PROJECT: Mayo Beach Shoreline

Part I - Planning and Design

1. What are we building, reconstructing, realigning, expanding, replacing, etc.? Breakwaters along the shoreline of Mayo Beach Park will be extended, marsh grasses will be planted, and the beach area will be replenished.
2. What problem is this project going to solve or what benefit will the project provide for the public (and how)? It will reduce sand erosion along the shoreline.
3. Where is this project to take place? (Include community, subdivisions, street names, ADC Map Coordinates, and a **Map of the area you need notified of the work.**) Mayo Beach Park, 4150 Honeysuckle Dr, Edgewater, MD 21037
4. Who will be affected by this project? Who are the PAIs (Potentially Affected Interests)? Park visitors and adjacent property owners
5. What potential problems will this project cause for the PAIs? Adjacent property owners may hear construction noise and see construction equipment.
6. How do you plan to communicate with, seek input from and work toward resolution of concerns with the PAIs? We will have a public meeting and seek input from PAI's during the meeting.

7. What is the projected schedule? (Design NTP, Bids Open, Construction NTP, Completion) Design will Design through December 2021. Construction anticipated Summer/Fall of 2022.

Part II - Construction

1. When is construction expected to start? Be completed? Summer/fall 2022 – Winter 2023
2. What days of the week will construction be taking place and what are the work hours? Construction will be M-F during normal work hours. This is TBD since we are not in the construction phase yet.
3. What can the public expect to see during construction? Dump trucks, backhoes, and barges in the water.
4. Traffic. What affect will construction have on traffic patterns? **Are any road closures anticipated in this project? Note: If closures/detours are involved, the DPW Director must approve it in advance and a Public Meeting must be held.** No road closures are anticipated. There will be no impact to traffic patterns.
5. What affect will construction have on water/wastewater service? Are there any instructions or precautions that should be communicated to the public prior to construction? None
6. In addition to the main problem resolution or benefit described in Part I, Question 2, what additional benefits does this project provide to the public? The beach access area will be improved
7. Who is the contractor? (Full name and address) TBD
8. What is the total project cost? What is the construction contract cost? TBD
9. Who is providing Inspection Management services? (Full name, address, phone no.) TBD
10. Who should the public contact with questions and concerns during construction? (For inspectors, include office, field office, cell phones, etc.) TBD

Part III - Outreach

1. What is your preferred meeting location? Zoom webinar
2. Please indicate if you want notices/updates posted to the website or elsewhere. In addition to the OPZ page they will be posted on the Park & Rec page.
