Meeting ID: 851 3122 7415  
Passcode: Aaco2026!  
**Or Telephone:** +1 301 715 8592 US (Washington DC) or 888 475 4499 US Toll Free  
Webinar ID: 851 3122 7415  
Passcode: 131465031

A public meeting has been scheduled from 6:00 p.m. to 7:00 p.m. on Wednesday, July 29, 2026 virtually via Zoom for a discussion on the plans for the BMP 136 Private Pond Retrofit. BWPR staff and the County's engineering consultant will present the goals, design and drawings for this project.

The existing facility will be converted from a dry pond into a surface sand filter to meet Anne Arundel County's objectives to improve water quality treatment based on the County and State's nutrient reduction and impervious area treatment goals. The sand filter media installed in the pond bottom will treat impervious runoff entering the pond. An underdrain pipe will carry treated runoff to a new riser structure. Construction should begin in late August or September.

The project limits for the BMP 136 pond retrofit will be generally contained within the existing fence around the pond, which is located at the intersection of Heritage Hill Drive and Saint Thomas Place in Glen Burnie, Maryland. The pond location is shown on page 2.

Anyone needing accommodations must contact DPW Customer Relations at 410-222-7582 or by email at pwcust00@aacounty.org at least seven days before the event. TTY users, please call via Maryland Relay at 7-1-1. All materials are available in alternative formats upon request.

Below is a map of the project area:
