Mortality with Scale MP-2018 (set forward 9 years).

(3) Disabled - Uniformed services employees (Police, Firefighters, and Correctional facilities) uses SOA RP-2014 adjusted to 2006 Blue Collar Mortality

with Scale MP-2018 (set forward 5 years).

Notes:

- 1) Information for fiscal year 2015 and earlier not available.
- 2) Theres are no assets accumulated in a trust to pay the related benefits. All benefits are paid on a pay-as -you-go basis.
- 3) Benefit changes:

Effective 1/1/2017, the benefit changed from \$250/month to a tiered system based on service. The benefits for all future retirees (and some current retirees) will be \$300/month - \$400/month. This benefit change has been reflected as of the December 31, 2016 measurement date.

4) Changes of assumptions:

Discount rate changed from 1.84% to 4.05% in 2022, from 2.00% to 1.84% in 2021, from 2.75% to 2.00% in 2020, from 3.71% to 2.75% in 2019, from 3.31% to 3.71% in 2018 and from 3.78% to 3.31% in 2017. Mortality changed to SOA RP-2014 Mortality Table Adjusted to 2006 Blue Collar Mortality with Scale MP-2018 from SOA RP-2014 Blue Collar Mortality Table projected from 2006 using scale MP-2015 and 1 year set forward.

Combining Fund Statements, Budgetary Schedules, and Other Supporting Schedules

General Fund Budget Detail

The General Fund includes the budgets to pay for police and fire protection, maintain roads and plow the snow, operate the detention centers, provide grants to community social service agencies and a host of other activities, including the County's contribution toward the operation of the County schools, community college and library system. The revenue to support the general fund comes primarily from local property and income taxes.

General Fund - Detail Schedule of Revenues

General Fund - Detail Schedule of Appropriations, Expenditures, and Encumbrances

Separately budgeted General Fund component funds

<u>County Parking Garage</u> – This fund accounts for the operation of the County's Whitmore Parking Garage located near the Arundel Center. It was established based on an agreement with the State of Maryland. The County owns the garage and the County and State pay for their respective spaces and share proportionately in any profit available at the end of each fiscal year.

<u>Permanent Public Improvements</u> – This revenue reserve fund is used solely as a funding source for permanent public improvements in the Capital Budget, including the payment/reimbursement of debt service on bonds and notes.

<u>Inmate Benefit and Morale</u> – This fund accumulates revenues designated for the benefit and morale of inmates at the County's two detention centers.

Impact Fees Capital Projects Fund Budget Detail

The Impact Fees Capital Projects Fund accounts for impact fees collected from developers to pay a share of the cost of schools, road capacity improvements and public safety necessitated by development. Appropriations are budgeted in the Impact Fees Capital Projects Fund to allow for transfer of funds to General County Capital Projects as eligible expenditures are incurred and to reimburse the General Fund for debt service related to impact fee projects.

Budgeted revenues exclude fund balance appropriated to fund expenditures in the current fiscal year.

The Primary Government has three major governmental funds, the General Fund, the Impact Fee Fund, and the General County Capital Projects Fund. All of these funds have been fully described in the footnotes to the basic financial statements. The combining statements in this section include several non-major funds. Descriptions for these non-major governmental funds are provided below.

Special Revenue Funds

<u>Forfeiture and Asset Seizure Team</u> – This fund accounts for assets seized in narcotics investigations. The funds are used for County police and the State's Attorney's activities related to narcotics investigation and enforcement.

Road and Special Benefits Districts – This fund accounts for special community benefit taxes collected on behalf of special districts via County property tax collection. The County disburses the money to the community agency or acts as disbursing agent for the community for the purposes established by the district.

<u>Anne Arundel County Partnership for Children, Youth, and Families (CY&F)</u> – This fund accounts for the grant funds received from the State to be used for various youth and family programs as established by the Anne Arundel County Partnership for Children, Youth and Families.

<u>Reforestation</u> – This fund segregates the funds collected from developers for reforestation of properties in the County. The fund collects fees in lieu of replanting and holds deposits until developer replanting is completed. Disbursements pay the costs of the program, including costs to replant, identification of properties for purchase and preservation, and administration of the program.

<u>Laurel Racetrack Community Benefit</u> - This fund accounts for special racing revenues received from the Maryland Racing Commission. The funds are used to help services and facilities within three miles of the Laurel Race Track.

<u>Workforce Development</u> – This fund accounts for grant monies collected by the County and passed through to the Workforce Development Corporation.

<u>Arundel Community Development Services</u> – This fund accounts for grant monies collected by the County and passed through to Arundel Community Development Services, Inc.

<u>Circuit Court</u> – This fund accounts for the proceeds of forfeitures and attorney appearance fees. State law dedicated these proceeds, funding a variety of court house operations.

<u>Conference and Visitors Bureau</u> – The County dedicates 17% of its hotel / motel tax revenue to the promotion of tourism within the County. This fund accumulates the dedicated revenue and disburses the funds directly to the Annapolis and Anne Arundel County Conference and Visitors Center.

<u>Arts Council of Anne Arundel County</u> – The County dedicates 3% of its hotel / motel tax revenue to the promotion of the arts within the County. This fund accumulates the dedicated revenue and disburses the funds directly to the Arts Council of Anne Arundel County.

<u>Park Place Tax Increment</u> – This fund accumulates the incremental property taxes related to the Park Place Tax Increment District, created in 2004. The funds are used to reimburse the City of Annapolis for its debt service related to capital improvements within the district.

Odenton Town Center Tax Increment – This fund accumulates the incremental property taxes related to the Odenton Town Center Tax Increment District. Any unused funds revert to the General Fund at the end of the fiscal year.

<u>Erosion Districts</u> - This fund accounts for collections of assessments on certain communities for ongoing erosion control. The taxes are levied at the request of the community, and disbursements are made based on invoices approved by the community's representative.

Non-major Governmental Funds (continued)

<u>Video Lottery Local Impact Aid</u> – This fund is used to account for revenues from the local impact grant distributed to the County from the State. The funds can only be used for purposes as defined in State law which include infrastructure improvements, facilities, public safety, sanitation, economic and community development, including housing; and other public services and improvements, primarily in the communities in immediate proximity to the video lottery facility.

<u>Watershed Protection and Restoration</u> – This fund is used to account for revenues collected from property owners to fund stormwater management projects and any debt service related to such projects in accordance with State law.

<u>Opioid Abatement Trust</u> – This fund accounts for the County's portion of settlement funds from state and national litigation against the opioid industry. Funds are used to mitigate the impact of opioid addiction.

<u>Housing Trust</u> – This fund dedicates revenue collected from a 0.5% transfer tax rate increase on properties valued at \$1 million or more. The revenue is used to provide affordable housing to moderate- and low-income individuals.

Capital Projects Funds

<u>Recreation Land Fees</u> – This fund accounts for certain fees paid by developers in lieu of establishing recreation land in smaller subdivisions.

<u>Bond Premium</u> – This fund accounts for the bond premium restricted for Capital Projects.

<u>Street Light Capital Projects</u> – This fund accounts for revenues from developers to purchase, construct, and install street lighting associated with the development for which the fee was paid.

<u>Energy Revolving Loan</u> – This fund accounts for certain revenues from the Millersville Landfill Gas to Energy Project to be used for improving energy efficiency within the County.

<u>Bike, Pedestrian, Transportation & Infrastructure Fee In Lieu</u> – This fund accounts for certain fees paid by developers in lieu of construction of bike, pedestrian, and transportation infrastructure.

Debt Service Funds

<u>Nursery Road Tax Increment</u> – This fund accumulates the incremental property tax revenues related the Nursery Road Tax Increment District. The funds are being used to pay the debt service costs on debt issued to provide improvements within the district. Any unused funds revert to the General Fund at the end of the fiscal year.

<u>West County Tax Increment (NBP)</u> – This fund accumulates the incremental property tax revenues related to the West County Development District. The funds are being used to pay the debt service costs on debt issued to provide improvements within the district. Any unused funds revert to the General Fund at the end of the fiscal year.

<u>Arundel Mills Tax Increment</u> – This fund accumulates the incremental property taxes related to the Arundel Mills Tax District, created in 1999. The funds are being used to pay the debt service on debt issued to provide capital improvements within the district. Any unused funds revert to the General Fund at the end of the fiscal year.

<u>Parole Tax Increment</u> – This fund accumulates the incremental property taxes related to the Parole Tax Increment District. Any unused funds revert to the General Fund at the end of the fiscal year.

<u>National Business Park North Tax Increment (NBP North)</u> – This fund accumulates the incremental property tax revenues related to the National Business Park North Development District. The funds are being used to pay the debt service costs on debt issued to provide improvements within the district.

<u>Village South at Waugh Chapel Tax Increment</u> – This fund accumulates the incremental property tax revenues related to the Village South at Waugh Chapel Development District. The funds are being used to pay the debt service costs on debt issued to provide improvements within the district.

Non-major Governmental Funds (continued)

<u>Special Taxing Districts</u> – This fund accounts for the accumulation of resources and the payment of principal on non-interest bearing loans from the State Department of Natural Resources. These loan proceeds are used for district improvements to waterways.

 $\underline{Installment\ Purchase\ Agreements}-This\ fund\ accumulates\ County\ funds\ dedicated\ to\ the\ purchase\ of\ easements\ for\ the\ Agricultural\ and\ Woodland\ Preservation\ Programs.$

Proprietary Funds

The primary government has two major proprietary funds, the Water and Wastewater Fund and the Solid Waste Fund. Both of these funds have been fully described in the footnotes to the basic financial statements. The statements in this section include columns for components of the Water and Wastewater Fund, the Internal Service Funds, which are considered to be non-major, and the budgetary statements for all proprietary funds. Descriptions for all proprietary funds and related components are provided below.

Enterprise Funds

<u>Water and Wastewater</u> – This fund consists of three component funds: operating, debt service, and capital projects.

Operating – This fund accounts for the operation of public water supply systems and sewage collection and treatment systems in the County. Revenues consist mainly of user fees, and developer and grant contributions.

<u>Debt Service</u> – This fund accounts for the collection of front foot, user connections, and capital connection fees and the use of these funds to pay the principal and interest on water and wastewater debt.

<u>Capital Projects</u> – This fund accounts for the construction of water and wastewater plants and lines used to provide services to County residents. Funding sources and costs are accumulated by individual project and, when completed, the assets are capitalized in the Operating Fund.

<u>Solid Waste</u> – This fund accounts for the costs associated with the collection and disposal of refuse at the County landfills. Revenues originate primarily from annual service charges to customers and tipping fees from commercial trash haulers, that are intended to cover all operating expenses including interest on long-term debt. The Solid Waste Fund also includes capital project accounts for landfill construction and closure costs. Funding sources are primarily from the sale of general obligation bonds, federal and state grants, and pay-as-you-go.

<u>Child Care</u> – This fund accounts for the school age child care program provided by the County's Recreation and Parks Department. Revenues consist of child care fees collected from those participating in the program. Costs of the fund include operations at several child care sites as well as administrative expenses.

Internal Service Funds

<u>Self Insurance</u> – This fund accounts for insurance activity of the County, including self-insured workmen's compensation, auto liability, and general liability. The revenues are premiums paid by other County funds, the Library, Community College, and the Board of Education. The disbursements relate to payments of claims and the purchase of insurance policies for property insurance and bonding.

<u>Health Insurance</u> – This fund accounts for the health insurance activity of the County, which is primarily self-insured for medical benefits. Premiums are received from County funds and some component units and disbursements are made to claims administrators or insurers.

<u>Central Garage and Transportation</u> – This fund accounts for the operation of the County's garages and motor pool. Revenues consist of charges to County funds for lease charges, vehicle repair, and gasoline usage.

<u>Garage Vehicle Replacement</u> – This fund accounts for a replacement reserve for the County's motor pool. Revenues consist of charges to County funds for replacement of vehicles.

Fiduciary Funds

Post-employment Trust Funds

<u>Defined Benefit Retirement and Pension System Plans</u> – This fund accounts for pension investments for the four single employer plans for the County. The four plans are the Employees' Retirement Plan, Police Service Retirement Plan, Fire Service Retirement Plan, and Detention Officers' and Deputy Sheriffs' Retirement Plan. The nature and the respective terms are described in detail in the footnotes to the basic financial statements.

Anne Arundel Retiree Health Benefits Trust (the OPEB Trust) – The OPEB Trust has fiduciary responsibility to administer single employer defined benefit plans for the purpose of providing retiree health benefits for three entities. The entity plans are The Anne Arundel County Plan, the Anne Arundel Community College Plan, and the Public Library Association of Annapolis and Anne Arundel County, Inc. The nature and the respective terms are described in detail in the footnotes to the basic financial statements.

Custodial Funds

<u>Subdivision Deposits</u> – This fund accounts for amounts placed on deposit from contractors and developers pertaining primarily to road maintenance.

<u>Sediment Control</u> – This fund accounts for amounts received from developers as deposits in lieu of performance bonds for construction site sediment control.

<u>City and State Tax Collection</u> – This fund accounts for taxes collected for the City of Annapolis and the State of Maryland. Taxes are collected by the County and are then remitted to the proper jurisdiction.

<u>Tax Sale Escrow Deposits</u> – This fund accounts for payments made during the annual tax sale process. High bid premium payments are collected and held by the County until returned to the tax sale lien holder upon tax sale void, redemption, or foreclosure.

<u>National Business Park North</u> – This fund accounts for the transactions of a special taxing district. Taxes are collected and used to pay the debt for the infrastructure improvements within the district.

<u>Two Rivers</u> – This fund accounts for the transactions of a special taxing district. Taxes are collected and used to pay the debt for the infrastructure improvements within the district.

<u>Arundel Gateway</u> – This fund accounts for the transactions of a special taxing district. Taxes are collected and used to pay the debt for the infrastructure improvements within the district.

<u>Farmington Special Assessment</u> – This fund accounts for the transactions of a special taxing district. Taxes are collected and used to pay the debt for the infrastructure improvements within the district.

<u>Dorchester Special Tax District</u> – This fund accounts for the transactions of a special taxing district. Taxes are collected and used to pay the debt for the infrastructure improvements within the district.

Fiduciary Funds (continued)

<u>PACE</u> - There is a Clean Energy Loan Program to finance energy efficiency projects and renewable energy projects. A property owner participating in the Clean Energy Loan Program shall repay the loan through a surcharge on their real property tax bill. Clean Energy Loans may be provided by any private lender and a Clean Energy Financing Agreement may contain any terms agreed to by the Clean Energy Lender and the property owner, as permitted by law, for the financing of Clean Energy Loans. The County may not finance or fund any loan under the program, shall serve only as a program sponsor to facilitate loan repayment by including the surcharge on the annual County real property tax bill for the property, and shall incur no liability for the loan.

<u>Bids & Contracts</u> – Bids and Contracts Fund is a holding place for Bid Deposits submitted by potential bidders as a guarantee that if awarded a contract, they will follow through on contract execution or forfeit the bid deposit.

<u>Home Builders Guarantee</u> - The State of Maryland has established a Home Builder Guaranty Fund that is overseen by the Consumer Protection Division. This fund allows consumers to seek compensation for losses resulting from an act or omission by a registered builder who constructs a new home for a consumer. When a home builder applies for a building permit, \$50 of the cost of that permit is used to fund the Home Builder Guaranty Fund. The Department of Inspections and Permits collects and transfers this fee to the State of Maryland's Attorney General's office on a monthly basis.

<u>Victim Restitution Fund</u> - The Victim's Fund is money raised by the State's Attorney's Office and the Anne Arundel County Bar Association Foundation to reimburse crime victims who have no other means of replacing what has been damaged or stolen.

<u>Miscellaneous Escrow Deposits</u> – This fund accounts for any other escrow deposits collected by County departments or agencies that are not in one of the other custodial funds. The deposits are held until the depositor meets certain requirements at which time the funds are returned.

Statistical Section

Statistical Section

The Statistical Section presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health.

Contents

<u>Financial Trends</u> – The following schedules contain trend information that presents how the County's financial performance and strength have changed over time:

- Net Position by Category
- Changes in Net Position
- Fund Balances, Governmental Funds
- Changes in Fund Balances, Governmental Funds

<u>Revenue Capacity</u> – The following schedules contain information to assess the County's most significant local revenue source, property taxes:

- Taxable Assessed Value and Estimated Actual Value of Property
- Direct and Overlapping Property Tax Rates
- Principal Property Tax Payers
- Property Tax Levies and Collections

<u>Debt Capacity</u> – The following schedules present information to assess the affordability of the County's current levels of outstanding debt and its ability to issue additional debt:

- Ratios of Outstanding Debt by Type
- Ratios of General Bonded Debt Outstanding
- Direct and Overlapping Governmental Activities Debt
- Legal Debt Margin
- Pledged-Revenue Bond Coverage

<u>Demographic and Economic Information</u> – The following schedules offer demographic and economic indicators that present the environment within which the County's financial activities take place:

- Demographic and Economic Statistics
- Principal Employers

<u>Operating Information</u> – The following schedules contain service and infrastructure data that shows how the information in the County's financial report relates to the services the County provides and the activities it performs:

- County Government Employees by Function
- Operating Indicators by Function/Program
- Capital Asset Statistics by Function

Note: Net (expense)/revenue is the difference between the expenses and program revenues of a function or program. It indicates the degree to which a function or program is supported with its own fees and program-specific grants versus its reliance upon funding from taxes and other general revenues. Numbers in parentheses indicate that expenses were greater than program revenues and therefore, general revenues were needed to finance that function or program. Numbers without parentheses mean that program revenues were more than sufficient to cover expenses.

⁽c) See the Demographic and Economic Statistics schedule for population data.

Anne Arundel County, Maryland Direct and Overlapping Governmental Activities Debt As of June 30, 2023

Governmental Unit	 Debt Outstanding	Estimated Percentage Applicable	 Estimated Share of Overlapping Debt
Debt repaid with property taxes City of Annapolis Subtotal overlapping debt Anne Arundel County direct debt	\$ 68,112,205	100.00%	\$ 68,112,205 68,112,205 1,848,437,846
Total direct and overlapping debt			\$ 1,916,550,051

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the county. This schedule estimates the portion of the outstanding debt of the overlapping government that is borne by the residents and businesses of Anne Arundel County. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt of each overlapping government.
