

PROJECTS CHANGE
UPDATED 03/09/2026 - LIST IS SUBJECT TO CHANGE

Baltimore SSA Moratorium Affected Development Projects

The following projects are currently under review and will be affected by the capacity hold, with the largest group flowing to the Stoney Run connection. Projects are also affected at Linthicum Shipley SPS, Patapsco SPS, and Howard County - Deep Run connections. We expect to be able to honor the projects that have been allocated but not connected yet. New allocations on this list can't be accommodated at this time.
