SABIT Program Tour	2
Help Us Prevent Fires	2
2023 Household Hazardous Waste Events	3
Holiday Schedule	3
Glass by Color	3
Hours of Operation	4

This Community Update was prepared by Anne Arundel County, Department of Public Works, Bureau of Waste Management Services.

Its purpose is to provide information about current and future operations at the Millersville Landfill & Resource Recovery Facility, and related activities that may interest our neighbors.

Central Recycling Center Used Oil & Antifreeze Recycling

The first phase of upgrades to the Central Recycling Center's (CRC) Meet & Greet area and Used Oil & Antifreeze Drop-off area (Oil Shed) are complete.

This phase includes a new storage area, epoxy floor coating, as well as lighting and electrical services to the Oil Shed; renovations to the Meet & Greet building (windows, ventilation, HVAC, doors, roof, and a new roof on the customer canopy with associated lighting); an enhanced storm-water management bioretention feature, and traffic safety bollards around the two buildings.

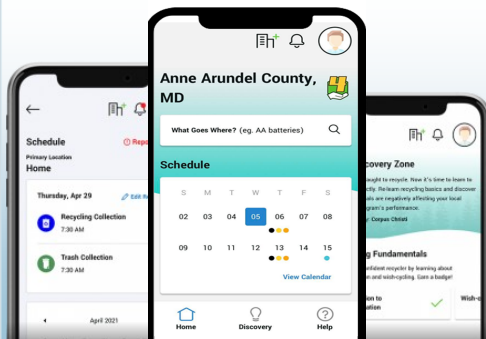

These enhancements will provide continued services to the residents of Anne Arundel County well into the future, and a continuation of our environmental stewardship with liquid waste recycling.

The facility reopened for normal operations on Monday, July 24, 2023.

The next phase of area upgrades will take place at the CRC Lower Recycling area (container wall). Construction is scheduled to begin in September or October and last approximately (8) weeks. During that time, the Lower Recycling area will be closed for larger loads. Traffic that would normally be accepted at the Lower Recycling area will be redirected next door to the Landfill's recycling drop-off area, or to one of our other County Recycling Centers.

Thank you for your patience as we strive to improve services to the residents of Anne Arundel County.

U.S. Department of Commerce—SABIT Program Tour

On April 27, DPW's Bureau of Waste Management Services hosted a tour of its integrated waste management system at the Millersville Landfill and Resource Recovery Facility campus in Severn.

The tour was sponsored by the U.S. Department of Commerce, under its Special American Business Internship Training (SABIT) Program, a business leader exchange program. Through this two-week, industry-specific program, business leaders from Eurasia, South Asia, and Europe are able to learn best practices used in the United States by meeting with public and private sector officials and professional associations and touring facilities.

A group of 18 participants from Ukraine, Moldova, Georgia, Azerbaijan, Uzbekistan, Turkmenistan, Kyrgyzstan, and Kazakhstan joined DPW for a talk and facility tour. The delegates consisted of a mix of solid waste managers and business leaders from their representative countries.

Eurasian delegates observe landfilling operations at MLFRRF

Other recent Facility Tours at the Millersville Landfill and Resource Recovery Facility:

- University of Maryland, Department of Engineering Professor and Students - held 4/11/23
- Monarch Academy, Laurel MD - held 4/25/23
- City of Baltimore Chief of Disposal Operations (Antwan Byrd) Tour - held 4/28/23
- County Executive (Steuart Pittman) and MDE Secretary (Serena McIlwain) Tour - held 7/7/23
- Solid Waste Association of North America (SWANA), Mid-Atlantic Chapter Tour - held 7/20/23

If you, or your group, are interested in a tour of the Bureau of Waste Management Services operations, please contact the Recycling & Waste Reduction Division at 410-222-7951 to schedule a tour.

(from L. to R.) DPW Director-Karen Henry, MDE Secretary-Serena McIlwain, County Executive-Steuart Pittman, Senior Environmental Policy Officer-Erik Michelsen, WMS Disposal & Maintenance Manager-Michael Porath.

WARNING!

These Items are **NOT ACCEPTED** Curbside or at any County Facility.

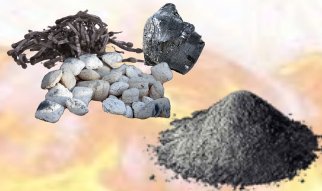

Chemicals, poisons, & liquids

Rechargeable batteries

Charcoal & Ash

Oil-based paint

Gasoline & other fuels

for Household Hazardous Waste program details visit

www.aacounty.org/services-and-programs/household-hazardous-waste-drop-off-days

Rechargeable Batteries

See www.call2recycle.org/locator/ for rechargeable battery recycling options near you. Not Accepted at County Household Hazardous Waste events.

Charcoal & Ash

Charcoal & Ash is not collected curbside, at any County Recycling Center, or at the Millersville Landfill.

2023 Household Hazardous Waste Collection Events

Date	Location
September 16, 2023	Heritage Office Complex 2662 Riva Road, Annapolis, MD 21401 Hours: 8:00 a.m.—2:00 p.m.
October 14, 2023	NOT ACCEPTED at HHW Events Latex Paint, Motor Oil, Antifreeze, Propane Tanks, or Batteries These items are accepted daily at all County Recycling Centers. Visit Call2Recycle.org for rechargeable battery recycling options.

Anne Arundel County Residents ONLY.

Commercial Vehicles and Commercial Waste NOT ACCEPTED

During each event, trained personnel will ask you to remain in your car while they unload the HHW from your trunk. To make unloading safe for staff and fast for you:

- Tightly secure all container lids to avoid leaks and spills, then set your HHW in plastic totes or boxes to contain accidental spills during transport.
- Call 410-222-7951 before an event if you have any drums of material.
- Transfer large amounts of fuel into travel-safe gas cans so staff can empty them and return them back to the owner for reuse.
- Keep materials in their original packaging, when possible, and label anything that had to be packed in alternative containers. Never mix different types of HHW in one container.
- Secure material in your vehicle's trunk, backseat or truck bed, to keep it safely away from passengers during transport.
- Make sure items can be easily accessed. Never cover or block your materials under other items like trash or yard waste.

Holiday Collection Schedule

Holidays		Landfill & Recycling Centers	Curbside Collection
Labor Day	SEP 4 (Mon)	Closed	Monday collections occur Tuesday Tuesday collections occur Wednesday
Veterans Day	NOV 10 (Fri)	Closed	Normal collections will occur
Thanksgiving Day	NOV 23 (Thu)	Closed	Thursday collections occur Friday
Thanksgiving Friday	NOV 24 (Fri)	Closed	Friday collections occur Saturday
Christmas	DEC 25 (Mon)	Closed	Monday collections occur Tuesday Tuesday collections occur Wednesday

Anne Arundel County now accepts clean, empty glass food and beverage bottles and jars of any color, shape, or size at all of its recycling centers. Just look for the specially marked recycling dumpster or ask an attendant, then sort the glass into 3 groups (**Clear - Brown - Mixed glass** (green, blue, yellow, red, etc.)).

Choosing this option provides for closed-loop glass recycling because the color-separated glass will be marketed for use in the manufacturing of new glass.

Food & Beverage BOTTLES & JARS

- Must be CLEAN
- NO Food or Liquids
- Lids & Labels OKAY
- Sort by Color Clear/Brown/All Other Colors

Note: Customers may continue to place glass bottles and jars with lids and labels into their yellow recycling containers or in the single-stream dumpster at any Recycling Center.
