# Capital Budget and Program FY2026 County Executive Proposed Anne Arundel County, Maryland P591000 Lake Waterford Park Improv Project Class: Recreation & Parks Description Dept: Rec & Parks This project will fund the design and construction of improvements to Lake Waterford Park. for new tennis and Pickleball courts, developing a new roller court for power chair hockey. Additional parking, pathways, benches, shaded seating areas, and stormwater management will be included. The project includes new court lighting and an all-season air-supported court enclosure for the tennis courts. Significant reforestation will be included to both mitigate the additional development and restore park trees lost to disease. Preliminary work was completed under P452557.

The site is a regional park that serves as one of the adaptive locations in the parks system, provides fields for organized sports, and includes other passive recreational use. This work is necessary to provide more accessible amenities in this park, provide additional recreational opportunities, and replant lost forest. This project addresses the need for additional recreational facilities and expands adaptive recreation programs. Consistent with goals of Plan2040, 2022 LPPRP and Pasadena Marley Neck SAP.
