Bill No. 91-25, as amended											
2026-01-03 19:25:52	Carlos	Disla	Annapolis	Maryland	21401	Yes		Bill No. 91-25 (As Amended): AN ORDINANCE concerning: Current Expense Budget – Fund Transfer and Supplementary Appropriations – Video Lottery Impact Aid – South River Heights Special Community Benefit District – Capital Budget and Program – Advance Land Acquisition Capital Project	Support	I like the decision to remove the loan maximum to allow people to do larger clean energy projects! However, I think the minimum may be set too high at \$15,000 for residential and \$50,000 for commercial properties. The minimums at that level impede smaller, yet still valuable projects. Thank you for helping Anne Arundel fight against climate change!	
Bill No. 92-25, as amended											
2025-12-19 14:29:00	Daniel	Weber	Severn	Maryland	21144	Yes		Bill No. 92-25 (As Amended): AN ORDINANCE concerning: Subdivision and Development – Zoning – Cottage Home Development	Oppose	<p>This proposed legislation is supposed to be pertaining to Cottage Home Developments.</p> <p>1.Of what purpose, if any, does the inclusion of a Data Storage Center have in the presence of a Cottage Home Development. Please include a definition of a Data Storage Center in the proposed legislation. Is this like some of the energy hogs located in Virginia? Such Data Storage Centers belong within a heavy industrial zone NOT in a residential community of any size. This needs to be removed entirely from the proposed legislation.</p> <p>2.Page No. 5 - Lines 48-50 states: (E) The density in a cottage home development may not exceed 10 dwelling units per acre in an R1 zoning district, 15 dwelling units per acre in an R2 or R5 zoning district, and 20 dwelling units per acre in an R-10 zoning district. Each of these exceed what the county zoning already has in existing zoning codes. As written this legislation changes R1, R2 &amp; R5, and R10 zoning to R10, R15 and R22 respectively. Thus. our home (currently R2) would effectively become R15. That would destroy our neighborhood. Existing codes allow a maximum of: 1 dwelling unit per acre in an R1 residential zoned location; 2 dwelling units per acre in an R2 zoned location; 5 dwelling units per acre in an R5 zoned location, 10 dwelling units per acre in an R10 zoned location. Thus, the legislation as written violates current zoning code. Perhaps an entirely new zoning district needs to be created for cottage housing and condominium developments (i.e. CH not R) in the proposed legislation. Otherwise, cottage homes need to comply with the current existing residential zoning limitations and be restricted to R10, R15 R22 zoned locations as appropriate. Plunking high density housing into an R1-R5 zoned district is inappropriate.</p>

2025-12-29 10:21:08	Victoria	Fontz	Crofton	Maryland	21114	Yes		Bill No. 96-25: AN ORDINANCE concerning: Finance, Taxation, and Budget – Real Property Taxes – Tax Credits – Public Safety Officer Property Tax Credit	Support	<p>My name is Tori, and I have been a resident of Anne Arundel County for the past 7 years. I am writing in strong support of Bill No. 96-25, which would extend the duration of the Public Safety Officer Property Tax Credit.</p> <p>This bill directly impacts my family. My husband works as a corrections sergeant in the Anne Arundel County jail, and this tax credit is one of the key reasons we choose to build our life here and have decided to continue living in this county. Extending the duration of this credit would provide stability and recognition for the service that he and many others provide daily to our community.</p> <p>However, my support for this bill goes beyond our personal benefit. I believe deeply in policies that support people who choose to live and work in the communities they serve. That belief has guided my own career choices. I previously worked at Johns Hopkins, a larger institution with many opportunities, but I made the intentional decision to work for Luminis Health at the Anne Arundel Medical Campus. I chose that path because I value connection, stability, and investing in the place we call home.</p> <p>Bill 96-25 reflects these same values. Extending this tax credit supports retention, encourages public safety officers and their families to remain rooted in Anne Arundel County, and strengthens the communities they serve every day.</p> <p>I respectfully urge the County Council to support the passage of Bill No. 96-25. Thank you for your time and consideration.</p>

THE MARYLAND HOUSE OF DELEGATES  
ANNAPOLIS, MARYLAND 21401

December 12, 2025

**RE: Letter of Support for Bill No. 91-25**

Dear Members of the County Council:

Thank you for your steadfast leadership and continued dedication to our County. Anne Arundel has long set the example for robust legislation that protects our environment, combats climate change, and supports responsible growth.

I write in strong support of Bill No. 91-25, which would expand the Property Assessed Clean Energy (PACE) program to other critically important measures. PACE is a proven tool for advancing clean energy in the buildings across our County - and this legislation's goal of broadening eligibility to projects beyond energy efficiency to water efficiency, environmental remediation, and resiliency initiatives would be of incredible value for our County.

As you know, Anne Arundel bears the brunt of climate change impacts, including flooding from sea level rise, excessive heat from warming temperatures, and increasingly destructive storms from changing weather patterns. Archived data from the US Global Change Research Program shows that with the lowest predictable warming of 2.7 degrees, our County will experience more of the hottest days and nights, fewer of the coldest days that help to regulate climate cycles and tame invasive species, and a higher frequency of wetter storms; Anne Arundel has already warmed by 2.1 degrees, according to NOAA, and flooding in Annapolis has increased by 900% over the past 20 years alone.

The PACE program is a remarkable tool for helping our shared constituents to finance critical projects – and expanding it as proposed would allow more of our constituents to help strengthen our communities against the impacts of climate change. Given the strong statewide record of the PACE program, and the urgent need to expand resilience efforts here in Anne Arundel County, I fully support this legislation to expand its reach and help Anne Arundel County.

Sincerely,

A handwritten signature in black ink that reads "Dylan Behler".
