## STEM

### RISE STEM - Keys, Codes & Creators: Python Explorers- Part 1

Each session = 4 classes • 90 minutes each

Students begin leveling-up their coding skills by moving from block coding into real programming concepts. They learn how computers "think," discover the building blocks of Python, and practice writing simple lines of code to create animations, stories, and mini-games.

Everything is taught in a friendly, visual way that makes the jump from blocks to text-based coding smooth and exciting.

Students Will Learn:

- Core programming logic
- Variables, loops, and basic syntax
- How text-based code works
- Intro to writing simple Python scripts
- Debugging strategies that build confidence

RISE STEM: The journey from coder to programmer begins here.

### RISE STEM - Keys, Codes & Creators: Python Explorers- Part 2

Each session = 4 classes • 90 minutes each

Part 2 brings Python skills to the next level through creative coding challenges and real mini-projects. Students write longer scripts, explore conditionals ("if this, then that"), design interactive programs, and create a simple final project they can proudly show off. It's fun, empowering, and the perfect foundation for future computer science pathways.

Students Will Learn:

- Conditionals, functions & expanded logic
- Writing multi-line scripts
- Simple interactive programs
- Solving problems with code
- Completing a personal mini-project

RISE STEM: Where young programmers turn ideas into real code.

### RISE STEM: Keys, Codes & Creators: Block Coding Lab- Part 1

Each session = 4 classes • 90 minutes each

Little learners dive into a magical world where characters follow their commands and stories come alive through code. Using playful, drag-and-drop programming tools, students learn how to sequence actions, create animations, solve simple logic challenges, and experiment with early robotics. Every class blends imagination with beginner-friendly coding skills that make STEM feel like playtime.

Kids Will Learn:

- Sequencing & simple commands
- Drag-and-drop block coding
- Creative animations
- Early robotics fun
- Beginner logic & problem-solving

RISE STEM Labs: Where tiny coders unlock their first digital superpowers.

## RISE STEM: Keys, Codes & Creators: Block Coding Lab - Part 2

Each session = 4 classes • 90 minutes each

Part 2 invites returning and new students into deeper coding adventures. Learners tackle mini-puzzles, build multi-step programs, explore loops and events, and guide robots through silly challenges and obstacles. This session boosts confidence as students learn how to break down problems and bring bigger ideas to life through code.

Kids Will Learn:

- Multi-step program building
- Loops, triggers, and events
- Intro to debugging ("fixing the oops")
- Designing mini-animations
- Robot challenge missions

RISE STEM Labs: Bigger puzzles, bolder ideas, and even more coding magic.

## RISE STEM - Code Commanders: Python Boot Camp

Middle school coders take command of one of the world's most powerful and widely used programming languages—Python. This fast-paced, beginner-friendly boot camp turns complex concepts into exciting, hands-on challenges. Students learn how to write clean code, build mini-apps, generate animations, tackle logic puzzles, and debug like real developers.

By the end of the week, they'll have created several small Python projects, strengthened their problem-solving skills, and gained the confidence to continue coding long after camp ends. No prior experience required—just curiosity and a willingness to learn.

Program Highlights:

- Learn Python fundamentals (variables, loops, functions, conditionals)
- Build interactive mini-projects

- Create simple games and animations
- Practice real debugging strategies
- Explore how Python powers AI, robotics, and apps
- Beginner-friendly, but challenging enough for returning coders

Perfect For:

Tech-curious students who want to learn coding, build real projects, and boost their future STEM skills.

## Spotlight Sessions: Jazz and Lyrical Dance Camp

Step into the spotlight at our one-week Jazz & Lyrical Summer Dance Camp! This fun-filled camp blends high-energy jazz, expressive lyrical movement, and Broadway-style choreography. Dancers will build technique, musicality, confidence, and performance skills in a supportive and creative environment. In addition to dancing, dancers will bring their dances to life by creating their own stage backdrop and costume accessories as well as participate in other camp activities. This hands-on creativity allows dancers to express their individual style and feel proud of every part of their performance — from movement to stage design. Students should wear a leotard and tights or jazz pants. Jazz shoes and/or ballet shoes are recommended. Participants must provide their own snack, lunch and water.

## Request Line Dance Camp

This unique one-week dance camp puts the music in the hands of the dancers! Before camp begins, the instructor will reach out via email where students will get to request their favorite songs. The instructor will incorporate their requests into the dance combinations and activities the students will do in camp for the week. Combinations may include jazz, lyrical or modern dance styles to match their picks. Throughout the week, dancers will explore musicality, performance quality, and expressive movement while learning original choreography built just for them. This camp encourages creativity, teamwork, and confidence as students see their music choices come to life through dance. Perfect for all experience levels, this high-energy and expressive camp is all about connection, creativity, and having fun through movement — all inspired by the students' own playlists! Students should wear a leotard and tights or jazz pants. Jazz shoes and/or ballet shoes are recommended. Participants must provide their own snack, lunch and water.
