W514200 Routine Water Extensions

Project Class:

Water

Dept:

DPW-Utilities

Description

This project is for design, land acquisition and construction of minor extensions and minor projects identified by the department to the existing water system as petitioned by residents and identified by DPW as beneficial improvements or determined necessary as an integral requirement of CIP Road Improvement that accommodate the road design and/or avoids future excavation of the new road infrastructure. Enables the Department of Public Works to respond to emergency situations mandated by the Maryland Department of the Environment for water service. Construction of major extensions (those estimated to cost more than \$1,500,000) are programmed and budgeted as separate capital projects.

Benefit

Provides for orderly service expansion.

Financial Information

Initial Total Cost Est: \$94,000
Year First Apprvd: 1968
Est. Operating Budget Impact: Between \$50,000 & \$100,000 per year

Project Status

- 1. Current Status Of This Project: Active
- 2. Action Taken In Current Fiscal Year: Multi-Year
- 3. Action Required To Complete This Project: Multi-Year

Changes from Prior Year

- 1. Change in Name or Description: Changed project number from Y514200 to accommodate new financial system in FY27
- 2. Change in Total Project Cost: Decrease based on current estimates
- 3. Change in Scope: None
- 4. Change in Timing: None

Anne Arundel County, Maryland

W733700 Water Main Repl/Recon

Project Class:

Water

Description

Dept:

DPW-Utilities

This is a multi-year Water Infrastructure Investigation, Rehabilitation and Replacement Program. Numerous complaints of low pressure and dirty water indicate the need to investigate, rehabilitate or replace inadequate mains and service connections. Results of investigations and rehabilitation will require calibration and upgrade of the hydraulic model to accurately reflect system capacity. Additionally, data conversion and automation will be required to graphically display modeled capacity and infrastructure expansion. This is an ongoing program to replace 2" and 3" water mains and to rehabilitate or replace deteriorating 4" and larger water mains. Studies of the distribution network are also included in this project.

Benefit

To ensure the adequacy of the county's water distribution system.

Financial Information

Initial Total Cost Est: \$1,200,000
Year First Apprvd: 1985
Est. Operating Budget Impact: Potential savings/cost avoidance

Project Status

- 1. Current Status Of This Project: Active
- 2. Action Taken In Current Fiscal Year: Multi-Year
- 3. Action Required To Complete This Project: Multi-Year

Changes from Prior Year

- 1. Change in Name or Description: Changed project number from X733700 to accommodate new financial system in FY27
- 2. Change in Total Project Cost: Added FY32 funding
- 3. Change in Scope: None
- 4. Change in Timing: None

As of:	Expended	Encumbered	Total

W741400 Chg Against Wtr Clsd Projects

Project Class:

Water

Description

Dept:

DPW-Engineering

Funds are approved to allow for settlement of claims and items required in Project Performance Phase on Water Capital Projects which have been closed out prior to the settlement of the claims. Available balances from completed projects will be the primary source of funding for this project.

Benefit

This fund ensures that claims can be settled in the most expedient manner.

W744400 Exist Well Redev/Repl

Project Class:

Water

Dept:

DPW-Utilities

Description

Funds were approved and are programmed for existing raw water well redevelopment and for existing well pump replacement. The existing raw water wells have to be redeveloped to maintain pumping rates, screens need to be cleaned, and if necessary, pumps and columns completely replaced. Redevelopment to continue such that each well is redeveloped approximately once every 10 years. Included in this project is the replacement and/or remediation of existing aging and failing wells as required.

Benefit

This is an on-going project to investigate and redevelop as needed all existing raw water wells (approximately 56 wells) to ensure that all wells will continue to operate at optimum rates.

Financial Information

W753400 Demo Abandoned Facilities

Project Class:

Water

Description

Dept:

DPW-Utilities

Funds are approved, requested and programmed to demolish various water facilities which are no longer in service as required by Utility Operations. The facilities include but are not limited to, Marley BPS, Crofton Meadows I WTP building and treatment basins, Ft. Meade BPS, and Glendale SCW. Project description amended in FY16 to include Amberly Water Treatment Plant

Benefit

Demolition of these facilities will allow the county to dispose of excess land.

W801400 Crofton Meadows II Exp Ph 2

Project Class:

Water

Description

Dept:

DPW-Utilities

This project will provide funding to increase the capacity of the Crofton Meadows II WTP from 15 to 20 MGD by adding additional sedimentation basins, filters and raw water wells. Well field will be increased from 15 to 21.5 MGD. Project will include new raw water isolation valves to allow more operational control of the existing raw water mains to the plant and building modifications and repairs.

Benefit

Project will provide increased treatment plant capacity thus increasing water system reliability and reducing reliance on Baltimore City's water supply.

Financial Information

W801600 TM-MD Rte 32 @ Meade

Project Class:

Water

Dept:

DPW-Utilities

Description

This project provides for the design, right of way acquisition, & construction of approximately 28,000 linear feet of 24-inch water transmission main. Phase I includes approximately 16,200 linear feet of pipeline & extends from the intersection of Brockbridge Rd and Guilford Rd, along Guilford Rd and MD Rte 32 to the intersection of Mapes Rd & MD Rte 32. Phase II includes approximately 11,800 linear feet of 24-inch main & extends from Mapes Rd, continues along MD Route 32 to the proposed 36-inch transmission main being constructed under Project W-7784. It also includes other improvements as required to provide secondary supply of water to 369 PZ until project completed.

Benefit

Project will improve reliability by providing a looped transmission main. Project will allow flow from the 400 Zone to the 330 Zone and will ultimately be a water source for a future booster pumping station pumping from the 330 Zone and discharging to the

W801800 Arnold WTP Exp

Project Class:

Water

Description

Dept:

DPW-Utilities

This project provides funding for the design, right of way acquisition and construction of an expansion for the Arnold WTP. Project includes the expansion of both, the water treatment facility and well fields from 8 to 16 MGD. The project will also increase the pumping capacity of the booster pumps by 4.6 MGD and upgrade of the existing plant control system. The construction of this project is funded over two years.

Benefit

Project will provide increased treatment capacity thus increasing water system reliability and reducing reliance on Baltimore City's water supply.

W803300 WTR Infrastr Up/Retro

Project Class:

Water

Description

Dept:

DPW-Utilities

Funds are requested for design and construction to upgrade various water system infrastructure, including structures and equipment to meet current control and operational standards.

Benefit

This project will better ensure the proper operation and maintenance of water infrastructure facilities to allow upgrades, rehabilitation or replacement of various components to improve reliability and performance.

W803600 East/West TM - North

Project Class:

Water

Description

Dept:

DPW-Utilities

Funds are requested for the design, right of way acquisition and construction of a water transmission main that will transfer water in an easterly-westerly direction in the northern part of Anne Arundel County. Generally, the transmission network will provide improved distribution system conveyance between the Glen Burnie High and Glen Burnie Low Service Areas, while providing a source of supply for pumpage to higher pressure zones in the western part of the County.

Benefit

The project will improve the County's distribution system, allowing conveyance of water between service zones during periods of peak demands. The project when completed will also improve reliability and redundancy.

W805700 Heritage Harbor Wtr Takeover

Project Class:

Water

Description

Dept:

DPW-Utilities

Project includes Design, Right-of-way acquisition, and construction of water improvements based on a valid petition for approximately 106 units. The project is located in the Heritage Harbor sections of Crest Cove, Misty Ridge Cove, North Haven Cove, Point Lookout Cove, Quiet Waters Cove, and Twin Landings Cove.

Benefit

The Heritage Harbor sections of Crest Cove, Misty Ridge Cove, North Haven Cove, Point Lookout Cove, Quiet Waters Cove, and Twin Landings Cove have requested through petition that DPW takeover and maintain their existing private water system.

W806300 Water Meter Replace/Upgrade

Project Class:

Water

Description

Dept:

DPW-Utilities

This is a multi-year project to support the replacement and upgrade of aging water meters including cost for purchase and inventory of new meters. The project anticipates an annual replacement of approximately 5,500 meters from the total inventory of 142,000 metered accounts.

Benefit

Meter replacements will minimize revenue losses associated with the reduced accuracy of older meters. In addition, replacements of older meters with automatic meter reading technology will enable more accurate and efficient collection of information.

W809100 AMI Water Meter Program

Project Class:

Water

Description

Dept:

DPW-Utilities

This project will provide funds for design, construction, and implementation of Advanced Metering Infrastructure System. Initial phase of the project will include design and engineering of software architectural and system infrastructure. The project will be a multi-phase implementation project.

Benefit

Automated water meter infrastructure will provide a more enhanced data collection system with improved efficiencies and improved customer interactions.

Financial Information

Initial Total Cost Est: \$2,916,000
Year First Apprvd: 2021

W809600 Arnold WTP Upgrades

Project Class:

Water

Description

Dept:

DPW-Utilities

Funds are requested for the design, construction, and inspection of a new administration building and maintenance building at the Arnold WTP. This project will also include an upgrade to the existing process control system and related SCADA system improvements, replacement of electrical power distribution equipment, and upgrades to the facilities' fires alarm system as needed.

Benefit

This project will increase operational efficiency by allowing Team Managers to be more centrally located to the facilities in their area of responsibility. Relocation of personnel from Millersville will also assist in alleviating space constraints at the Millersville location. Improvements to the fire alarm system will improve facility safety.

Financial Information

Initial Total Cost Est: \$3,922,000

W809800 Dorsey WTP Improvements

Project Class:

Water

Description

Dept:

DPW-Utilities

Funds are requested for the design, construction, and inspection of a new administration building and maintenance building at the Dorsey WTP. This project will also include process control system and SCADA system improvements, replacement of electrical power distribution equipment, upgrades to the facility's fire alarm system as needed, and painting and repair of structures and equipment throughout the facility.

Benefit

This project will increase operational efficiency by allowing Team Managers to be more centrally located to the facilities in their area of responsibility, and alleviate space constraints at the Millersville location. The additional maintenance area should also allow simpler maintenance activities to be performed in a more central location relative to the service region.

W810800 Heritage Harbor WM Interconnec

Project Class:

Water

Description

Dept:

DPW-Utilities

Funds are requested for the installation of a new water main to connect two sections of the Heritage Harbor sub-Pressure zone. Work shall include design, construction, and construction inspection related to the construction of a new water line to interconnect portions of the existing Heritage Harbor area

Benefit

This project will interconnect portions of the water distribution system in the Heritage Harbor sub-Pressure zone. Interconnecting portions of the distribution system will improve pressure distribution and increase overall service reliability.

Capital Budget and Program

FY2027 County Executive Proposed

Anne Arundel County, Maryland

W800300 Balto City Water Main Rpr

Project Class:

Water

Description

Dept:

DPW-Utilities

Funds are requested for engineering and construction monies for the repair of the 72 inch transmission main paralleling the Key Bridge. This is one of two water supply feeds from Baltimore City. Additional funds are also requested for the County's share of the Hillen/Ashburton 64 inch bypass line. County share is 13% per a January 30, 1980 interjurisdictional agreement. Additional funds requested in FY07 for the County's share of the investigation and repair/replacement of the 54" transmission Main and 36" transmission Mains supplying the Nursery Road Booster Pumping Station. Portions of this project will be under taken as a joint venture with Baltimore City and Baltimore County. Note: Costs represent projected Anne Arundel County share only.

Benefit

The transmission main is a major water supply source supplying up to 9 MGD. Lack of water supply has resulted in water use restrictions this past year in the northern part of the County.

Financial Information

Initial Total Cost Est: \$2,520,000

W801200 12" St Marg/Old Mill Bttm

Project Class:

Water

Description

Dept:

DPW-Utilities

This project is for design, right of way acquisition and construction of approximately 7,000 linear feet of 12-inch water main within the 220 Broadneck Service Area. The main will extend along St. Margaret's Road from the Amberly WTP to the existing distribution system located on the north side of MD Rte 50 at Old Mill Bottom Road. The project will improve the pressure within the existing distribution system.

Benefit

Project will complete loops between the existing 12-inch main on Old Mill Bottom Road North and the proposed 12-inch main in St. Margaret's Road.

Project Status

1. Current Status Of This Project: Active
2. Action Taken In Current Fiscal Year: Design, Construction

Amendment History

County Council reduced \$1,279,700 via AMD #37 to Bill 29-19.

W804600 Balt City - Fullerton WTP

Project Class:

Water

Description

Dept:

DPW-Utilities

Funds are requested for Anne Arundel County's share of the proposed Baltimore City Fullerton Water Treatment Plant. The facility is being planned, designed and constructed to meet regulatory requirements, demands of the water service area and to provide reliability. Funds will only be requested to cover Anne Arundel County's share of the new facility in accordance with inter-jurisdictional agreement between Baltimore City, Anne Arundel, Baltimore and Howard Counties.

At the time of project request, Anne Arundel County's proportional share of the project has not been agreed upon. Local share could range between 4% to 10% of the total \$500 million dollar project cost. Future funding requests will be made in the 5 Yr Program once percentages are agreed upon by all jurisdictions.

Benefit

The new facility is needed to meet regulatory requirements for potable water treatment, to provide operational reliability and to meet future demands. When completed, Fullerton will allow upgrade/rehabilitation of the Montebello Filtration Plant that currently provides water supply to Anne Arundel County.

Financial Information

Initial Total Cost Est: \$106,000

W805000 Water Fac Emerg Generators

Project Class:

Water

Dept:

DPW-Utilities

Description

This multi-year project provides funding for the design and construction of new and replacement generator installations at water treatment plants, water booster pumping stations, water production wells and other water related facilities located throughout the County. Generator installations will include generator, fuel storage, automatic transfer switches, sound attenuation and necessary electrical components/wiring, as well as, associated alterations to address code compliance issues.

Benefit

Generators provide a back up power source for water production and transmission facilities in the event of primary power failures. The supplemental power source will allow the utility to meet domestic and fire water demands in the event of extended power outages.

Project Status

- 1. Current Status Of This Project: Active

W805600 Dorsey Lime System Upgrade

Project Class:

Water

Description

Dept:

DPW-Utilities

The purpose of this project is to design and construct several process system upgrades to maintain reliable operation of the facility's treatment components including the lime system volumetric control system, mixers, silo activators, lime pump control system, and the lime feed lines inside the process building as well as those delivering lime to the outdoor application points.

Benefit

The improvements are necessary to upgrade/rehabilitate facility infrastructure to extend the lime system operating life and to maintain efficient treatment operations.

W805800 Whiskey Bottom Road Interconn

Project Class:

Water

Description

Dept:

DPW-Utilities

Project consists of design, right of way acquisition, and construction of approximately 1600 LF of new 12" water main connecting the existing water main in Whiskey Bottom Road to the Howard County Public Water System.

Benefit

This will allow for an emergency connection to the Howard County Public Water System if required, allowing for additional redundancy in the Maryland City Pressure Zone and the Laurel area.

W806100 Hanover Road Water Main Ext

Project Class:

Water

Dept:

DPW-Utilities

Description

This project is for the design, right-of-way acquisition, and construction of approximately 1,450 linear feet of 12" water main from Ridge Road to New Ridge Road in the Hanover area. This project is being done in conjunction with the road design under H566701.

Benefit

This project will complete an important water main loop, improve reliability, and increase available fire flow in the surrounding area.

W808800 OPS Compl Solar Panels Water

Project Class:

Water

Description

Dept:

DPW-Utilities

Funds are requested for the design, construction, and inspection of new photovoltaic panels at the Utility Operations Complex. Work will include solar arrays on existing building roofs, canopies over parking lots, electric vehicle charging stations, and other necessary improvements to support the system.

Benefit

This project will improve energy efficiency at the Utility Operations Complex and reduce the use of electricity.

Financial Information

Initial Total Cost Est: \$2,963,000
Year First Apprvd: 2020
Est. Operating Budget Impact: Potential savings/cost avoidance

Project Status

1. Current Status Of This Project: Active
2. Action Taken In Current Fiscal Year: Performance
3. Action Required To Complete This Project: None

Changes from Prior Year

1. Change in Name or Description: None
2. Change in Total Project Cost: None
3. Change in Scope: None
4. Change in Timing: None

As of:	Expended	Encumbered	Total
04/01/25	\$2,139,509	\$116,255	\$2,255,764
04/01/26	\$2,159,050	\$101,524	\$2,260,574

Amendment History

Added \$1.5m in grant funding and decreased water bonds by \$1.5m via Bill No 107-21
