This development is not needed. This is a low density residential area. This is a neighborhood of mature trees and green space.<br/>                     There is no need for shops, stores, or a high density residential development.</p> <p>The county has already built high density multi-use shopping/residential areas on Riva Road. The Annapolis Mall with its large empty stores (Sears and Nordstroms) along with the vast empty paved parking lots are ripe for redevelopment....start there!</p> <p>The county has been unable to stop the flooding at the corner of Bestgate and Wilson with every rain....if this is any indication of the county's ability to protect our local environment we can look forward to the destruction of our local waterways.</p> <p>Again, let me state unequivocally, I object to the commercial development of the Ridgely corridor</p> |            |
