These decisions *should* be deliberate, and include all considerations. Planning and zoning should NOT be foisted on citizens under "emergency" authorization.
2024-04-17 10:40:33	Stephanie	Wharton	stephaniedwharton@gmail.com	Pasadena	MD	21122	Yes	Any additional home at the Pasadena golf course would cause undue hardship to the people of Pasadena. Our roads and schools are already full. We already have enough traffic that it would be impossible to navigate any emergency evacuations already. Our schools are packed and can't handle an additional community of townhomes.
2024-04-22 14:43:42	Michael	Stumpfol	mike@stumpfol.com	Pasadena	MD	21122	Yes	What is the process to create a referendum so residents can vote on a moratorium on all rezoning in region 4? Only development that is allowed by-right would be allowed. We want less density than we currently have, not more. And candidates should know that if they do not support a moratorium on rezoning in region 4, they will not have our vote. Our region is divided by rivers, we already live with gridlocked roads and endless traffic noise. We want less density, not more. Short and sweet of it - scrap the current rezoning and place a moratorium on any future rezoning. The only future development must be by-right. Require a referendum to release the moratorium in the future.
